Report of How to write Technical paper

The Department of Electronics organized a seminar on "**How to write a technical paper based on Research and innovation?**" on 2nd March 2022. The seminar was conducted using virtual mode (Google Meet) for final year students.

This seminar was conducted in collaboration with VESIT IIC and VESIT IQAC. The main aim of the seminar was to motivate and encourage final year students to write technical paper and publish in conferences and journals.

Dr. Abhay Kshirsagar and Dr. P Birajdar delivered the seminar. Dr. Kshirsagar explained all aspects of technical paper writing covering topics like.

- a. Paper structure/organisation
- b. Importance of methodology
- c. Result discussions
- d. Choosing appropriate conference/journal

Dr. Kshirsagar also presented some examples explaining reasons for rejection of papers and discussed how to avoid such mistakes.

The session1 was concluded by answering all questions from participants.

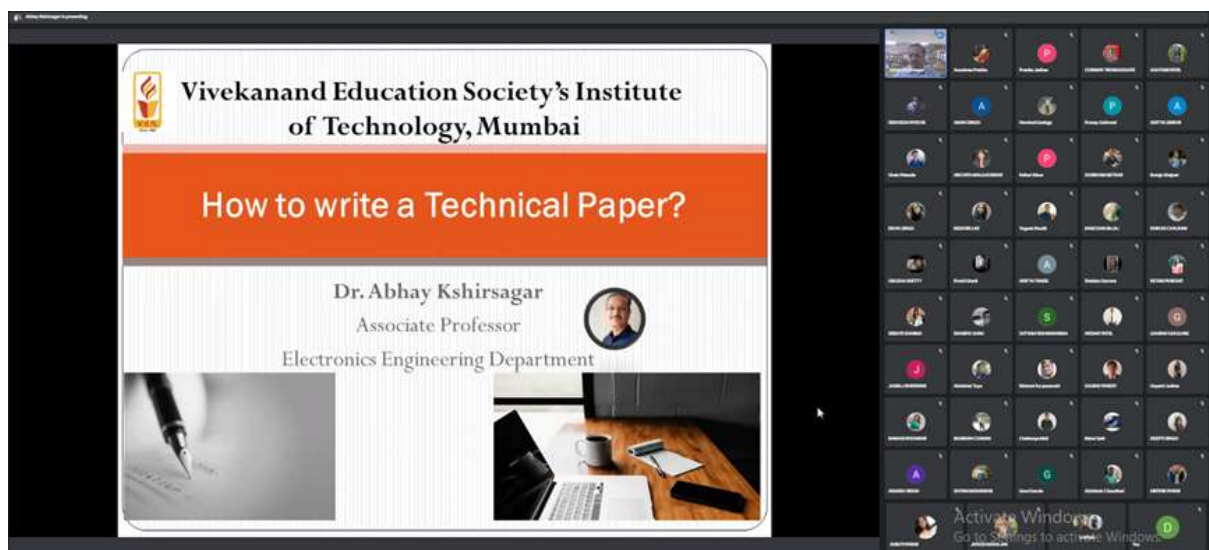

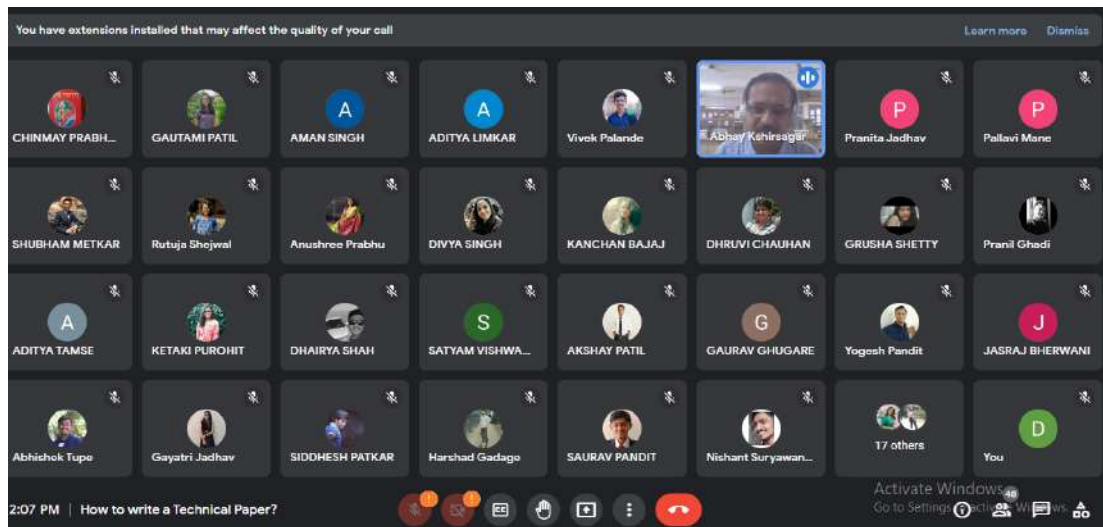

Session2 was conducted by Dr. Birajdar. He discussed various platforms where papers can be presented. He also explained those platforms and shared list of standard journals and upcoming conferences.

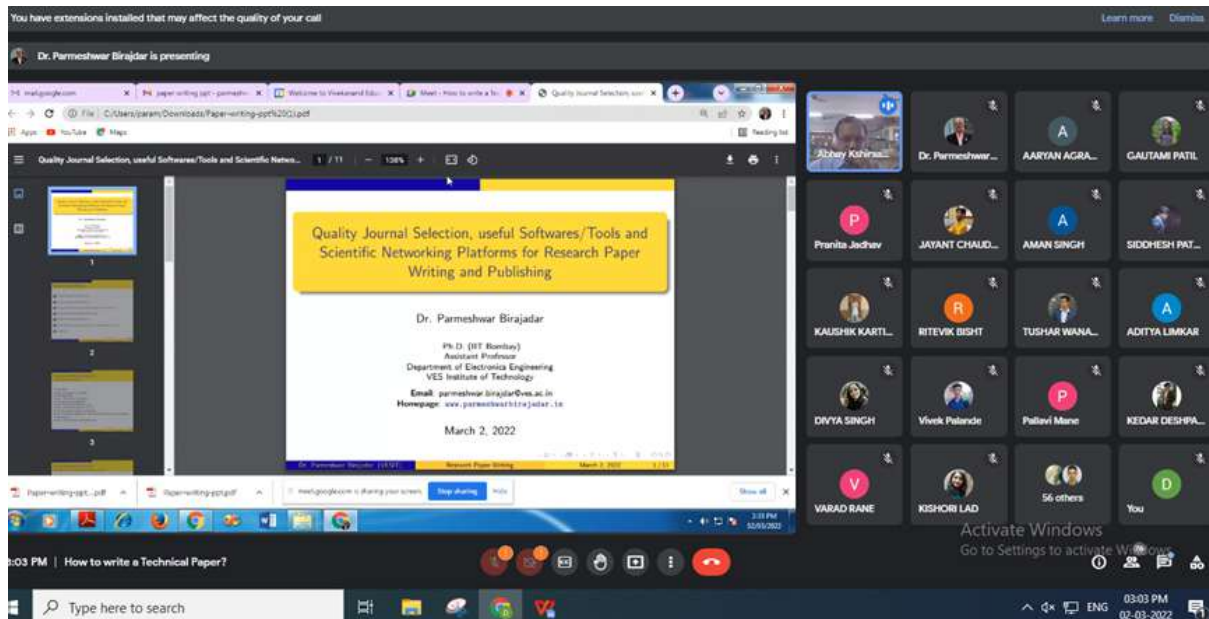

Dr. Birajdar also covered important points related to drafting paper using tools like Latex.

The seminar was attended by faculty members and around 80 final year students.

Report on SCI-TECH FAIR 2022

The Department of Electronics Engineering, (VESIT) organized SCI-TECH FAIR, Project Exhibition of Third and Final Year Students Project on 20th April 2022 (Wednesday). Students exhibited innovative project ideas through this platform.

Venue: Lab No. : 201, 202, 205, 206, 209, 215.

Following faculty members co-ordinated the “SCI TECH FAIR ”

1. Dr. Abhay Kshirsagar
2. Mrs. Dipti Karani
3. Mr. Abhishek Chaudhari

The project exhibition started at 10:30 AM. The response was very good from participants. The projects were exhibited for Staff and Students from VESIT and had healthy discussions with them. HOD and Dy.HOD visited all the project groups and encouraged them. Participating project groups explained the design process and implementation challenges faced during the course of the project. The correct approaches and design solutions were discussed. Around 200+ students presented 60 Projects during the exhibition.

The image collage illustrates concepts in search engine marketing and optimization. It features a slide titled "Paid vs. Organic Search Results" which compares "Paid results" (ads) and "Organic results" (natural search results) on a search engine interface. Another slide compares "Search Engine Marketing" and "Search Engine Optimisation". A screenshot of a Google search for "wooden furniture online" shows a list of products with prices and ratings, with a red box highlighting the top results. A blue box labeled "Google Ads" is also present.

On
"Fauda / Jugaad : Online Teaching Pedagogy"**

Abstract: As the world recovers from the CV19 pandemic, student enrollment at US universities has spiked. As a consequence class sizes have grown and there is greater pressure on student engagement particularly in class sizes of 40 or higher. Traditional lecture delivery has failed and flipped-classroom is also at its practical limit. In this talk the speaker will describe a new education delivery model based on a platform adopted by NJIT to provide a better educational experience to its students. This talk is primarily for educators in computer networks and protocols but the broader context is applicable to other disciplines.

Speaker
Dr. Kumar Mani

On
Innovative Approach towards Entity Resolution:
who's who and why is it important?**

Abstract: Information about people and organizations, by its very nature, is dynamic. The more information you have, the more likely you can identify and understand the often evolving nature of both persisting and emerging threats. But when the available information begins to scale into terabytes and contains a great deal of "noise", traditional tools may fall short of the challenge. In this talk, the speaker will give an overview of the underlying problem and address tools and technologies that attempt to solve this problem of entity resolution and relationships.

Speaker
Mr. Raj Muralidharan
MS in Applied Mathematics and a MS in Computer Science from NJIT
Independent consultant focusing on Entity Resolution Technologies and Professor at Virginia Tech Institute

Platform: Offline (Room no: B32)
Speakers: Yashraj Desai
No of attendees: 80
Sponsored by: GITHUB

Event Poster: Chai API Charcha : Workshop and API Development Competition

Summary:

The event was open to all the departments, and there was a huge turnout, with approximately 40 teams i.e around 80 people were in attendance for the workshop and 15 teams competing in the competition.

The event commenced with a short welcome address given by our HOD Dr. (Mrs.) Nupur Giri who was also accompanied by our codecell in charge Mr. Prashant Kanade and Coordinator Mr. Richard Joseph. The primary goal of the event was to motivate students to learn new things and implement them as well. The students were introduced to the concept of APIs and their implementation using nodejs, Chai, and swaggerhub.

The workshop began with a basic introduction to APIs, which included real-world examples and their uses in everyday life.

The workshop then progressed to the programming portion, which was done with nodejs. Because the participants were coding at the same time, it was a hands-on experience for them. Throughout the workshop, our team answered all of the participants' questions. Later, using Chai and swaggerhub, the participants were taught how to build and test APIs.

The second part of the event was the competition. All teams were given a problem statement to create their APIs and 2 hours were given to complete the task. Meanwhile, the participants were also served tea(chai) . Finally, they were instructed to upload their documentation on GitHub. Overall, the event was a huge success. Chai API Charcha received an overwhelming response from the audience.

2.4.2 Creative Ideas & Innovations In Action (CIIA) Contest :

Under the guidance of VESIT-IIC, students of the Department of Computer Engineering attended the **Creative Ideas & Innovations In Action (CIIA) Contest** (a project by the Rotary Club of Bombay and Baldev Sharma's Marshalls Foundation powered by The Times of India Group) conducted on **29th March & 30th March 2022**. Out of the 15 groups that participated for the contest from the Institute, **6 groups were selected from the Department of Computer Engineering**. It was an opportunity for them to showcase their working models to Startups, Research Institution, Industry, Corporates, Defense or other Establishments. Along with the Expression of Interest received, students were motivated towards enhancing their projects to the next level.

DEPARTMENT TECHNOLOGY DAY 2021-22
PRADARSHAN'22
A PROJECT COMPETITION

MARCH 28, 2022
12:30PM ONWARDS
Venue: Lab 307, 308, 309 & 310

Areas of Specialization

- AI, Deep Learning & DWM
- Big Data Analytics & Machine Learning
- IoT & Robotics
- Image Processing
- Networking & Security
- High Performance Computing
- Cloud Computing

Project Coordinators

Mrs. Vidya Zope (SE)
Mrs. Priya R. L. (T.E.)
Mrs. Mannat Doultani (B.E.)

	Palak Garg	D12B				
6	Sahil Lotya	D17B	Detection of ADR from vaccine safety data	Industry	Sujata Khedkar	3rd Prize
	Nikhil gangaramani	D17c				
	Akansha Ahuja	D17A				
	Shivani Kulkarni	D17C				
7	Roshni jaisinghani	D7A	Android - Memory Game Development for Kindergarten	Product design and Development	Mrs. Pallavi Saindane/ Mrs. Ashwini Gaikwad	Finalist
	Sahil Dodeja	D7A				
	Vanshika Makhijani	D7A				
	Divya Makhija	D7A				
8	Payal Kukreja	D12C	Votechain : A Decentralized Voting System	Networking and Security	Mrs. Veena Trivedi	Finalist
	Payal Mangtani	D12B				
	Sakshi Ailsinghani	D12A				
	Kumodh Kukreja	D12B				
9	Jahnvi Mulchandani	D12A	Amigo: My virtual friend	Data analytics and Machine Learning	Mrs.Manna t Daultani	Finalist
	Shruti Koku	D12A				
	Aryan Gupta	D12A				
	Ruchika Dusija	D12A				
10	Sneha Karthik	D12C	Road Condition Detection	Image Processing	Mrs. Vidya Zope	Finalist
	Srishti Shetty	D12C				

	Gauri Mahajan	D12C				
	Mrunmayee Waingankar	D12C				
11	Manasvi Patwa	D12C	Towards attaining SDG with AI: assessment of riverine plastics	AI, Deep Learning and DWH Mining	Mrs.Sharmila Sengupta	Finalist
	Bhavika Chattani	D12C				
	Sahil Deshmukh	D12A				
	Varnit Batheja	D12A				
12	J N Guru Akaash	D12A	AI based statistical analysis of land-use plastic pollution in India	AI, Deep Learning and DWH Mining	Mrs.Priya R.L.	Finalist
	Nair Ajay Ravidran	D12A				
	Manigandan Kasimani	D12A				
	Varun Tripathy	D12A				
13	Parth Paresch Wadke	D12A	Forecasting of Carbon Emission due to Meat Industry	AI, Deep Learning and DWH Mining	Mrs. Sunita Sahu, Mrs. Richa Sharma & Mrs. Manisha Mathur	Finalist

2.6 Industry Visits

1. Department of Computer Engineering has arranged an industrial visit to Agricultural Research Station, Lonavala on 1st October (2021 11:00 AM to 12:45 PM)

List of Participants:

- 1) Dr. K. S. Raghuwanshi (Rice Pathologist)
- 2) Dr. Sharmila Sengupta (Ass. Prof, VESIT)
- 3) Etisha Mathurvaishya
- 4) Rounak Taleja
- 5) Bhajan Watwani

2. Department of Computer Engineering has arranged an industrial visit to TIFR Mumbai on 17th March and (11:30 AM to 7:15 PM) 9th April 2022 (11:30 AM to 7:15 PM)

List of Participants:

1. Dr. Shashi Dugad (TIFR)
1. Mr. Irfan Mirza (TIFR)
2. Amit Chhabria
3. Swarangi Dali
4. Ajay Singh Khalsa
5. Rashmi Manwani
6. Priyanka Asrani

Agenda:

- Presentation of work done by the CMS group

3. Department of Computer Engineering has arranged an industrial visit to TIFR Mumbai on **23rd December 2021 (10:30 AM to 4 PM)**

List of Participants:

1. Dr. Shashi Dugad (TIFR)
2. Mr. Irfan Mirza (TIFR)
3. Amit Chhabria

4. Swarangi Dali
5. Ajay Singh Khalsa
6. Vaishnavi Ainapure

Agenda:

- Presentation of work done by the CMS group

CMM machine for creating the images for the dataset

4. Department of Computer Engineering has arranged an industrial visit to TIFR Mumbai on 03th March 2022 (12:45 PM to 6:30 PM) and 24th March 2022 (12:45 PM to 6:30 PM)

List of Participants:

1. Dr. Shashi Dugad (TIFR)
2. Mr. Irfan Mirza (TIFR)
3. Mr. Indranil Das (TIFR)
4. Mr. Jay Jhaveri (VESIT)
5. Mr. Abhay Gupta (VESIT)
6. Mr. Neeraj Ochani (VESIT)
7. Mr. Prem Chhabria (VESIT)

Agenda:

- Execution of the BE Project (Secure Communication Group) on CentOS at TIFR Premises.

