### **Report on “Born To Blossom“**

“Born to Blossom” seminar was organized by the prestigious Swami Vivekananda Kendra, at Vivekanand Education Society’s Institute of Technology on the 23rd March, 2018 Friday for theVESIT students and faculty. The guest speaker Shri Vishwas Ramchandra Lapalkar, Prant Sanghatak of Maharashtra Prant, was introduced to the congregation by Mr.Mehul Tuteja, a 1st year MCA student of our college, who briefly recounted his achievements before inviting him to the Dias.

Ms. Archana and Ms. Sujata, co-workers of Mr. Vishwas ji, opened the seminar with the chanting of the Omkara followed by a patriotic song “Hind Ke Bahaduron”. Everybody was encouraged to participate in the singing.

Another co-worker of the speaker briefly informed the audience about the level of dedication and level of enthusiasm of the 68 year young speaker and asked them to take full advantage of his presence by paying undivided attention to his words. He was given a token of appreciation by one of the staff.

### **Mr. Vishwas took the stage**

He started with informing the audience, that a museum dedicated to Swami Vivekananda was inaugurated 1 year ago, by the Prime Minister Narendra Modi at Rameshwaram, at a place very close to the residence of the ex-president Abdul Kalam. He said that the intended topic of the day was originally “Born to Succeed” which he prudently changed to “Born to Blossom” which is also the name of a book written by Dr. Abdul Kalam.

He recounted fondly of how his journey had begun with this same institution many many years ago, when he along with his 15 friends were addressed by Mr.Hashu Adwani who inspired him to know more about Swami Vivekananda and his mission.

He gave us the distinction between succeeding and blossoming of a personality with an example of Swami Vivekananda’s personality, his ability to inspire people like Bhagini Nivedita. Recently in England, a road has

been named in her honour.

On 27<sup>th</sup> August 2007, the Prime Minister of Japan, on a visit to India, addressed the parliamentarians. The first thing he expressed was the honour of being in the land of Vivekananda who, according to him, had given the blueprint of development of Japan.

The speaker lamented that India who also had the blueprint in their hands had not used it, while Japan had used it to become a superpower.

The main stay of the blueprint was “Love for the Motherland”, he mentioned this in his 1897 address.

The main 2 points that he had given to the Japanese people was - include your culture in the education system and inculcate love and sacrifice for the motherland, which is bearing results for them, even today.

The main reason for India being what it is today is that the youth is not ignited and is lethargic. Their whole life boils down to 54321.

5 digit salary.

4 wheeler

3 BHK

2 of us – Husband and Wife

1 Child.

The love and sacrifice for the motherland is missing.

He recounted a small incident in the life of the Sattriya dancer Pradeep Kumar who was performing and a Japanese gentleman came to see his program. He expressed his desire to learn the art. It took three or four years for Mr. Pradeep to visit Japan.

Three to four years later, when he got an opportunity to visit Japan, he went looking for him, address in hand. There he met two Japanese youngsters whom he asked for directions. He was immediately recognized as an Indian by his attire and one of them offered to take him to his destination on his bike. On the way, they stopped at a shop where the youth went in and where Mr. Pradeep saw the youngster and shop owner have a small argument.

When he came out, he asked him what the matter was. At first he refused to say anything, but upon insistence he revealed that he was short of money for the petrol to take him to his place and so he had asked to borrow some money from that lady. But upon knowing the true reason for his asking, she insisted that she herself would pay for the petrol as he was neither her guest nor his, for...he was a guest of JAPAN. That is the culture of Japan, Country Beyond everything. Unless and until this is inculcated in every one of us, India cannot rise to the position dreamed of by Vivekananda and more recently Dr. Abdul Kalam.

Now, the youth have to be fired up and have to be ever ready for service and sacrifice. He declared himself to be not 68 years old but 68 years young as he was fired up by the doctrine of Vivekananda.

He shared an incident in his life when he was 6yrs old and he had an altercation with his brother and slapped him. When the elders of the house came to know, he admitted to slapping his brother. When his father asked him what the main use for the hand was, he replied that it was for eating. Upon this his father said that although it was correct but just using it or feeding oneself would make you just like any other animal. Using to serve others in distress and feed hungry souls is the true use of the hand. The reason Vivekananda went to America was to share the wisdom of India with the world, the essence of which is “The Power Lies Within you”

We will be able to work on this only when we have a basic understanding of the *three laws of existence*:

- **All of us are Interconnected, Interdependent, Interrelated.** He gave an example of his travel from Nagpur to Mumbai. He slept comfortably in the night on the train but he realized that that was possible only because of the hundreds of people who were working to make it happen for him...the train driver was alert and driving, lines men were doing their job, the security personnel were guarding the train well, etc. Today, we can have a good meal, it is because the farmers are toiling to grow crops, people packaging and selling in the cities so we can procure it conveniently at our doorstep. So our existence is not possible in isolation. This realization will itself change the perspectives of the people around us.
- **Purpose of Life.** Every one of us have a purpose in life whether we know it or not. We are a part of the circle of creation and we have specific role to play. Our goal must be to find out that purpose and deliver on it.
- **Be Connected with the whole.** We are all a part of the same one creation. A very good example of this is the human body. If tomorrow the hand suddenly feels that it is the only one doing all the work of feeding the body and it feels overworked and stressed and decides to go on strike, then after a while the body will become weak and the hand, which is also a part of the body, will also become weak. So, we cannot separate from the whole and we each have our own role to play and no role is too big or small.

He concluded by asking us to create a good personality, be transparent and true to oneself, create a good relationship with one's own family. Work for harmony in the society and peace and order among the nations.

Working towards this cause will result in the blossoming of the personality.

Another associate of theirs later informed us about the various courses that come under the umbrella of the prestigious institution of Swami Vivekananda Kendra.

He thanked the gathering for giving him this platform to share his knowledge and stated that we learn by teaching and every teacher is a learner and every learner is a teacher.

Ms. Sujata ji then concluded the session with a soul calming prayer.

The seminar was officially ended when Mr. Tarandeep Singh Saini delivered the vote of thanks.

## Inaugural speech

Good afternoon to one and all present here, Respected faculties and my dear friends. To begin with today's session, I would request Madam Seema Bhosale Ji to please come up on the stage and start the session.

(Aum Uchharan)

### **SUCCESS,**

It's a very important word, everybody wants success, Yes or No?

If I will ask who wants success, or who wants to blossom in their lives, everybody's hands will be up.

Keeping this thing in mind, our college VESIT has arranged a very effective and motivational session, which will help all of us to blossom in our lives. For this we are having a very special personality, Respected, Vishwas Ramchandra Lapalkar Ji, who is going to blossom our day with his motivational speech, sharing his experiences and precious knowledge for us, for the youth.

I request professor Solanki to please felicitate our special guest for the day.

(After felicitation)

Alongwith him we are also having Miss. Archana Ji, Madam Sujata Dalvi Ji and Madam Seema Bhosale Ji.

The guest speaker, Shri Vishwas Ramchandra Lapalkar Ji, Prant Sanghatak of Maharashtra Prant, He is from Nagpur.

- He was lecturer of Zoology in a college, Nagpur.
- He was secretary, Vivekananda Kendra, Nagpur branch from 1977 to 1980.
- He joined Vivekananda Kendra as a Jeevan Vrutri in 1981.
- He was the education officer of Vivekananda Kendra Vidyalayas, Arunachal Pradesh from 1981 to 1986.
- He was also in charge of Delhi, Rajasthan and Gujarat region during Vivekananda for Bharat Parikram in 1992.
- He was Coordinator, Vivekananda Kendra Institute of Culture, Guwahati from 1994 to 2001.
- Also, he was secretary of Vivekananda Kendra Shiksha Prasar Vibhag(All VKVs in North East India which is presently 54) from 2001 to 2010.
- Prant Sanghatak, Vivekananda Kendra Maharashtra Prant.
- Faculty for teachers orientation training course in institutions and universities.
- NSS coordinator during college period.
- Currently he is Prant Sanghatak of Maharashtra Prant.

Well, I am surprised, that a person can achieve so much in one life.

Now, I would like to request our guest speaker for the day Shri Vishwas Ramchandra Lapalkar Ji, to please come up on the stage and blossom us with their beautiful words.

(After the speech)

So people, are you feeling motivated now???

I used only two adjectives effective and motivational but this session delivered a lot more. During this session I remembered one thing that we get a life as a human after getting lives in 84 lakh different species. So just realize the value of this life and give a reason to your life, not an excuse.

Now it's time for a prayer by Madam Sujata Dalviji.

(After prayer)

That was really a soul satisfying prayer!

Now, I would like to request my friend Tarandeep Singh Saini to please come up on the stage and give the vote of thanks.

## Vote of thanks

So ladies and gentlemen, I guess everyone here is feeling glad to attend this session. I am also motivated and inspired by the speech of Mr. Lapalkarji. As well said by Vishwasji, removing ego and loving your fellow being will lead you to a healthy life.

Be passionate, have empathy, do respect and spread love.

Don't only learn bookish knowledge but also learn to implement it in real life.

I would also like to thank Ms. Archana ji for starting the session with such a motivating song and also Ms. Sujataji for ending the session with such a calming prayer.

I would now like to give a vote of thanks to Mr. Lapalkarji for sharing his valuable knowledge and experience.