5. Department of Computer Engineering has arranged an industrial visit to TIFR Mumbai on **04th April 2022 10:30 AM to 04:00 PM**

List of Participants:

1. Dr. Irfan Mirza
2. Dr. Indraneel
3. Abhinav Sharma
4. Aabha Ranade
5. Dhiren Soneji
6. Dhvani Serai

Agenda:

- Installation and Presentation of work done by the GSR group.

Dear Sharmila Sengupte,

Congratulations, and welcome to the AI for Earth community! We are excited to share that your application for the project titled "AI based statistical analysis of pollution due to land and ocean plastic waste in India" has been selected for an AI for Earth Microsoft Azure Compute Grant. Through this award, you will receive a sponsored Microsoft Azure account. We are granting you credits for Azure consumption up to \$15000 USD, to be utilized within one year.

By accepting this award, you agree to the following terms:

- You will use Microsoft Azure credits awarded through this program only towards the project described in the application form.
- Microsoft will add you and your team members to resources including the AI for Earth grantee community website, AI for Earth grantee Microsoft Teams group, and digital events.
- You will submit a mid-term report and a final report according to AI for Earth guidelines.
- Microsoft may contact you and use materials that you submit for public communications.

Please accept this grant within one week of receiving this email by clicking "Accept Your Grant" on your [grant portal](#) home page. We will respond when you accept with next steps to access the onboarding webinar, sponsored Azure credits, and education resources.

Warmly,

[Ronnie Lei](#)

**GLOBALINK RESEARCH INTERNSHIP AWARD
DISBURSEMENT INFORMATION AND PLACEMENT TERMS AND CONDITIONS**

Dear Vishesh Rajiv Mittal,

Congratulations! You have been selected by Mitsacs and Professor Philippe Pasquier from Simon Fraser University – Surrey to receive a 2022 Globalink Research Internship award. You are therefore invited to participate in a research project at **Simon Fraser University – Surrey**. Pursuant to an agreement with **Simon Fraser University – Surrey**, Mitsacs will administer your funding grant.

Mitsacs Globalink Research Internship is a competitive program that pairs top-ranked international students with specific research expertise with faculty at Canadian academic institutions for a twelve (12) week research project of mutual interest between May and October 2022. You have been selected by your Canadian host faculty project leader due to your background and skills in the research area and the unique contribution you will be making to the research during your stay. **The skills required for your role (as described in the research description below) were found to clearly match your skills set, education, and research experience.**

Research internship details

University/Institution: Simon Fraser University – Surrey
Host professor: Philippe Pasquier
Research project title: Generative Electronic Music
NOC code: 4012 Post-secondary teaching and research assistants
Research description: For over a decade, the Metacreation Lab for Creative AI has been actively researching a variety of generative systems. Metacreation is the idea of endowing machines with creative behavior (as opposed to problem-solving intelligence). At the fundamental level, it raises the question of the formalization and modeling of creativity which is relevant to both AI and cognitive sciences. At the applied level, it aims to endow machines with creative autonomous behavior to meet a growing demand from the creative industries. Our research is ongoing stream of collecting data, analysis and refining/advancing our prototype systems, working with other researchers internationally and also with music producers, composers, interface designers and artists.
 Here are projects for which we are recruiting:
 - Music Generation: <https://jeffreyjohnens.github.io/MMM/>
 - Soundscape Generation: <http://audiometaphor.ca/>
 - Dance Generation
 - Video Generation
 Further information available here:
 - <https://metacreation.net/>
 - <http://philippepasquier.net/>

During your internship, you will: This is an opportunity for students in the arts and or in technology / computer science, with an interest in Creative AI, to be engaged in a multi-disciplinary research project. We are seeking to identify multiple students in arts and or technology to work collaboratively to collect, analyze, model and test a new approach for specific generative systems. The goal is to contribute to the ongoing platforms R&D and or artistic research related to computational creativity under the direction of Philippe Pasquier.

- Hanisha Mohinani, Shivangee Kaw, Vinita Chugh, Om Yerawar and Mrs. Indu Dokare won Best paper presenter award in the International conference Interdisciplinary Research in Technology and Management 2022 held from 24th-26th february. Title of the research paper was "Vegetable and Fruit Leaf Diseases Detection Using ResNet".

- Sarthak Thakur, Anjali Badlani, Sanket Chowdhary, Harshita Kanal and Sharmila Sengupta Received Best Paper Award for Vayu - A proposal to address the SDG for maintaining AQI through 5G/6G mobile network, in International Conference on Interdisciplinary Research in Technology and Management held during 24th -26th Feb 2022.

- Our distinguished alumni (Computer Engineering- Batch 2010) Squadron Leader Suraj Nair conferred the coveted “Vayu Sena Award” on 26th January, 2022 for his bravery.

Squadron Leader Suraj Nair (32105) is on posted strength of a Mi-17 V5 Helicopter Unit.

New Delhi. On 3 April 2021, Sqn Ldr Nair volunteered to take part in a daring Casualty Evacuation mission in the vicinity to an ambush site in a known Naxalite infested area. He provided priceless inputs to the higher authorities at the control centre for effective planning and successful accomplishment of the mission. He planned the preparation and launch of the helicopters in a short notice; serving as an asset to his mission leader. After recce of the ambush site, his inputs were instrumental in effective execution of the dynamic mission.

The mission involved high risk due to the unfamiliar hostile area with Naxalites operating in proximity to the hills. During the initial recce, he manoeuvred his helicopter clear of the mission leader, simultaneously looking for disposition of own and hostile forces and locating a suitable spot for extraction. During the Cas Evac, displaying good situational awareness, he effectively guided the third helicopter towards his leader. His immaculate handling of the aircraft proved instrumental in safely recovering mortal remains from the restricted landing site with an uneven surface which was surrounded by tall trees. His deft Crew Resource Management ensured safe accomplishment of the task in a hostile area.

In the subsequent missions for support of these operations, he recovered eight mortal remains from the ambush site. He was also involved in the insertion of 120 commandos for augmenting operations. With exceptional commitment to the assigned task, presence of mind and optimum utilisation of resources at hand, he was able to effect safe and expeditious conduct of missions in the vicinity of volatile combat site.

For his act of exceptional courage and disregard to personal safety in a very hostile combat zone, Sqn Ldr Suraj Nair is conferred with the award of **Vayu Sena Medal (Gallantry)**.

2.1 Industry Interactions/Training (Industrial Visit)

To gain clarity regarding the concepts in textbooks and their practical applicability, it is essential to visit an industry. Such visits will also acquaint the students with the industrial environment.

Sr. No.	Name of the Industry	Industry Visit Location /Venue	Industry Visit-Duration	Industry Visit-Description
1	R.K. Dutt Concerns	Plot A, 88, Rd Number 18, Neheru Nagar, Wagle Industrial Estate, Thane West, Thane, Maharashtra 400604	09/04/2022	The 1st factory that students visited was R.K.Dutt. They were explained about different types of Flow Measurement equipments such as Electromagnetic Flow meter, Rotameter etc. They were also shown the process of making some of the Equipments
2	R.K. Control Instruments Pvt. Ltd.	Thane Manaharshtar 400604	09/04/22	The 2nd factory that students visited was R.K.Instruments. In R.K.Instruments they were explained about different types of valves. Also students saw the different parts of valve and its

				making process. The assembly of the actuator was also shown. They were also shown the process of how leakage in the valve is checked. The need of valve positioner was also conveyed to them with demonstration. They saw two types of valve i.e. air to open & air to close.

3. Professional Society Activities (ISA)

ISA Activity (Students Platform)

ISA-VESIT took a huge leap this year on the path to give the service of a Technical Society in the true sense. Set out to achieve technical prowess, it has surely come a long way. ISA-VESIT has now become a more technical oriented society and aims at imparting technical skills to its members in tandem with recreational events and skill enhancing workshops. The various activities conducted under ISA are:

3.1 ANALOG ELECTRONICS WORKSHOP

ISA-VESIT conducted a workshop on 'Analog Electronics' for its SE members on the 15th and 16th of January, 2022. The workshop was based on the

components of Joining kits provided to the newly joined SE members. It consisted of four sessions, two on each day, held between 10:30 a.m. to 2:30 p.m.

The first session was conducted by Gaurav Govilkar, Executive Officer at ISA-VESIT. The session started with a list of dos and don'ts for handling the components. Later the participants were introduced to the fundamentals of components such as BC547. The session also consisted of quiz rounds which made it interactive.

The second session was project based and was conducted by Prajakta Ukarande, Graphics Executive at ISA-VESIT. The first project in the session was to use BC547 as a switch. The second project was a darkness detector LED made using a LDR. The participants were then given a task of making a street light controller using multiple LEDs.

The third session was again conducted by Gaurav Govilkar. The participants were familiarized with the concepts of voltage divider rule, operational amplifiers, SR flip flops, and comparators. Later IC 555 was introduced along with its pin layout and configuration.

The final session was conducted by Hrutika Pakhale, Executive Officer at ISA-VESIT. The session started with making a LED flash using IC 555. The participants were then asked to make two LEDs flash alternately as a task. The last project consisted of making a touch probe-based LED. The session ended with the SE coordinators displaying a few other projects.

The workshop was able to impart the knowledge of analog electronics and helped participants develop project-making skills. The entire workshop was conducted and concluded successfully.

3.2 API WORKSHOP

ISA-VESIT conducted a workshop on 'Programming with APIs' on 29th and 30th of January, 2022. This workshop was conducted by Mr. Souvik Saha, a VESIT alumnus and an Embedded Software Developer at Sleepiz AG.

The fundamentals of Object Oriented Programming (OOP) like class and inheritance, basic information regarding API and the use of 'Postman' software were elucidated on the first of the workshop for making the concepts more clear and fortifying the foundation.

The second day started with an explanation of the 'request' module followed

by getting a hang of it by experimenting with various requests and APIs. The second session consisted of making a program which displayed cryptocurrency rates every 10 seconds. A flowchart was presented which made the process easy to understand. The program made use of CryptoCompare and Voice RSS APIs wherein the data received from CryptoCompare was given to Voice RSS as an input parameter. The participants got to experience the fun of coding first-hand at the end of the session.

We are gratified to announce the successful completion of our 'Programming with APIs' workshop, which aided in understanding and implementing APIs effectively.

3.3 Data Analytics Workshop

ISA-VESIT conducted a workshop on 'Data Analytics' for its SE members on 12th and 13th of February, 2022. The workshop covered all the fundamentals of data analytics as well as some projects were implemented based on that knowledge. The workshop consisted of four sessions, two on each day, held between 10.30 a.m. to 2.30 p.m.

The first session was conducted by Omkar Hirugade, Jr. Treasurer at ISA-VESIT. The basics of data analytics like problem statement, data acquisition, data wrangling and data visualization as well as the Python libraries like NumPy, Pandas and Matplotlib were covered in this session.

The second session was conducted by Janhavi Bhutki, Jr. Editor at ISA-VESIT. Participants made a very interesting project in this session, wherein they analysed the YouTube channel 'Mr. Beast'.

The first session of day 2 began with an explanation of Machine learning, Artificial intelligence and the Python library Sklearn, which was explained by Omkar Hirugade. By the end of the first session, participants were taught Machine learning models like linear and logistic regression.

The final session was conducted by Madhura Padge, Jr. Public Relations Officer at ISA-VESIT, wherein participants were given insights about the KNN and Decision tree models. Later, participants performed the predictive analysis of the 'Shark Tank' dataset using KNN, Logistic Regression and Decision tree models.

This workshop was conducted successfully by ISA-VESIT, which gave an overview of data analytics and how it can be implemented in different projects. We would like to thank all the participants for their cooperation and for making this workshop a huge success.

3.4 BE & Beyond Workshop

ISA-VESIT conducted the 'BE & Beyond' workshop for its SE and TE members on the 19th and 20th of February, 2022. The workshop was held to provide guidance to students about various competitive exams and placement process, thereby informing them about the various career opportunities after BE. It was hosted gracefully by Mr. Nachiket Suryawanshi, SE Co-ordinator at ISA-VESIT.

The first session had a diverse set of speakers who shared the best preparation strategies for acing various competitive exams. Ms. Aarya Naik shared her plan of action to ace GRE and TOEFL. Mr. Saheb Wadhwa provided useful tips to qualify GATE along with its perks. Mr. Manas Maskar guided students about examinations like CAT and GMAT in order to get an MBA degree.

The second session of day 1 on the placement process was led by Mr. Omkar Mangalpalli, Mr. Rohan Panchal and Mr. Shubham Metkar. Mr. Omkar Mangalpalli elucidated about the campus placement scenario. Mr. Rohan Panchal gave a list of dos and don'ts for securing core placements. Mr. Shubham Metkar gave some advice and assistance on how to enter into the IT sector being a core student. By the end of the session, participants were given an opportunity to clear all of their doubts.

Day 2 started with an Aptitude Test for the participants in which they had to answer a series of aptitude, verbal and technical questions. Mock interviews were also conducted to familiarize the participants about the interview process, wherein they were given excellent tips to improve their skills.

Overall it was an informative workshop that answered all of the questions of the attendees and informed them about the numerous fields they can opt for, after BE.

3.5 Tech-Talks

ISA-VESIT organized 'Tech Talks' on the 12th and 13th of March 2022, to guide the students about Financial Independence, Embedded Systems, Data Science and Profile Building.

On the first day, Mr Tanvir Shaikh, Data strategist at a reputed company, emphasized the importance of financial independence and how to plan effectively for maximizing the income. He shared his insights on how to build wealth.

On the second day, Mr. Diptarshi Chakraborty, a firmware engineer at a leading tech company in California provided attendees with insights into embedded systems, cellular firmware, and the role of embedded firmware. He explained how to build a good profile and how working on projects can help hone your skills.

Further he explained the need of networking. Towards the end of the session, he dispelled common myths about embedded systems.

The session was very interactive as it clarified all the doubts of the participants. All in all it was a successful event.

3.6 IoT Bootcamp Report

ISA-VESIT successfully launched a customized and upgraded version of its IoT kit on 27th February, 2022. After receiving an overwhelming response to this initiative and to help the students get started with working on it, ISA-VESIT arranged an 'IoT Bootcamp'. This Boot Camp was held in the smart classroom located on the 4th floor of VESIT on the 14th, 16th, 17th, 21st, 23rd, 24th and 25th of March, 2022 and was conducted by Mr. Shripad Kulkarni (Technical Officer at ISA-VESIT), Ms. Nidhi Mundhada (Jr. Editor at ISA-VESIT) and Ms. Hrutika Pakhale (Executive Officer at ISA-VESIT).

The first day of the workshop started with a brief introduction about the 'Internet of Things'. The difference between Arduino and ESP, Microprocessors and microcontrollers was also a part of the discussion in the first session which was very beneficial for the attendees. The session concluded with a basic 'LED blinking' project which the participants found interesting due to the enlightening theory session. The second day of the bootcamp started with an explanation about the basic structure of the ISA Shield with the help of its pinout diagram and ISA ESP Board provided in the kit. This was followed by the participants being guided about several projects like alternate LEDs blinking in a loop and all LEDs glowing, using buzzer and push buttons. All the participants tried these projects and enjoyed this session thoroughly. The third day of the bootcamp started with an introduction to the ADC (Analog to Digital Converter). The participants were also elucidated on the topics like potentiometer, voltage divider and 7-segment display. The session concluded with some amazing projects based on LDR and 7-segment display.

In the second week, participants explored IoT in more depth. The fourth and fifth day covered some important concepts like Bluetooth, BLE and WiFi. Projects based on the same like Bluetooth Voice Controller, BLE Server Data Transfer, WiFi Web Server, Firebase Realtime database were discussed and built. Mr. N. Gopalkrishnan conducted the workshop on the 24th of March, 2022. He talked about relays and their functioning which was continued by a brief introduction to RTOS. He also discussed the plethora of opportunities that the Internet of Things brings with itself, home automation being one of the main applications. The interactive session concluded with a small demonstration of switching a LED ON/OFF using human voice. The final day of the bootcamp included building many interesting projects as well as a doubt solving session.

The bootcamp concluded by giving the attendees various ideas on how they can implement the knowledge received from the workshop to create their very own projects. Altogether it was a completely riveting and edifying bootcamp which made the participants aware about the numerous applications of IoT.

DEPARTMENT OF HUMANITIES AND APPLIED SCIENCES

The Department of Humanities and Applied Sciences provides a robust foundation to the students through basic courses and expanded value-added teaching in areas of the technical field, personality development, and competitive abilities. It acts as a bridge in between the basic sciences and engineering procedure. The ambience of the department is always energetic & enthusiastic. The department is enriched with experienced, efficient and dedicated faculty members who teach students to think logically, judge critically and communicate clearly.

Awakening The Scientists Competition 2021-22

(The perfect platform to express your innovative ideas)

An engineer needs to be observant on how basic science makes a difference in our day to day life. Awakening the Scientist is such a platform provided to the First year students to express their innovative ideas. It is organized by H&AS department in association with VESIT IIC and IQAC.

To make students aware of this opportunity, an inaugural speech was conducted by Prof. A Nagananda (Training and Placement officer, VESIT) for three days. The speech was for an hour in which Prof. A Nagananda explained the importance of idea pitching and application of discoveries and inventions in the basic science domain. He also explained rapid changes in technology and related the past, present, and future of few technologies. Not only he made students aware of the importance of having sound technical knowledge in this competitive world but also on the art of working in a group with an attitude of sharing and caring.

First year students make groups, and each group identifies the basic engineering and technology used in the gadget and tools used in everyday life. This year , 14 groups with a total number of 54 students had registered for this event. The enrolled students were asked to submit a one page synopsis which includes

DEPARTMENT OF HUMANITIES AND APPLIED SCIENCES

name of the gadget or equipment, principle of operation, scientific laws applicable, engineering and technological aspects, future trends and domain. A special seminar was conducted by Prof.A.Nagananda on 'How to make PPT' which would focus on Do's and Don'ts while making and presenting PPT.

Elimination round was conducted for all the groups enrolled and 6 groups were selected for the final round. Final round was conducted on 7 th May 2022. Each group was given 10 minutes time for presenting their gadget in both the rounds followed by a 5 minutes question and answer session. Total 3 positions were announced from 6 groups along with 2 best speakers and 2 most promising speakers. Students were given participation and winning certificates.

UHV Workshop for first year Engineering Students

This year, since the college started in offline mode, UHV FE induction sessions were conducted in offline mode in the Auditorium for all the First year students on 1 April 2022- 4 April 2022. Total 410 students participated in the workshop.. The main motive behind conducting these sessions was to familiarize the students with the ethos and environment of the institution and inculcate and reinforce basic universal human values in them.

The sessions were taken by Dr.Pooja Kundu and Dr. Sushil Dhuldhar ,Assistant Professors ,Humanities and Applied Sciences Department . Dr. Pooja Kundu commenced the session with the basic introduction to values and Universal Human Values and its prime importance in one's life. The session then outlined that the prime need of value education is to understand human aspirations, to discover what is truly valuable (human value) in life. Students were asked to draw their tree of life and give their introduction in a particular given format. The content of education as being universal, rational, natural, verifiable and leading to harmony was described. It was stressed that the process of value education has to be a process of self exploration, rather than being prescriptive. It explored the role of right understanding, relationship and physical facility for the happiness and prosperity of human beings. Dr. J.M. Nair, Principal VESIT also motivated the students and told them to work hard in order to achieve their goals in life. She also acquainted the students with the holistic approach which the college employs to develop the overall personalities of the students.

Through various concrete and diverse examples it was proposed that basic human aspiration for all human beings is happiness and prosperity. A short film was also screened called "Identity" after which the literal and implied meaning of the movie was discussed. The students thoroughly enjoyed the sessions and gave the feedback that more sessions like this should be organized to build the right understanding and confidence in students.

Point To be Addressed	Description
Academic Year	2021-22
Type of Event	Outdoor
Date of the Event	30th April 2022
Duration Of the Event	Single Day Event
Venue	Polytechnic Ground, VES

Target audience	Students of VESIT MCA department. (FY, SY, TY)
About The Program,	the MCA Sports council organized an exclusive sports event, Shreshtha. Shreshtha comprises outdoor sports namely; futsal, cricket, dodgeball, and tug of war.
Objective Of The Program	<p>Sports help bring peers and seniors together. With no bias for gender or seniority, Shreshtha aimed to be an ice-breaker event between all MCA batches and negate the anonymity amid the online-offline batches altogether.</p> <p>It was also the final event for the particular batch of 2022 as for the first and possibly the last time in MCA, 2 Batches will pass out from the college simultaneously.</p>

Speaker: Dr. Asha S Manek, Dept of CSE, RV Institute of Technology and Management, Bangalore

Date: 21st April 2022

Time: 12:45PM to 2:45PM

The Research Talk started with a brief introduction to the speaker by Mrs. Vaishali Gatty the MOC of the day. The speaker Dr. Asha S Manek, started the session with a discussion of concepts such as Artificial Intelligence, Deep Learning.

Speaker explained these concepts with the help of engaging examples.

She also provided insights into

- Types of Machine Learning and Deep Learning
- Projects using Machine Learning
- Research Areas in DL

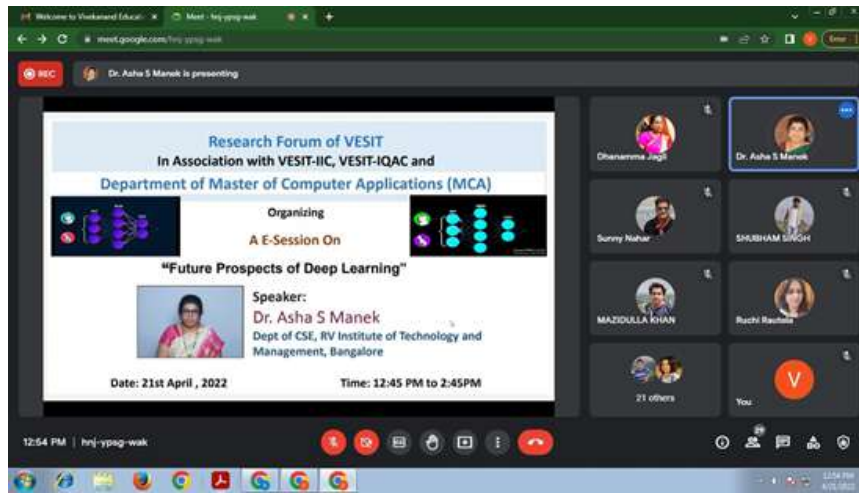

The questions asked by the participants were well handled by the speaker. The event was well

received by the participants.

Venue: **Online**

Conducted by: **Dr.Dhanamma Jagli**

Target Audience: **FYMCA**

About Program:

- To meet the challenge of ensuring excellence in Master Program in Computer Applications (MCA: referred as Master of Computer Applications) education, the issue of quality needs to be addressed, debated and taken forward in a systematic manner. In addition to outcome based education, semester based credit and grading systems are also introduced to ensure quality of Master of Computer Applications (MCA) education.

Key Points:

- Guidance given to students about the research forum activities at the college level.
- Discussed Course Objectives and Course Outcomes of Research Paper (MCAR42)
- Discussed the guidelines for Research Paper, MCA Sem.- IV
- Briefly discussed the paper structure and the IEEE format.
- Briefly discussed the format and structure of the Research Paper presentation.
- Given brief idea about approaching various conferences and journals for paper publication.
- Discussed the importance of ethics of research and plagiarism issues.
- Students are given guidelines for Internal Assessment of research papers.
- Overall students were given the procedure of research paper publications.

SPICE

Date: 19th February, 2022 Venue: Google Meet Incharge/Conducted by/organized by:

SPICE COMMITTEE Target Audience: SY & TYMCA

- About Program:

- Introduction:

We are all in the last semester of our college, struggling through different things and finding our ways to complete each and every part of the curriculum in the best possible way.

Looking ahead we believe that it will be our first time to publish a Research paper as part of our college syllabus.

"Research is to see what everybody else has seen, and to think what nobody else has thought," says Albert Szent-Gyorgyi.

How to start with a research paper? How to select the topic that we are interested in? How to start with the initial phases of research?

How to study the topic? How to publish the research paper? Ohh wait, you all must have these and many questions in your mind right now.

SPICE presents to you a session on **Structuring your Research Paper.**

All SY and TY MCA students are invited for this session. Attendance is compulsory. Attend this session and know the WHAT and HOW of the Research paper.

Details of the session on Structuring your Research Paper.

Speaker: Prof.Dr. Dhanamma Jagli (Deputy HOD, Dept.of MCA)

- Conclusion:

This event was conducted successfully with a good response from students.

Venue: Google Meet

Incharge/Conducted by/organized by: SPICE COMMITTEE

Target Audience: FYMCA

About Program:

Introduction:

Personality is the conscious choice to improve one's life to become a better person and to grow as an individual. As we all know the placement season will be starting soon, having a clear and focused strategy is critically important for your chances of getting placed into a dream firm. Starting off with the journey of placements it is very important to know about how to present yourself as an individual.

E-session on Design Thinking and its Applications was conducted on 14th May 2022 from 11am to 12:00pm via google meet. Dr. Dhanamma Jagli Innovation Ambassador VESIT-IIC, Mumbai was the speaker for the session. The session covered the basic understanding of Design Thinking. Participants were able to analyze different stages of design thinking. Participants can use design thinking extensively to improve the quality of education. Many queries from the participants were attended by the speaker. The session was very well received by all of us. Master Of Ceremony(MOC) was Gunita Kasar, Department of Master of Computer Applications.

Programme Assessment Committee (PAC)

PAC (2020-21/ ODD SEM)

Call to order

A meeting of Programme assessment committee(PAC), Department of MCA was held Online on 14 January 2022 in online mode using Google meet.

Action items:

The committee had a discussion on the Result Analysis submitted by the Result Analysis Team for all the subjects (Sem I, III, V).

- It has been observed that results of all the subjects of all 3 semesters are good.
- For subjects such as Advanced Java and Advanced Database Management System, students can be given tasks to implement what they have learned.
- Since this Examination was **pandemic hit** , **exam was conducted in online mode** ● In order to enhance the grades, the committee has suggested conducting remedial lectures as well as practical examples, case studies, etc for some subjects.

E-session on Entrepreneurship as a career was conducted on 4th January 2022 from 3pm to 4:30 pm via google meet and was also casted on youtube. Dr. K. Ramakrishna, Professor of IT, Innovation Ambassador, Convenor IIC & Director R&D cell, Stanley College of Engineering & Technology for Women, Hyderabad, was the speaker for the session. The session covered the skills required for an Entrepreneur, also distinguishing between a Business and Entrepreneur role, understanding qualities of successful entrepreneurs, understanding Entrepreneurship Process Cycle, how to build Entrepreneurial Mindset. Many queries from the participants were attended. The session was very well received by all the participants. Master Of Ceremony(MOC) was Prof. Vaishali Gatty, Department of Master of Computer Applications.

1.3. Research Forum Activities

1. Event: Current Industry and Research Trends and its Impact on Atmanirbhar Bharat

Organized by:

VESIT Research Forum In Association with VESIT-IIC,VESIT IQAC and Department of Electronics Engineering

Speaker: Dr. (Mrs.)Anita Diwakar

Ph.D EducationTechnology,IIT Bombay

Date: 15th December 2021

Time: 2:00PM to 3:30PM

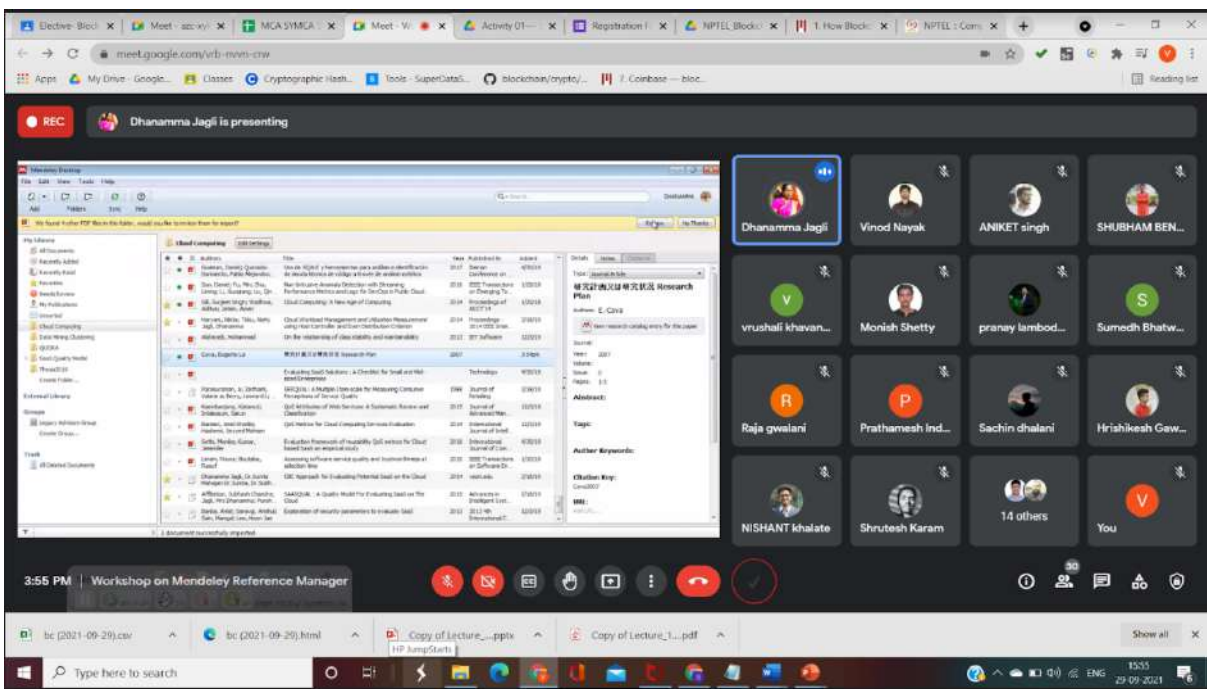

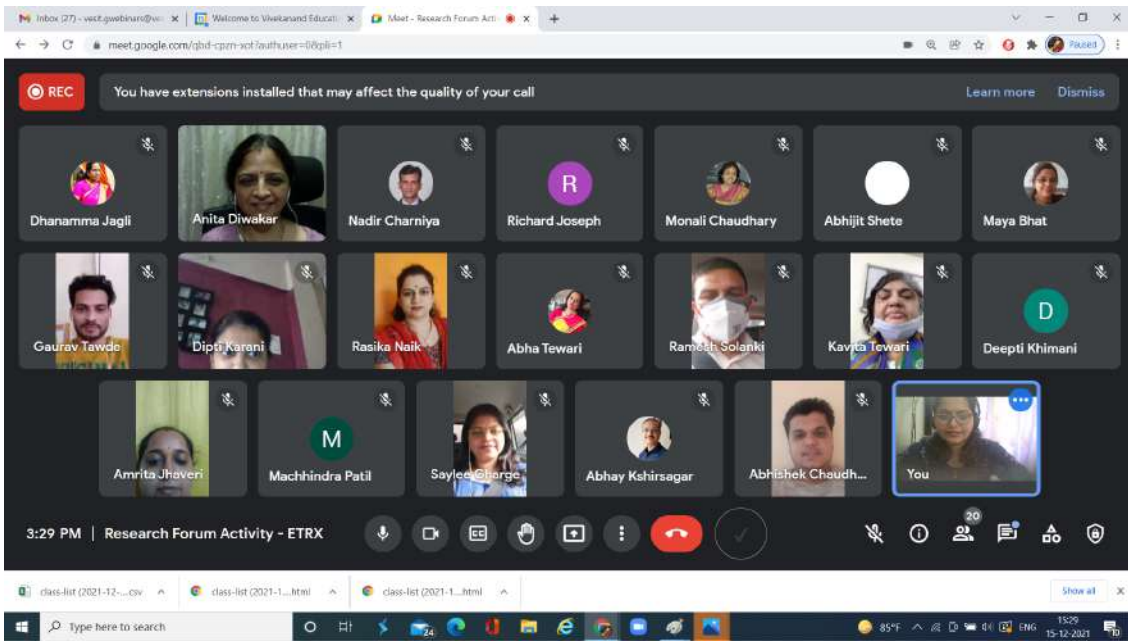

No of Participants Attended:25

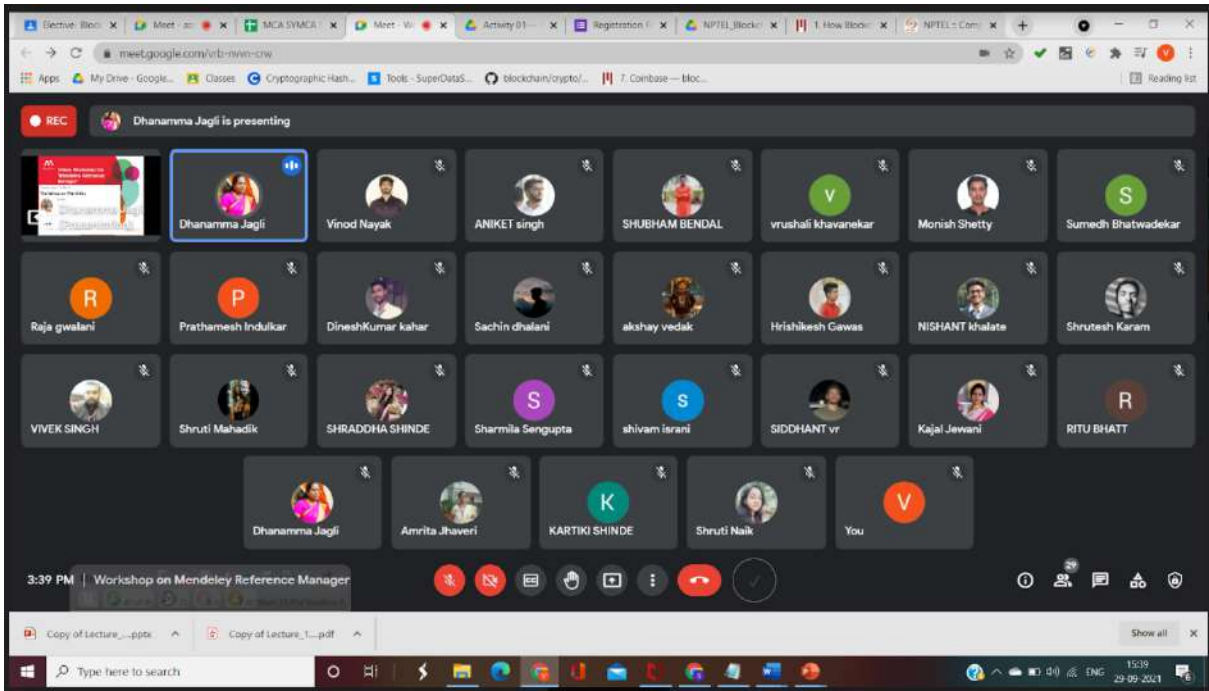

On 15th December 2021 VESIT Research Forum In Association with VESIT-IIC,VESIT IQAC and Department of Electronics Engineering organized a session on topic "Current Industry and Research Trends and its Impact on Atmanirbhar Bharat " by Dr Anita Diwakar.

The session gave insight regarding Educational Technology and its importance in current situation.Various factors based on National and International factors are very discussed.Various Research Trends very discussed.Role of Educational Technology in the National Educational Policy were discussed.Technologies such as Content Authoring Tools,ID tools,Simulations,Visualizations,virtual lab can be integrated into a teaching learning environment to help the process of achieving teaching goals.

Various funding agencies for major grants and government policies were discussed.And by using these resources we can be Atma Nirbhar Bharat.

Session was very well received by the participants.It was Interactive sessions followed by question and answers.Around 25 participants attended the session.

Department of Electronics is recognized as IIRS under Indian Space Research Organization, Department of Space, Govt. of India

About IIRS

Indian Institute of Remote Sensing (IIRS) under Indian Space Research Organization, Department of Space, Govt. of India is a premier Training and Educational Institute set up for developing trained professionals in the field of Remote Sensing, Geoinformatics and GPS Technology for Natural Resources, Environmental and Disaster Management, Founded in 1966, the Institute boasts to be the first of its kind in entire South-East Asia.

It functions as a constituent Unit of Indian Space Research Organization (ISRO), Department of Space, Government of India. While nurturing its primary endeavor to build capacity among the user community by training mid-career professionals, the Institute has enhanced its capability and evolved many training & education programmes that are tuned to meet the requirements of various target groups, ranging from fresh graduates to policy makers including academia.

Remote Sensing and Geoinformation Science have become key technology tools for the collection, storage and analysis of spatially referenced data for resource planning and decision making. Today it is the backbone to many decision-making systems and location-based services emerging in the New Information Economy. Planners and decision makers' that utilize these Geo-spatial technologies for a variety of applications in forestry, mining, water resources, environmental analysis as well as the infrastructure. The training and education programmes at IIRS includes the short duration customized courses, PG Diploma, Master's Degree (M.Tech and M.Sc.) in various

discipline IIRS received two national awards for excellence in training for outreach and e-learning programme by the Department of Personnel & Training (DoPT), Govt. of India in collaboration with United Nations Development Programme (UNDP).

Objectives

To provide an opportunity for individuals to learn Remote Sensing and Geoinformation Science for the benefit of their professional career. This basic course in Remote Sensing and Geoinformation Science will allow graduates to build their knowledge and practical expertise in RS and GIS technologies with independent study and project experience at the certificate level. To provide considerable flexibility allowing students to quickly gain the RS and GIS knowledge and qualification they need today, and to add to their credentials. Students develop a capacity for independent research, problem analysis and solution. To empower students undertaking this course to develop their knowledge and understanding through formal coursework and a program of independent reading. It has a practical component and a project associated with it to develop learners' research, analytical and problem-solving skills.

To enhance the outreach of geospatial technologies and its applications, IIRS has initiated its interactive distance mode of capacity building under IIRS outreach programme in 2007 using online learning platforms. Presently the courses are delivered through two modes:

- Live and Interactive classroom based courses
- e-Learning based online courses.
- Course Fee: NIL (There is no Course fee for live and interactive course)

Finishing School Report

Online finishing school, one of the placement activities, is organized by the placement team of the Department of Electronics Engineering. The objective of the online finishing school is to revise fundamentals of main Electronics Engineering subjects which includes **Digital Linear Integrated Circuits, Digital Circuit Design, Database Management Systems and Communication Networks, etc.** There are also sessions on **interview preparation and alumni interaction.**

The finishing school activity was conducted on 12 July 2021 from 1:30 pm onwards. Mrs. Sarika Kuhikar, Placement In-charge, Department of Electronics Engineering delivered an introductory speech and briefed the students about the various sessions of finishing school. The welcome address was given by Mrs. Naveeta Kant, Deputy HOD, Department of Electronics Engineering. Mr. A. Nagananda, Training and Placement Officer, VESIT briefed the students about the importance of finishing school. He also explained to students how they should work on themselves to shape as better students and employees. The introductory session finished at 2:30 pm.

- **Day 1 :** The session started on 12 July 2021 at 2:30 pm. The speaker of the first session was Mrs. Jaymala Adsul, Assistant Professor, Department of Electronics Engineering. The objective of the session was to revise the concepts of Digital Linear Integrated Circuits. During the session, doubts of the students were cleared by the faculty. Vote of thanks for the session proposed by Mrs. Sarika Kuhikar, Placement In-charge Department of Electronics Engineering.
- **Day 2:** The session started on 13 July 2021 at 2.00 pm. The speaker of the session was Dr. Abhay Kshirsagar, Associate professor, Department of Electronics Engineering. The objective of the session was to revise the concepts of Database management System. During the session, doubts of the students were cleared by the faculty. Vote of thanks for the session proposed by Mrs. Amrita Jhaveri, Assistant Professor, Department of Electronics Engineering.
- **Day 3 :** The session on interview preparation was conducted 14 July 2021 at 2.00 pm. The speaker for the session was Mr. V.M.Joshi, faculty R & D, VESIT. The speaker briefed on the importance of technical knowledge of domain subjects in technical interviews. He also touched upon the importance of personality while giving the interviews. The session was followed by questions and answers.
- **Day 4 :** The session started on 15 July 2021 at 2.00 pm. The speaker of the session was Mr. Abhishek Choudhari, Assistant Professor, Department of Electronics Engineering. The objective of the session was to revise the concepts of Digital Circuit Design. The session was followed by doubt solving of the students.

- **Day 5** : The session started on 16 July 2021 at 2.00 pm. The speaker for the session was Dr. T. Rajani Mangala, Professor, Department of Electronics Engineering. The objective of the session was to revise the concepts of Communication Networks. Post session, the speaker addressed the doubts from the students.
- **Day 6**: Last day of the session started on 17 July 2021 at 11.00 am. The speakers for the session were Mr. Rahul Nair, Ms. Anuja Merwade and Mr. Omkar Tulaskar, alumni of Department of Electronics Engineering. The objective of the session was alumni interaction and an online test. All the speakers shared their experiences about interviews and their respective companies. After the session, Mrs Kavita Tewari, HOD, Department of Electronics Engineering encouraged the students on effectively facing the interviews. An online test was scheduled for the students. Mrs. Amrita Jhaveri, Assistant Professor, Department of Electronics Engineering proposed vote of thanks.

All the sessions were very informative for the students as it helped them to revise the main subjects and improve their technical knowledge, clear their doubts and prepare better for the upcoming interviews and placement opportunities. All the speakers were very insightful and addressed all the doubts of the students.

2.2. Skill Development Activities

Special talk on 'Mini Project - Design Thinking'

A session on "Mini Project - Design Thinking " was organized by **Department of Electronics Engineering** on **2nd September 2021 Thursday from 2:00 pm- 4:00 pm** . The session was conducted for second year and third year students on online Platform : Google Meet by Mr. Anurag Chugh, Senior System Software Engineer, Tarana Wireless. Dr. Abhay Kshirsagar, Mrs. Dipti Karani, Mr. Abhishek Chaudhari jointly coordinated the event. Separate Google Meet links were created from SE and TE students.

Joining link : for TE <https://meet.google.com/vjd-jaeg-eoa>
for SE <https://meet.google.com/jax-wsfe-sej>

Around 82 students from Third year, 32 students from second year along with few staff members attended the session.

This session gave an insight for the students to get new ideas for the selection, design and execution of their mini projects this academic year. Mr. Anurag Chugh explained various aspects of project selection as per the subjects already covered and based on different resources available online.

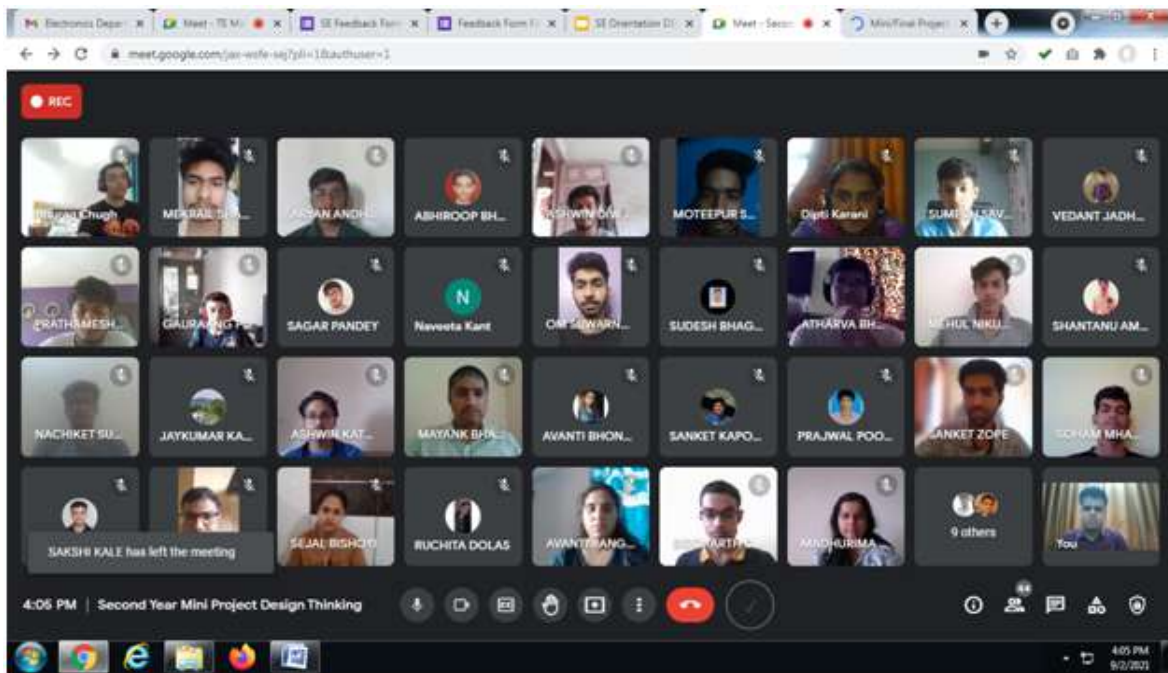

He has presented a few projects implemented by him and explained how to analyze the results obtained from software and hardware like Raspberry Pi, Node Red, Micro- bit, Make code, Some extension Boards.

Some projects discussed are

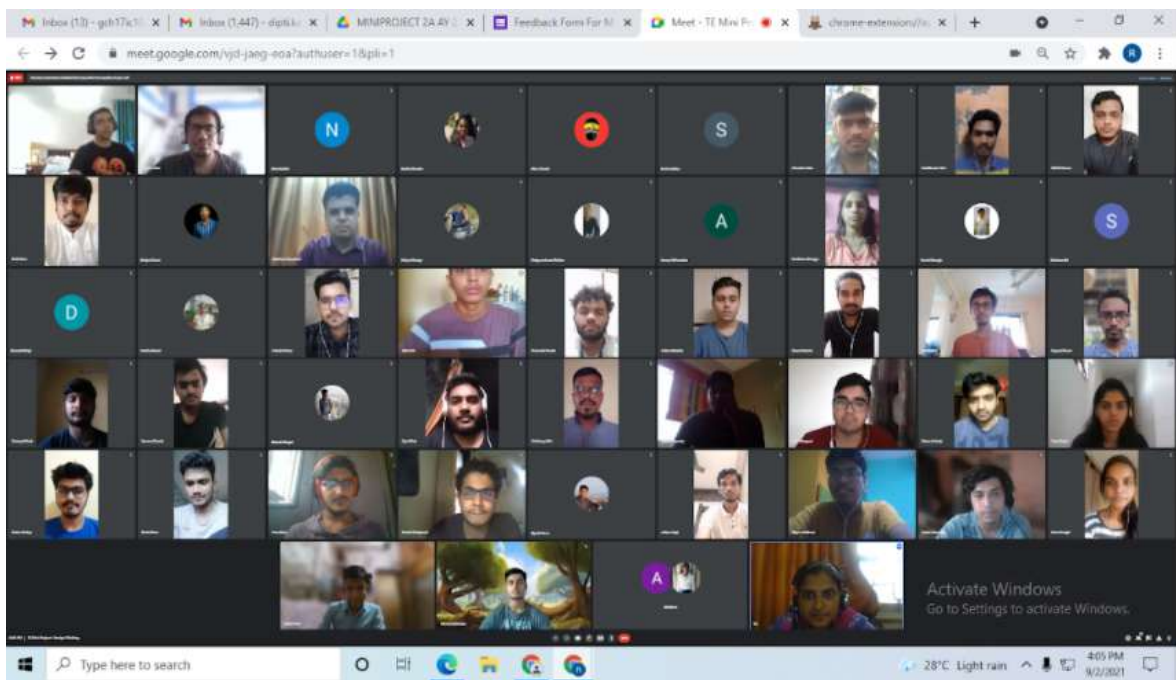

1. Citizen Science using No Code
2. Privacy friendly home automation
3. Enhance cheap sensors and actuators with algorithms and AI
4. GnuRadio
5. Replicating an Existing Product/Service
6. Embedded Linux
7. Simple Mobile Apps
8. Monitor Plant Growth
9. Pollution and Utilities Monitoring
10. Twitter Sentiment Analysis
11. Crowdsourcing of Data
12. Clock
13. Calculator

The session was very well received by students. Mr. Anurag answered all the questions to the satisfaction of students clearing their doubts.

Tinkerer's Lab Activity

Internship and Training

Tinkerer's lab electronics organized a 4-week internship programme from 14th June to 15th July 2021, where students learned about designing and developing a solution to a specific problem statement. Each student is assigned a project on an individual basis. They were provided with the basic learning material. Furthermore, they are provided with a certificate upon successful completion of the project.

Learning Objectives

- Understand the definition and significance of the Internet of Things, Web designing, Analog and digital design, PCB design, and data science.
- Discuss the architecture, operation, and benefits of the solution.
- Examine the potential opportunities that the solution can uncover.
- Explore the integration of IoT, Web designing, Analog and digital design, and data analysis.

2.5. Alumni Interaction

2.5.1. V-REACH 21: An Alumni Engagement Initiative

“V-REACH”, VESIT-Alumni engagement initiative, which aims at reaching out to alumni and enables sharing of their vast National and International knowledge and experience with students for widening their horizon. It also allows alumni to play an active role as a stakeholder and contribute actively in building VESIT legacy.

V-REACH Objectives:

- To provide a forum for a series of webinars covering various domains of learning and support outcome based education.
- To enable knowledge and expertise sharing of alumni for professional development of students.
- To actively engage the stakeholders to expand VESIT’s outreach.
- To foster our relationship with our alumni effectively and employ their flair, ardour, knack and contributions to constructive ends for VESIT and its students.

V-REACH has tried to unlock the Teaching Learning in an innovative way, through its inceptive series of 14 webinars commencing from 02 August to 26 August 2021, which will be streamed on VESIT-youtube channel covering the following broad topics:

1. Guidance on preparing for better placements
2. Higher studies and career guidance
3. Research and innovations
4. Entrepreneurship development and
5. New trends in Technology (Covering all streams of learning)

Academic Year 2021-2022

Department Report (From 1st July 2021 to 31st December 2021)

Various activities conducted in the Department of Computer Engineering in the academic year 2021-22 during 1st July 2021 to Dec 2021 have been categorized as mentioned below:

1. Faculty Contributions

1.1 Workshops Conducted for Faculties (Total 02)

- 1.1.1 AICTE Sponsored Online Short Term Training Program (STTP) program on 'Introduction to Blockchain Technology' was organized in the Phase-III of 'Blockchain & Its Applications Series' during, **12th July - 17th July 2021** by Department of Information Technology In Association with Department of Computer Engineering, Department of Master of Computer Applications, under the guidance of VESIT

1.1.3 TE Mini Project Orientation

On behalf of University of Mumbai, Department of Computer Engineering, Vivekanand Education Society's Institute of Technology (VESIT), Mumbai organized a Orientation Program for the course "Mini Project – 2A" for Semester V of Rev-2019 'C' Scheme in online mode (Google Meet). The program was conducted and presented by Dr. Nupur Giri (Convener & HOD of Computer Engineering Department, VESIT), Dr. Tanuja K. Sarode (Co-Convener, Thadomal Shahani Engineering College) and Prof. Pranjali Gurnule (Lokmanya Tilak College of Engineering). The program was conducted on 5th July, 2021 from 11:00 AM to 1:00 PM. More than 100 faculties from various colleges registered and participated in the orientation program actively.

1. Expert talk on Exploring Patenting through Research

Patentability Criteria India

- Each country has its own patent law describing what can be patented. In general, to be patentable
- Novelty** - Never made public in any way, anywhere, before filing the application for a patent.
- Inventive Step** - Compared with what is already known, and not obvious to the person skilled in the art, non-anticipated.
- Use /Utility** - Capable of industrial manufacture or use (not just an imaginary device).

B) Placement Record

★ Placements Summary:

- ★ The process of placement started in third week of July 2021 on virtual mode (Online) with dream companies like JP Morgan & Chase-CFG, Indus Valley Partners (IVP), Institutional Shareholder Services (ISS), Carwale.com, Forcepoint, Quantiphi, Quicksell, Interactive Brokers, L & T Infotech, Nomura, Deloitte, Dolat Capital etc. followed by our major recruiter Accenture.
- ★ Like every year, this year also students have performed extremely well. Students participated in a coding contest organized by JP Morgan & Chase- Code for Good (CFG), TCS : Codevita, TCS-NQT and FinTech:IVP. Many students got the placement opportunity through these contests.

★ Highlights

- ★ 83.33% of eligible and interested students have got placed till date.
- ★ 25 companies have visited the campus till the date for the Computer Engineering stream.
- ★ Highest salary offered is 15 Lacs/Annum.
- ★ Average salary offered is 7.8 Lacs/Annum
- ★ 126 students have got the dream job offers.

★ Contest Participation

2.3 Tinkerers' Lab : Code Cell Activities

2.3.1 Django WorkShop:

The Django Workshop was a three day workshop hosted by Arnav Bagchi (D17C) and Amit Chhabria (D17C). In the first half of the workshop taken over 2 days from July 1 to July 2 2021 the basics of Django were discussed and covered. Core Django concepts of the view , model and templates were discussed and mapping of urls to proper views and then rendering pages on a locally hosted server was demonstrated. Over the course of the first half best practices for writing Djang code were discussed. Concepts like model classes and object relational mapping were demonstrated and discussed for a clearer understanding of the topic by the students. Database connections and manipulating of the file structures of a django project were also covered . On the second day the concept of django templates and addition of static content like images , css and javascript to our django project were discussed.

In the second half of the workshop , a hands- on django project was done in which we used a mysql database to create a fully functional project and create a CRUD (Create , Read , Update and Delete) application. The process was covered in detail starting with the creation of a locally hosted MySQL server and then connecting our django project and the CRUD application. The last topic covered was the usage of google OAuth connection in our Django project in which users could use their google account to register on the project site.

The workshop was covered over a period of three days from July 1, 2021 to July 3, 2021.

2.3.2 React WorkShop

“Learn continually - there is always “one more thing” to learn.”

The quote by Steve jobs spoke volumes this Tuesday and Wednesday when students from VESIT decided to attend a React course by Codecell. The event that covered a plethora of topics was held on a google meet from 11 AM to 12:30 PM for the students to improve their skill set.

While learning REACT may be the right step forward towards becoming a Full-stack developer, it may not be enough in itself. To cover up for this gap Day 1 saw our instructor Ms.Harshita covering the fundamentals of Javascript and ES6, Starting a project and components and JSX.

She started off by explaining the benefit of learning REACT from making code cleaner to adapting to other frameworks. REACT made building websites a lot easier for developers. After this explanation, the floor was open to questions. A question on components of javascript was asked by Omkar Rane. She then went on to explain the process behind downloading node.js. The very basics of learning REACT is being able to create a basic React app. This part of the session was explained by Harshita by using some in-built code to construct a basic app on which the rest of the coding will be done. She then went on to explain the different parts of the code from where a developer can find the source code to the basics of how to get your react app running. The class components and the functions in react were explained in the latter half of the session. The code was then run and a react app was built to explain the todo component and other features in react. The session ended with doubts being asked by the attendees.

The last day of the react workshop started off with Harshita completing the explanation on the todo component. She then went on to explain the life cycle of a component ie, mounting, updating and unmounting. She then explained how we can create a form within the react app. The different components were explained by using the console in the developer tools to give the attendees a better understanding of the code. Since the chances of having a single page app is very low. The concept of routing multiple pages was explained to the attendees so that building bigger and heavier apps would be much easier. The entire idea behind using components was how the code could be reused over and over again without redundancy. The final concept for the session was being able to use databases with react. The database being used for this project was firebase. Firebase account set up included four steps on a firebase account followed by installing the firebase package locally on your computer. The form that was once created is now storing and changing data in realtime.

With that the session came to an end and all the attendees left after crossing “one more thing “ out of their checklist.

2.3.3 Flutter WorkShop

In the final part of our workshops, we had Paras Patil conduct a three-day workshop on the new hugely popular framework for creating mobile applications from 8th July to 11 July 2021. The basics of Flutter and concepts behind the mobile framework were discussed on the first day along with Dart, the language which powers the Flutter Framework. Basics of installation and setting up your phone as a debugging tool were demonstrated. For the second day, an introduction to Firebase and setting it up for Flutter was demonstrated. This included getting an idea about what is firebase & creating a project in firebase for our flutter app. We also discussed Firebase User Authentication including login and sign-up flow using Email and Password along with error handling for the same and finally, Cloud Firestore was used in creating & updating custom data using Firestore and displaying it in our app.

Guidance on preparing for better placements
Higher studies and career guidance
Research and innovations
Entrepreneurship development and
New trends in Technology

“V-REACH”, VESIT-Alumni engagement initiative, which aims at reaching out to alumni and enables sharing of their vast National and International knowledge and experience with students for widening their horizons. It also allows alumni to play an active role as a stakeholder and contribute actively in building VESIT legacy.

V-REACH has tried to unlock the Teaching Learning in an innovative way, through its inception series of 14 webinars commencing from 02 August to 26 August 2021, which were streamed on VESIT-youtube channel covering the following broad topics:

1. Guidance on preparing for better placements
2. Higher studies and career guidance
3. Research and innovations
4. Entrepreneurship development and
5. New trends in Technology (Covering all streams of learning)

The description of two sessions organized by Computer Engineering are as follows

1. Breaking the Glass Ceiling: Placements beyond Campus

These days every top Multinational Corporation like Google, Amazon, and Paypal conducts off-campus drives for various technical roles to find the best fit for their company. Being a part of these companies is a dream come true for every engineer. But how can you get selected in these big MNCs? Well, let's hear it from the experts who have managed to overcome all the obstacles and ace their off-campus placements.

2. Belling the “CAT”

Having an MBA degree opens multiple opportunity doors for an individual. Hence getting admission into the top Business Schools like IIM's or XLRI is a dream for everyone, but due to intense competition, not everyone gets the opportunity to add the names of these B-Schools with theirs. But How do you reach the top level? Well, what better way to find out from people who have done it themselves.

Topic:New Hardware Methods for Extraction of Low Level Differential Signals over Wide Bandwidth With High CMRR and S/N Ratio

Guide: Dr. (Mrs.) Jayalekshmi M. Nair and Dr. P.P. Vaidya

The new methods for improvement of dynamic range of instrumentation amplifier have been proposed, designed and tested without affecting CMRR and frequency response to compensate DC offset voltages with constant voltage and current sources, three-stage instrumentation amplifier. These techniques have resulted in improved dynamic range without affecting CMRR and a differential gain over the entire range of frequencies. These methods can be used for blocking DC offset voltages and hence increasing dynamic range in any field. Impedance steering method is also designed which is particularly suitable for PC-based systems and produces a uniform frequency response, even at lower frequencies, which is important for biomedical signal processing. A new Figure of Merit has been proposed for quantitative assessment of improvement in dynamic range as Distortion free Dynamic range Improvement Ratio.

Also, a new method for removal of common mode signal of unknown frequency signals using new balancing technique has been designed and tested which improves the effective CMRR to 10^8 to 10^9 of the system without degrading frequency response.

The performance of these developed circuits is required to be tested and verified with high accuracy, a computer controlled high resolution (16 bit) hardware research validation system is designed and constructed over wide bandwidth 0-10MHz. The developed system has a component cost that is as small as nearly 10% of the cost of commercially available validation systems. As a result, this hardware validation system is a cost-effective solution for academic institutions.

1.4.2 AICTE Training And Learning Academy (ATAL) Sponsored One Week Faculty Development Program on “Electric Vehicles” (5th July to 9th July 2021)

VESIT Renaissance Cell (In association with Department of EXTC Engineering, Instrumentation Engineering, VESIT-IIC and IQAC) of VESIT, Mumbai, Maharashtra is organizing, AICTE Training And Learning Academy (ATAL) Sponsored One Week Faculty Development Program (online) on “Electric Vehicles” (5th July to 9th July 2021)

ABOUT FDP

The electric vehicle industry is a growing industry in India. The central and state governments have launched schemes and incentives to promote electric mobility in the country and some regulations and standards are also in place. Electric vehicles are the future of transportation. Electric mobility has become an essential part of the energy transition and will imply significant changes for vehicle manufacturers, governments, companies, and individuals. There are challenges like lack of charging infrastructure, high initial cost, and lack of electricity produced from renewable energy. Still, e-commerce companies, car manufacturers, app-based transportation network companies, and mobility solution providers have entered the sector and are slowly building up electric car capacity and visibility. Also, Electric Vehicles (EV) are one of the growing popular options for people who are conscious about environmental pollution, global warming, and health issues. The global share of Electric vehicles will increase from 2% in 2020 to 22% in 2030. The ability to deliver the technical information of this major area to the right audience at the right time is a valuable skill. This Faculty Development Program (FDP) is designed to enrich and augment the knowledge of the participants and provide a basic platform to carry out research in these fields which will further bolster the development of the country.

2.Alumni Interaction (V-Reach)

INST Department is proud of it's robust alumni base which has grown immensely and reached global heights. It wholeheartedly acknowledges their role as stakeholders in leveraging the VESIT brand, to foster this relationship further VESIT-Internal Quality Assurance Cell (IQAC) in association with Institution's Innovation Council (IIC), has unlocked the teaching-learning process, especially during these unprecedented times of COVID-19, through, **VESIT's Alumni Engagement Initiative: "V-REACH"**

Objectives of V-REACH:

- To provide a forum for a series of webinars covering various domains of learning and support outcome-based education.
- To enable knowledge and expertise sharing of alumni for professional development of students.
- To actively engage the stakeholders to expand VESIT's outreach.
- To foster our relationship with our alumni effectively and employ their flair, ardor, knack, and contributions to constructive ends for VESIT and its students.

Four alumni from the Instrumentation Department communicated with the students of second year, third year and final year and guided them for the future through V-Reach sessions, details of which are:

Sr. No.	Name of The Speaker	Designation	Topic Covered By	Date	Batch

3. Entrepreneurship Initiatives

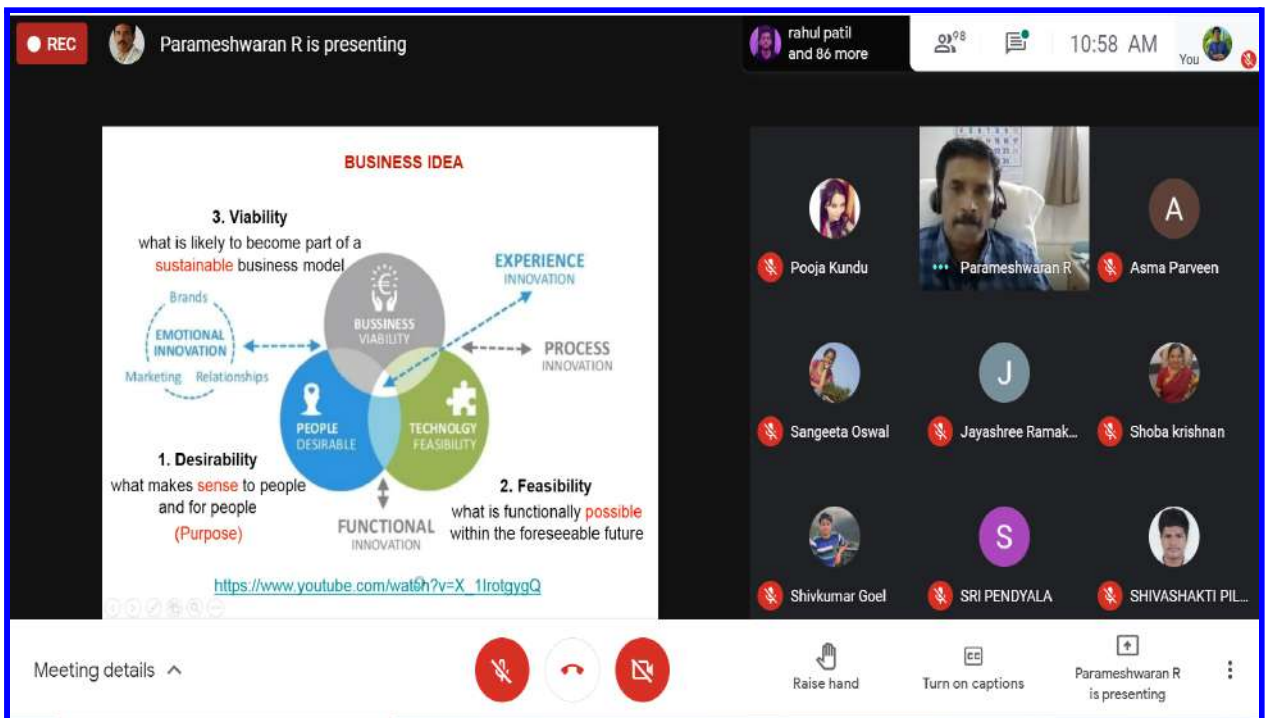

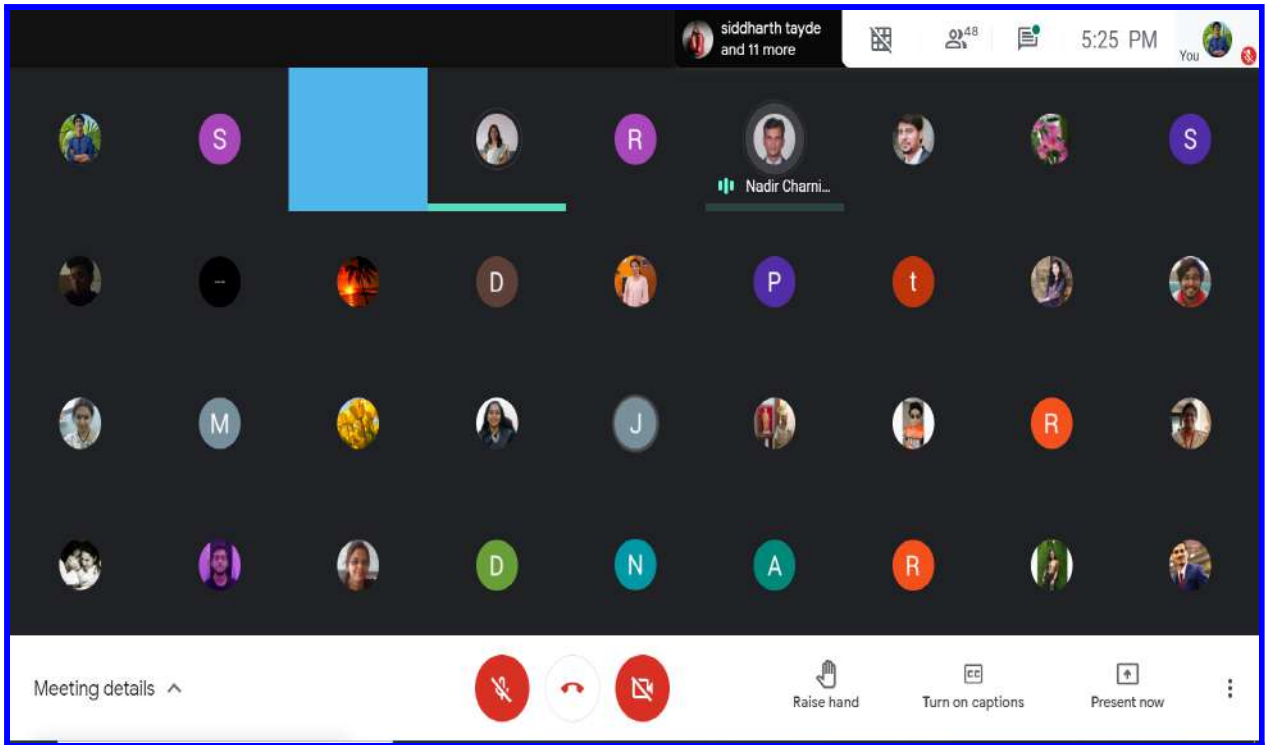

To initiate students with current knowledge, Industry affairs and enhance the students for start-ups, our faculty member Mrs. Jayashree Ramakrishnan played the Coordinator role in the Entrepreneurship Initiative session under the guidance of IQAC-IIC.

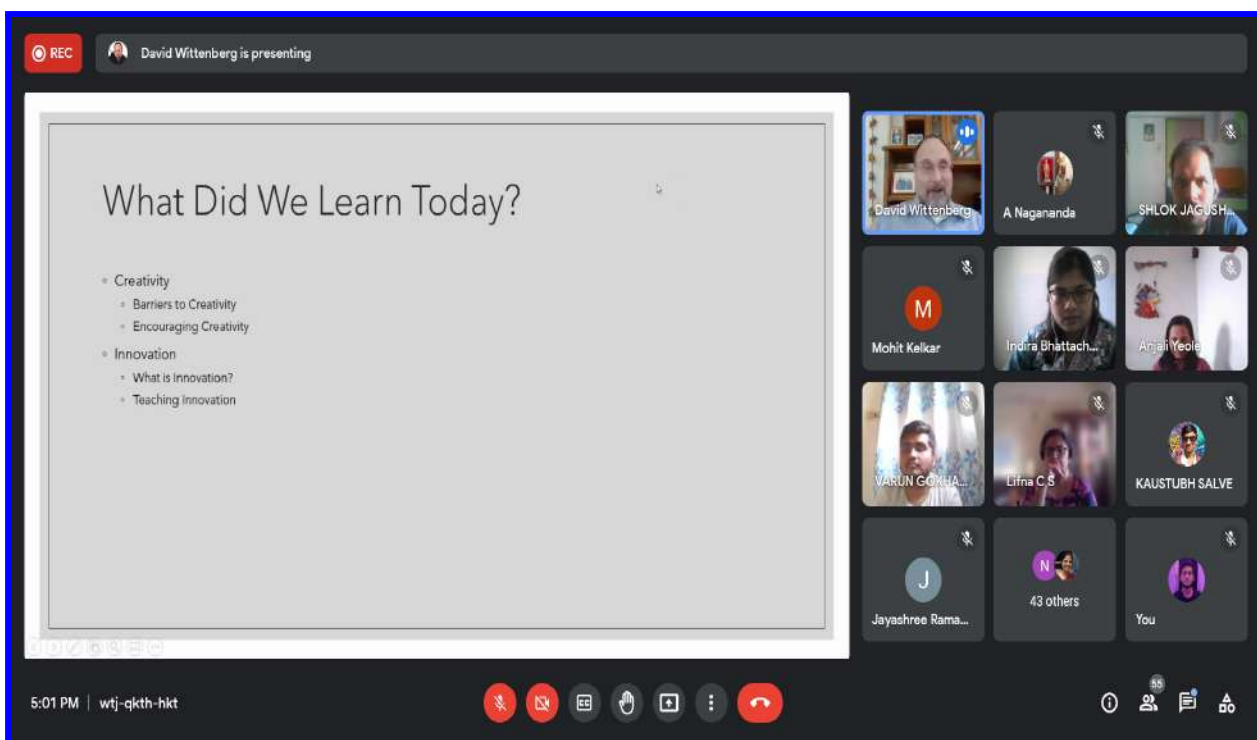

An online session was conducted for all students & staff members, under IQAC-IIC, the details of which are :

- ❖ Dr. Ramakrishnan R. (Assistant Vice President – Intellect Design Arena) & Mr. Ramnath Prabhu (Assistant Manager - Intellect Design Arena) gave an expert lecture on “Design The Thinking - Preparing the Entrepreneurship Mindset” at 31st July 2021 from 10.00AM-12.00PM.

4.3 Industry Interactions/Training

Industry proctored project under B&R Industrial Automation Pvt. Ltd.

B&R Industrial Automation Pvt. Ltd, Pune, Maharashtra offered industry collaborated training and project mentorship to final and pre-final year students. Participants were trained on various methods of PLC programming and HMI development. Program development for various applications in process control, motion control, factory automation, etc was taught to participants. Different methods of programming such as ladder, structured text, block diagram, etc were covered in detail. B&R Automation Studio 4.7 is used for program development and simulation. Automation Studio software supports OPC UA (Open Platform Communications - Unified Architecture). Several simulations were also demonstrated in iPhysics and ACOPOStrack.

Broad areas of training and project mentorship:

1. Machine Centric Robotics (MCR) + OPC-UA

In machine centric robotics the participants are taught to control a certain process using Map- Robotics and HMI screen developed for the robot. The main objective of this project is to learn about the sensors, actuators used in robots, controlling a robot, learning about industrial automation, building HMI screen, understanding and communicating the standard industrial communication protocol OPC-UA.

2. Digital Twin + OPC-UA

A Digital twin can be used to simulate the physical behavior of any system in real time before any part of the real system has been constructed. A digital twin is a detailed, dynamic representation of a real machine. Three-dimensional CAD data is used to create a digital model. Not only does this simplify and accelerate hardware and software development, it also makes it possible to perform virtual commissioning of the track. Simulating the physical behavior of a machine in real time makes it possible to identify bottlenecks and potential for optimization very early in development. A digital twin dramatically accelerates the process of developing and optimizing a machine design. Before ever setting up an actual robot, developers can check their design's performance on key metrics like picks per minute.

List of projects assigned/demonstrated to students:

1. Digital twin:
 - a. Box Lift
 - b. CrossCutter+OPC-UA
 - c. CrossCutter RegMark+OPC-UA
 - d. DrillingMachine+OPC-UA
 - e. FlyingSaw+OPC-UA
 - f. Labeler+OPC-UA
2. Robotics:
 - a. Delta+OPC-UA
 - b. Scara+OPC-UA

Schedule/time line of events:

Sr No	Description	Date
1.	Announcement of training and opening of registration	18 th Aug, 2021
2.	Online training	13 th Sep to 23 rd Sep, 2021. From 11 AM to 4 PM
3.	Assignment evaluation and grading	24 th Sep, 2021
4.	OAC 21 announcement and opening of registration	4 th Oct, 2021
5.	OAC 21 final competition & results	26 th & 27 th Oct, 2021

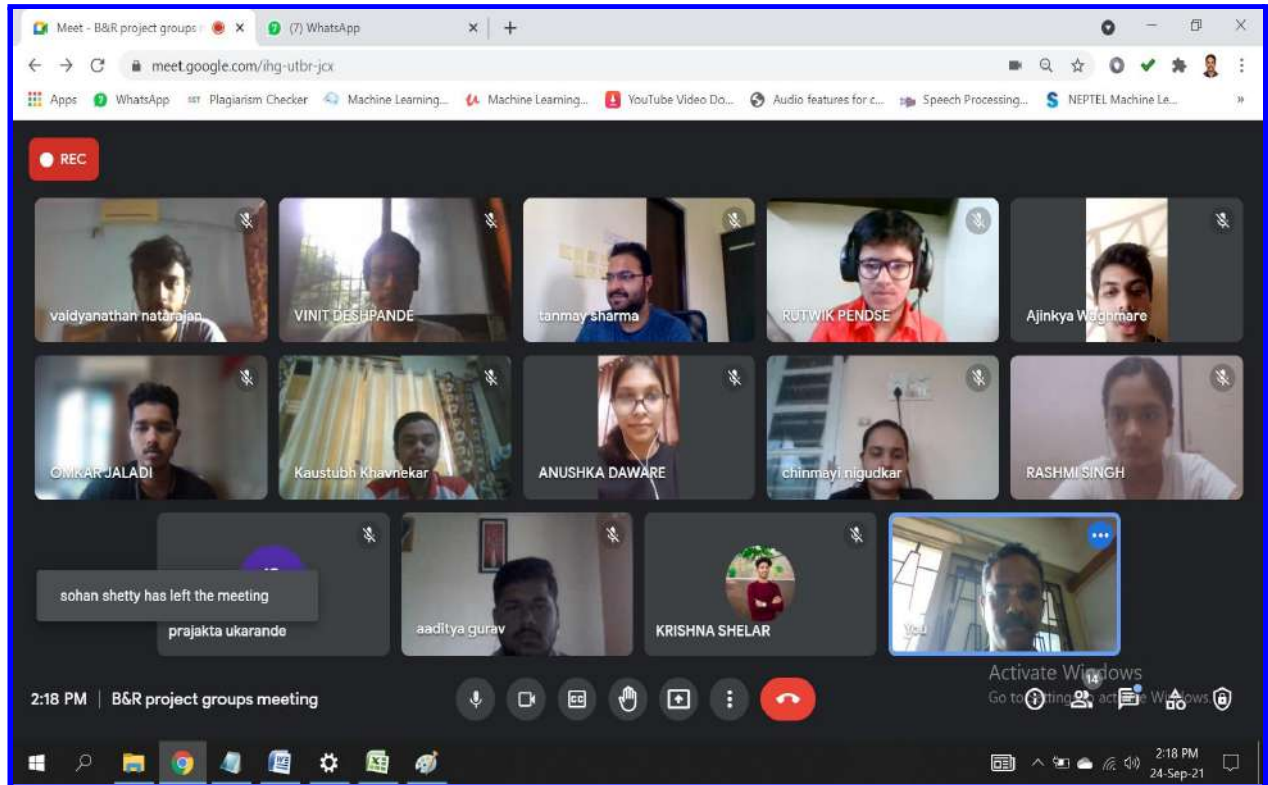

Course certificate

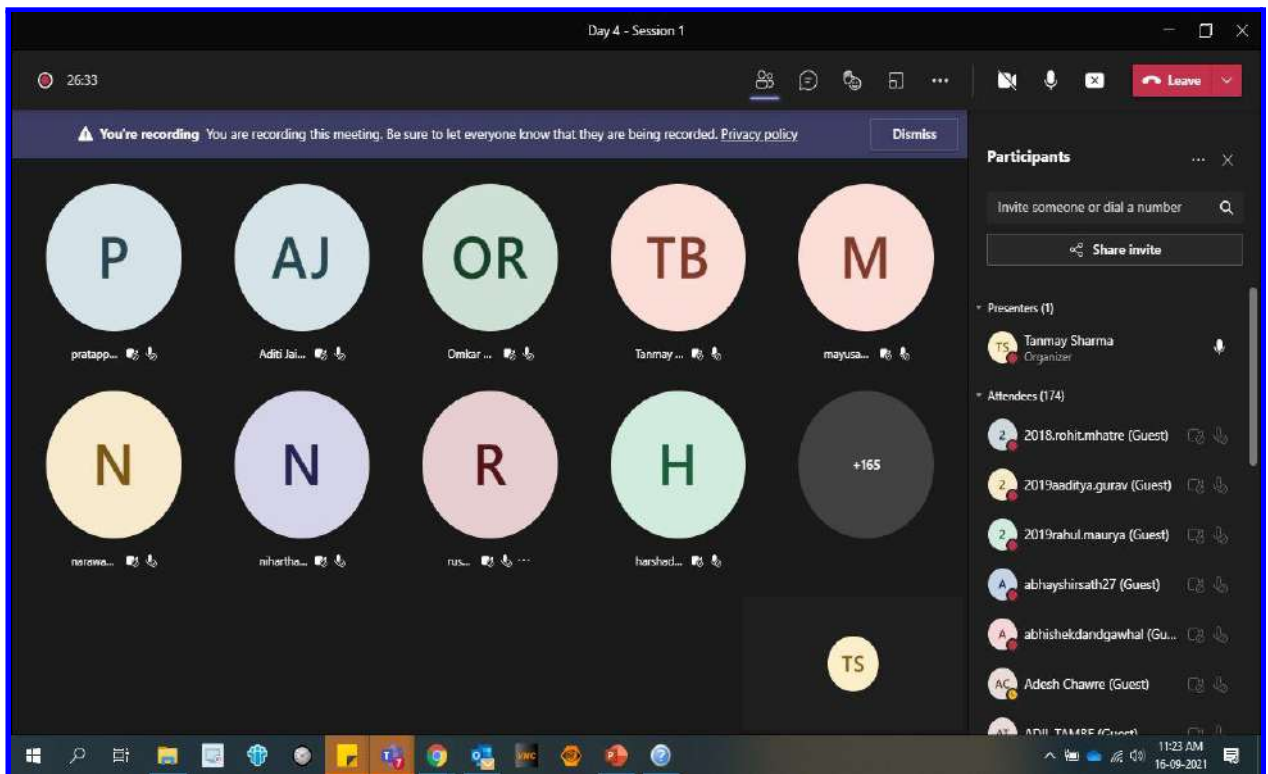

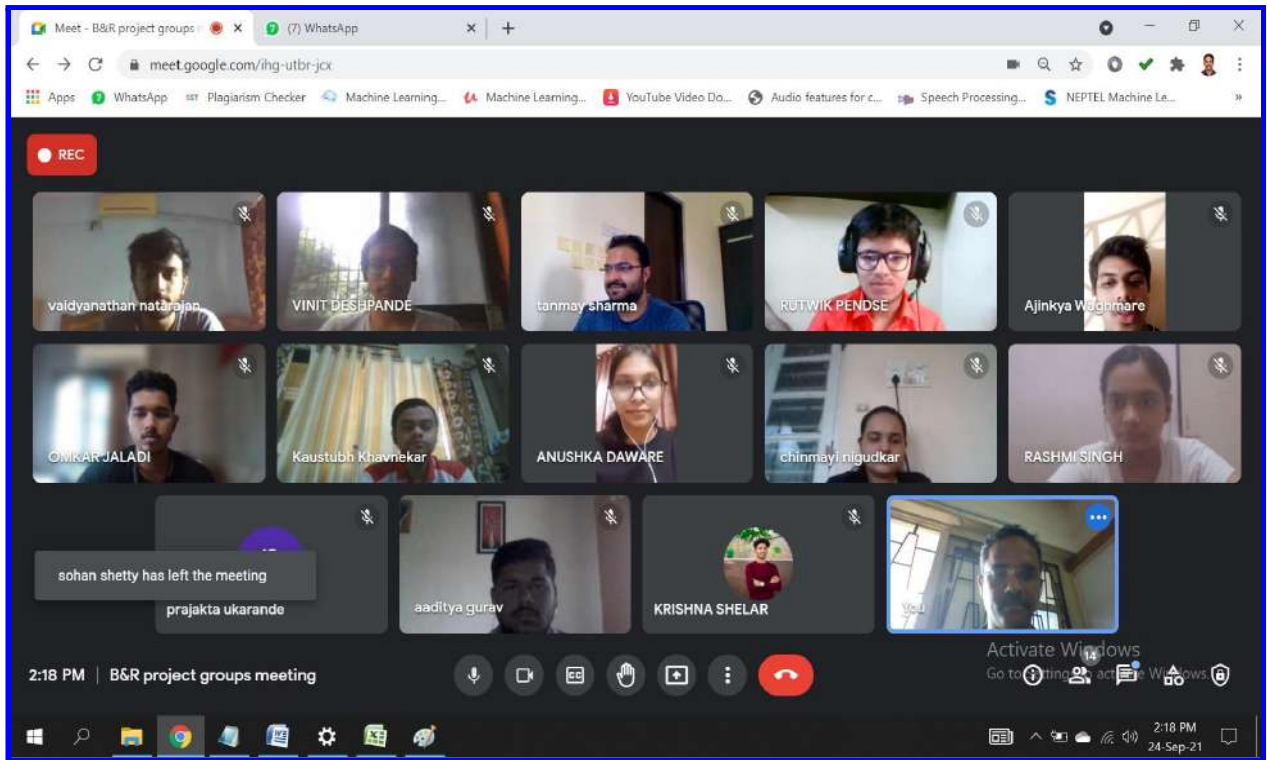

Course certificate is for 30 days training. According to Tanmay Sharma the certificate has included advance training days and topics. Dates on certificate: 13/09/2021 to 22/10/2021.

Activity was corroborated as listed below:

1. Two weeks training conducted from 13/09/2021 to 24/09/2021, 11 am to 4 pm.
2. Total 47 students participated in the event. Final year (BE batch) – 23, pre-final year (TE batch) – 24. 5 faculties participated in the event.
3. Students are distributed into five groups. One faculty advisor allotted to each group.
4. Group consisted of 3 to 5 students from final year (BE batch) and 4 to 7 students from pre-final year (TE batch).
5. Two weeks training on PLC & HMI programming was conducted. Programming conducted using B&R Automation Studio 4 development and runtime environment.
6. Training was conducted online using Microsoft Teams.
7. Mentoring and all activities are provided free of cost. No charges or fees to be paid by students or institute for training, software license, etc.
8. Certificates will be awarded to students for training and project implementation. Certificate/appreciation letter would also be provided to faculty mentors from college.
9. Three assignments were assigned to students. Checking and discussion on assignments were conducted on 24th Oct 2021. Grades assigned to individual students. Session was conducted jointly by VESIT faculty and Mr. Tanmay Sharma from B&R.

10. Students motivated to participate in OpenAutomation Challenge 2021 (OAC 2021). Two teams submitted their proposal to OAC 2021. Only one team was shortlisted for the competition.
11. Team members of the shortlisted team were awarded participation certificates.

4.4 Student Achievements/Award :

Two final year Instrumentation project groups had participated in the National level project competition called **“openAutomation Challenge 2021”** organised by B&R Industrial Automation. The challenge is dedicated to the emerging student community interested in developing innovative ideas focusing on automation, IoT, data and cloud based solutions.

openAutomation Challenge 2021 is an online event for students to develop use cases using open source technology OPC UA and automation solutions from B&R. Teams demonstrating innovative ideas will get a chance to win exciting prizes. Among the two groups which had participated, the details of which are given below, one group reached the final stage of the competition.

Sr. No.	Name of the Industry	Title of Project	Name of Students	Resource Person	Project Mentor
1	B&R Industrial Automation Pvt. Ltd.	PLC based AGRIVOLTICS	1.Rohan Panchal 2.Gaurav Patil 3.Amogh Mopkar 4.Ashish Adhikari	Tanmay Sharma (Engineer, Business Development Education Network)	B&R Industrial Automation Pvt. Ltd.
2	B&R Industrial Automation Pvt. Ltd.	AUTOMATED EV PARKING	1.Rutwik Anant Pendse 2.Manish Patil 3.Prachay Kadam 4.SandeshMandhare	Tanmay Sharma (Engineer, Business Development Education Network)	B&R Industrial Automation Pvt. Ltd.

5.Skill Development Activities

- 1) A series of 3 BMI special lectures / Skill Enhancement Lectures (SEL) were conducted for final year students under the Biomedical Instrumentation course. The first SEL was on "Signal analysis and design of EMG signal conditioning circuit" and was delivered by Ms. Monica, (PhD scholar, IIT-B) on 28th August 2021.
- 2) Second Skill Enhancement Lecture (SEL) was on "Signal analysis and design of EMG signal conditioning circuit" and was delivered by Ms. Monica, (PhD scholar, IIT-B) on 04th October 2021 for the final year students.
- 3) Third Skill Enhancement Lecture (SEL) was on "Brain-computer interface (BCI) application of EMG/EEG signals" and was delivered by Ms. Monica, (PhD scholar, IIT-B) on 09th October 2021 for the final year students.
- 4) Skill Enhancement Lecture (SEL) on "Digitalization in Pharmaceutical Industry " was delivered by Mr. Lalit Bangera, Digital Transformation consultant-Process Industries, Siemens Pte Ltd, Singapore on 25th Sept, 2021 for the final year students.

5.1 Finishing school Training

- 1) Finishing school was conducted for students moving from third year to final year during summer from 12th July-24th July for 12 Days by faculty of the department & other Expert Persons

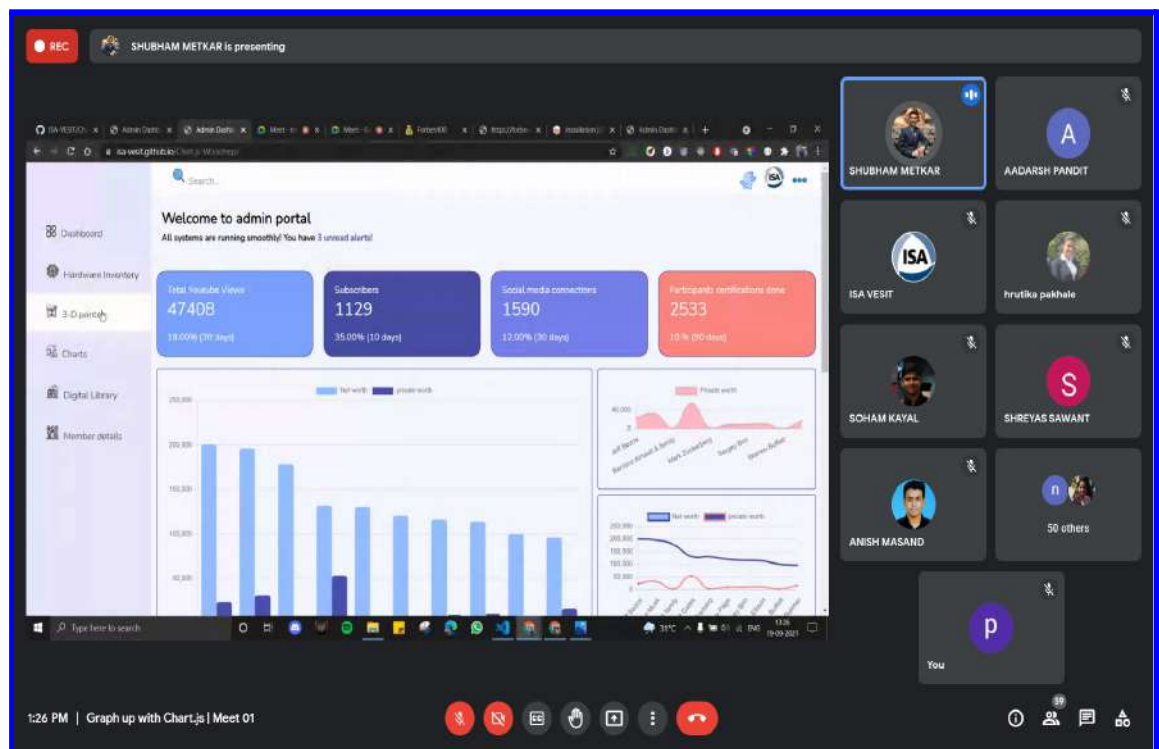

6. Professional Society Activities (ISA)

ISA Activity (Students Platform)

ISA-VESIT took a huge leap this year on the path to give the service of a Technical Society in the true sense. Set out to achieve technical prowess, it has surely come a long way. ISA-VESIT has now become a more technical oriented society and aims at imparting technical skills to its members in tandem with recreational events and skill enhancing workshops. The various activities conducted under ISA are:

6.1 Graph up with Chart.js Workshop

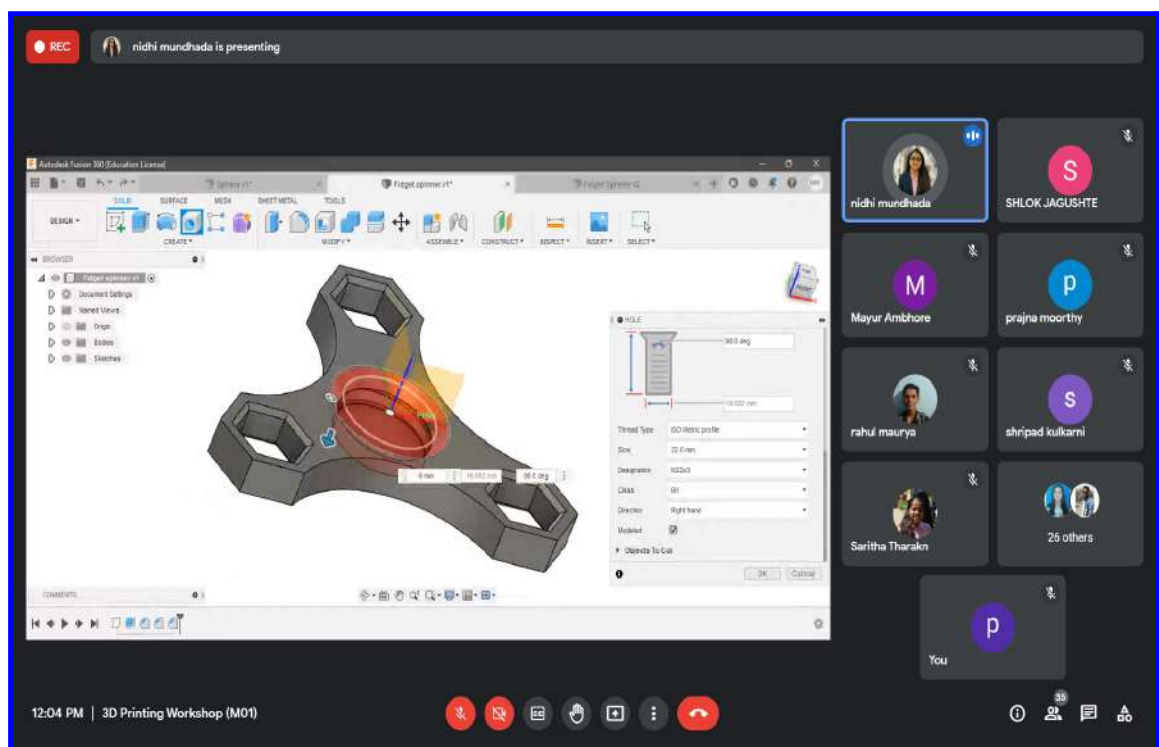

To help the students visualize data using interactive charts on the web, ISA-VESIT conducted a Graph up with Chart.js workshop on the 19th of September, 2021. This workshop was conducted by Mr. Omkar Mangalpalli and Mr. Shubham Metkar. The first session commenced with an explanation of the functioning and development of websites and the importance of data visualization. Before moving to hands-on programming, a short quiz was played with the participants which tested how well the participants had grasped the concepts taught to them. The interactive programming session kick-started with the participants being familiarized with the basics of HTML for displaying the visual elements of a web page, CSS for making it visually appealing, and JavaScript for adding interactive client-side functionality. The first part of the session concluded with the participants being shown different types of charts created using Chart.js. The participants were taught to design an admin dashboard in the second session. They were given a detailed description of each and every Chart.js function to make a visually appealing admin panel. The didactic session was then topped off by putting forward a 'Dashboard Making Competition' for ensuring that the participants successfully inculcated the skills learned upon attending the workshop.

6.2 3D Printing Workshop

ISA-VESIT successfully conducted its 3D Printing workshop on the 3rd of October, 2021. It was conducted by Ms. Nidhi Mundhada and Ms. Esha

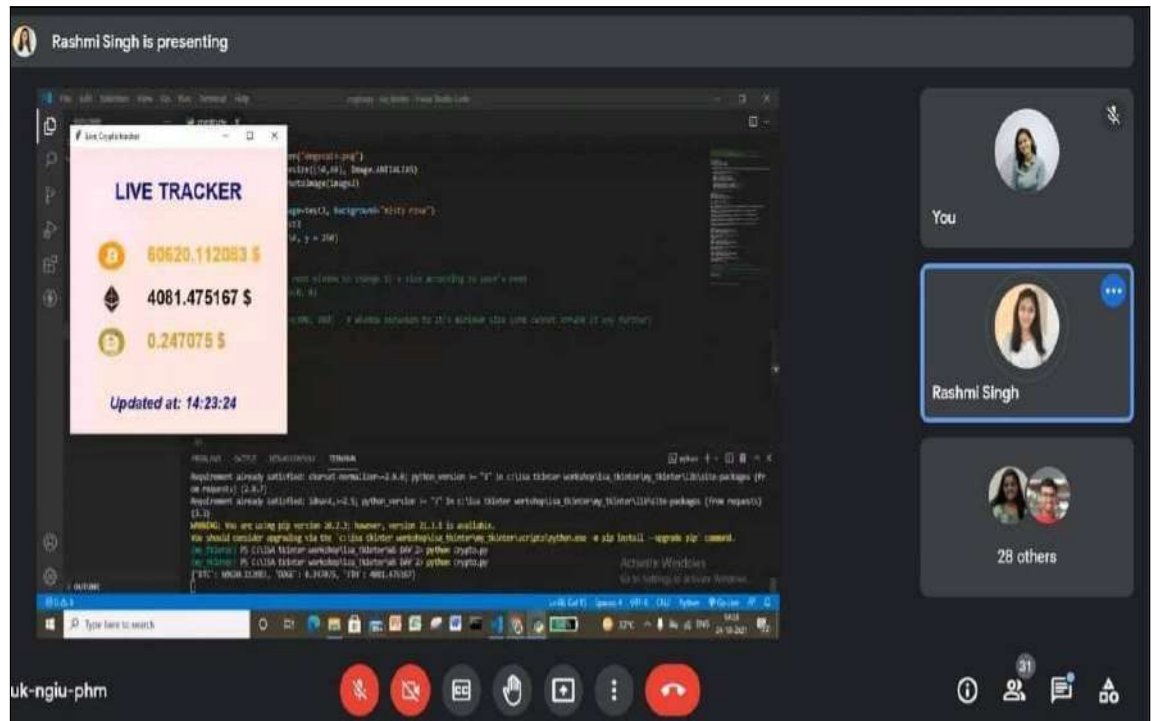

Kadam. The first session commenced with an interactive quiz for the participants followed by a brief introduction about 3D printing. The participants were then given a brief tour of Fusion 360, a software used to create the 3D models. Towards the end of the first session, a 3D model of a fidget spinner was created on the software. In the second session, participants were taught advanced designing. The project that the participants worked on during this session was designing a mug from scratch and embossing a logo on it. After this, the session continued with the participants being taught how to use FlashPrint software for using ISA-VESIT's very own 3D Printer - 'Flashforge Adventurer 3' to get their designs printed. They were shown a video recorded by the council that explained the working of the 3D printer. The workshop concluded with the announcement of the '3D Design Competition' for the participants to create their own designs and have them printed on ISA-VESIT's 3D printer.

6.3 Desktop Applications using Tkinter Workshop

To acquaint the students with GUIs and desktop applications, ISA-VESIT conducted Desktop Applications using Tkinter workshop on the 23rd and 24th of October, 2021. This workshop was conducted by Ms. Hrutika Pakhale, Ms. Rashmi Singh, and Ms. Asmita Bhangare. The first day of the workshop commenced with the basics of Python programming followed by a quiz on the concepts of Python. Basics of Tkinter, databases, and their management using SQL were taught. At the end of the first day, attendees were given a task to create a GUI for a login and registration page. The second day

commenced with creating a project of login and registration authorization. Further, the participants were also taught to connect a database to the application and make a verification page. A live cryptocurrency tracker was built and the participants were familiarized with APIs.

6.4 Embedded Systems Workshop

ISA-VESIT conducted its first offline workshop on Embedded Systems after the longest break on the 27th and 28th of December, 2021 followed by an internship opportunity to make the members familiar with microcontrollers and implement embedded systems in their projects. The first day of the workshop covered the fundamentals of the 8051 microcontroller board. MS51, which is an enhanced version of 8051, was utilized and its numerous features and functions such as push-pull mode, input mode, and masking were discussed. At the end of the first day, participants got acquainted with timers, counters, and printing on the Termite terminal. The second day began with understanding the concept of serial communication followed by an overview of ADCs and interfacing boards. Finally, the participants were given an opportunity to work on some basic projects like blinking LED, blinking patterns of LEDs, buzzers, relays, and temperature measurement using LM35.

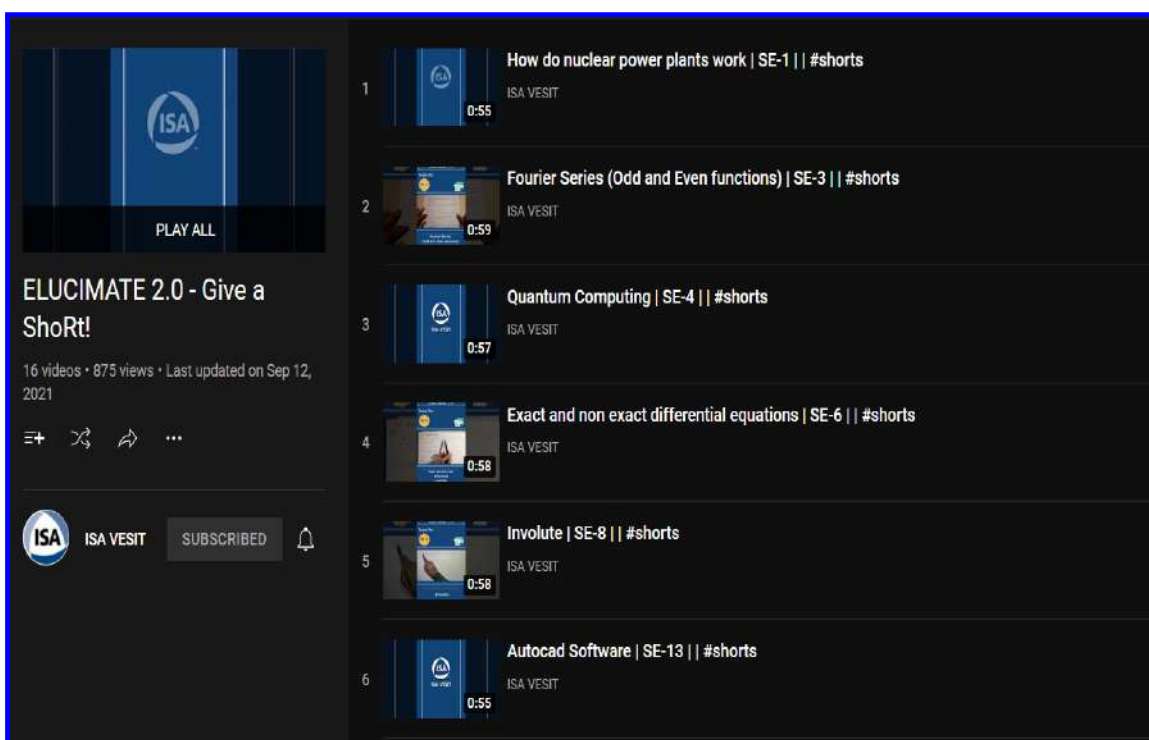

7.ISA Non Technical Events

7.1 EluciMate 2.0

EluciMate 2.0 was successfully conducted from 17th August to 22nd September 2021. This video-making competition was conducted in two rounds. The first round was 'Give a ShoRT' in which participants were given a span of 5 days to create a short video of 60 seconds introducing their technical topic which showcased their creativity and teaching skills. 8 teams

from second year and third year each out of 36 teams that participated, qualified in the next round and their videos were also published as YouTube shorts on ISA-VESIT's official YouTube channel. The next round was 'Chase to the Cut', where the participants were supposed to create a video explaining their topic in detail. These videos were also published on YouTube and were judged on the basis of the likes and marks given by the judges, the criteria being innovation, communication, presentation, and knowledge of the topic. The judging panel consisted of Mrs. Himali Patel from the EXTC department, Dr. Rajani Mangala from the ETRX department, and Mr. N. Gopalkrishnan from the Instrumentation department. After the evaluation, Rajnandini Verma (D8) secured 1st place and Suleman Mathekar (D10A) and Gaurang Desai (D10A) secured 2nd place in SEs. Priyanka Moopnar (D14A) and Isha Chavan (D14A) secured 1st place and Sakshi Gupta (D14B) secured 2nd place in TEs. The time and dedication of judges made it possible for us to reward students for their creative efforts.

7.2 BE and Beyond

BE and Beyond is a talk series which takes us through the journeys of alpha geeks from around the world wherein they share with us their experiences and expertise in top-tier fields of technology and science. It was launched on ISA-VESIT's YouTube channel on 10th October, 2021. Three episodes of 'BE and Beyond' have been aired till date featuring VESIT's prominent alumni Mr. Mihir Lele, Mr. Dhairya Pujara, and Mr. Navin Sridhar.

		participate in project competitions organized by other institutes.	2. Mentor encouraged students to participate in project competitions as a result EXTC students participated & won prizes in National level project competition at SPIT, CIIA Project exhibition & LBS-I2I Project competition-2023.
8.	Major/Minor Research Grant Proposals / Patent	Department faculty should file patents & apply for the research grants.	Mrs. Manisha Joshi has filed two patents for “A function generator embedded with ANN” & “Power-low type activation function for computing system”
9.	Industrial Visits / Industry interaction	To arrange industrial visits for SE, TE & BE students.	1. One day industrial visit to Tata Communications Ltd, Dighi, Pune for BE & TE students on 03/02/2023 2. One day industrial visit to Tarapur Atomic Power Station, Tarapur for SE students on 24/02/2023
10.	Student Internship	To have industry-like experience & to Develop Better Professional Skills, the department should encourage students for industry internship during their semester breaks.	Department provides request letters & bonafide certificates to students for industry internship during semester break..
11.	Certification Courses	1. To organize certification courses in association with the industry.	1. Department has organized an Online certification course on “Hands-on Cyber Security

		<p>2. To complete NPTEL certification course (Faculty & Students)</p> <p>3. NITTTR certification by faculty</p>	<p>Essentials” in association with TeleNetworks Communication Pvt. Ltd.</p> <p>2. Dr. Rasika Naik completed NPTEL certification course on “NBA Accreditation and Teaching and learning in Engineering (NATE)”</p> <p>3. Mrs. Neeta Chavan completed module -7 (Creative Problem Solving , Innovation and Meaningful R & D” of NITTTR certification</p>
12.	Placement activities /Competitive Exams/ Higher Studies/Entrepreneurship Initiatives	To make students industry ready by arranging various activities under GRIN: Get Ready For Industry by EXTC placement team.	Placement cell of department conducted various activities like online aptitude quiz, session on employability, eligibility, resume writing, skill set analysis, etc
13.	Orientation Programs	Conducting & participating in orientation programs for new subjects added to the curriculum on behalf of University of Mumbai.	<p>1. Mr. Gaurav Tawde conducted an orientation program for the subject “Satellite & Nano Satellite Communication (ECCDLO8022)BE-EXTC/S emester VIII”</p> <p>2. Four faculty members attended orientation programs for semester VIII subjects.</p>
14.	Workshops/Short Term Training	To conduct STTP, FDP & workshops for faculty training	All faculty members have attended FDP/STTP/Workshop.

	Programs/Faculty Development Programs for faculties	to update them in the field of technical education to introspect and learn techniques that can help prepare students for active and successful participants in a knowledge society.	
15.	Participation in Workshops/Short Term Training Programs by the students	To teach students hands-on skills, the department should conduct & encourage students to take part in Workshops/ STTP.	Department's Tinkerer's lab conducted STTP on "Trends in FPGA Design & Prototyping with VERILOG " for TE students.
16.	Alumni Interaction	To involve alumni for Placements, Industry engagements, Syllabus Reviews & Feedback	Alumni were invited for Mini project reviews, Convocation and are actively involved in the Department Advisory Board (DAB).
17.	Students participation in co-curricular & extracurricular activities	To bring social & intellectual skills, moral, cultural & ethical values, personality development, and character advancement in students, the department should encourage students to take part in various activities organized by professional committees & VESIT council.	<ol style="list-style-type: none"> 1. Students actively participated in the technical fest "Praxis" organized by VESIT. 2. In Cultural fest "Utsav" & "Illusion", Sports events "Indoor & Outdoor Sphurti", EXTC students showed their remarkable presence.

SPROUTS | NEWS NETWORK

Vivekanand Education Society's Institute of Technology (VESIT), Chembur, Mumbai has qualified in the list of Final 30 Start-ups projects selected in the National Competition "Swadeshi Microprocessor Challenge -2020" organized by the Ministry of Electronics and Information Technology, Govt. of India in collaboration with C-DAC (Center for Development of Advance Computing), IIT Madras, MyGov and MakerVillage under "Self-Reliant Bharat Abhiyan"

Vivekanand Education Society's Institute of Technology (VESIT) has been a well-known educational institute where interdisciplinary research projects are carried out in collaboration with Depts. of Electronics Engineering, Instrumentation engineering, Information Technology etc.

VESIT encourages an interdisciplinary and collaborative research work culture leading to more innovative and stimulating learning environment and enforces new ways of thinking and doing, in ascertaining each individual's

knowledge and competences.

The project entitled "Calibration System for Nuclear Spectroscopy Applications" is the only project selected from Mumbai University which has also been awarded a total prize amounting to Four Lakh Rupees. Earlier in the same competition 100 projects were shortlisted out of more than 6000 projects proposed by different educational institutes, start-ups, R&D centres and Industries in India.

VESIT is the only institute in India whose 03 projects have qualified in the list of selected 100 projects and received funding of One Lakh Rupees each towards creation of start-up and project

expenses.

The winner team comprises of Electronics Engineering research scholar working in the Department of Information Technology (Mrs. Asma Parveen I. Siddavatam) along with postgraduate student (Mr. Ajit Tukaram Patil) from Instrumentation and control, mentored by Dean Research and Development (Dr. P. P Vaidya) with an expertise in the field of nuclear electronics and instrumentation under the leadership of Dr (Mrs). J. M. Nair (Principal, VESIT). The proposed project was developed using Swadeshi Microprocessor designed in collaboration with CDAC and IIT, Madras.

Title: Let's take a step towards ultimate wellbeing: Engineer's perspective

As a VESIT alumni from the course of Information Technology, let me start with "Nonlinear Dynamics". About a year and half ago, one tiny misbehaviour in one part of the world stirred the entire population into a pandemic situation. Such a phenomenon in the Chaos Theory is called the "Butterfly Effect", i.e. sensitive dependence on initial conditions in which a small change in one state of a deterministic nonlinear system can result in large disagreement in a later state. The same also happens in our body, where a minor issue like indigestion, hormonal issue, anger, lack of sleep, etc. can result in a hazardous non-communicable disorder such as diabetes, hypertension, cancer, etc. It is

very important to know these issues way before time to take personalized corrective actions. In the current pandemic period, we have realized the power and need of natural, preventive, and holistic ways to increase immunity. Now it's time we adapt ourselves to our surroundings and use holistic yet AI-based technological inventions for the betterment of life -- when lifestyle diseases and wellness concerns are skyrocketing.

Ayurveda, the 5000-year-old Indian science of life, provides personalized health solutions by understanding the imbalance between Prakruti (body type) and Vikruti (today's condition). The Nadi Pariksha (pulse examination) technique allows experts to reach to the root cause of health issues and address underlying symptoms. It can accurately diagnose physical, mental and emotional imbalances as well as diseases. Further, Ayurvedic techniques reform, strengthen and synchronize connection between nature and human beings. In this age, to take these solutions to millions across the world, it is important to present Ayurveda in today's language of numbers, graphs, gadgets, reports, etc.

In VESIT, my thesis was on the analysis of ECG signals. I worked further on it during my PhD at IIT Bombay on the Ayurvedic pulse signals. Based on that, I built world's first pulse (nadi)-based monitor "Turyaa Wellness". It is a revolutionary, innovative, home-based device that records and monitors the health of your entire family by combining the three disciplines of Ayurveda, Nutrition Science and Data Science. Considering your nature, daily health complaints, place of residence and weather, Turyaa will accordingly guide and plan your day with proper diet, exercise, yoga, sleep and water recommendations.

A unique indigenous technology, its application will make the country 'Atma Nirbhar' in healthcare. It was given the IT Excellence Award by the Ministry of AYUSH in 2018. A couple of months back, we received prestigious DSIR recognition for our in-hour R&D unit. Through the data-based research, for the first time, we showed data-based evidence that the Ayurvedic gunas (10 in our case, 20 in total) show seasonal patterns with respect to Prakruti. We specifically showed that the Jatharagni parameter (responsible for the digestive fire) has higher values in the Shukla paksha (first half of the lunar cycle) as compared to the Krishna paksha; further, it goes down on both the Ekadashis and so on. This clearly states why Indians since ancient times have followed a fasting routine. Through data, we showed how the nadi bala parameter (physical strength) increases with Surya Namaskar. We also showed how the nadi changes when specific vata or pitta or kapha provoking food is consumed for a number of days, and all the above observations are in accordance with references from the ancient texts.

Finally, I would like to say -- What grows from within, should be known from within and also be treated from within. We all are going through a difficult time due to the pandemic and we should understand that it will get more and more difficult moving ahead. So, it is essential that we, our entire family, our society, our country and the globe should be physically, mentally and emotionally strong and healthy. Yoga has been one of the finest gifts of India to the world and Ayurveda is going to be the next. My vision is to improve peoples' lives using the world's best personal, predictive, portable and non-invasive health monitoring system. The best time for technology or digitization in Ayurveda is now. Fitness is okay, wellbeing is next.

It's been almost 8 years since I left VESIT, but all the memories are still fresh in my mind. Those 4 years were one of the best times I have experienced, right from learning new things, have professional attitude to having lot of fun events in the college. The teachers were always helpful in clearing doubts and encouraging in learning new things. I still remember my placement year where in Nagananda Sir had guided everyone with his sessions on how to handle pressure and what kind of attitude a student should have during the interviews. Being part of the placement coordinators committee, I remember on how hard teachers and we use to work to make sure we have high placement percentage and we did achieve that in our year. VESIT was able to attract dream companies and we got a chance to get placed in one of those. It was an amazing journey and its hard to write my four years in few words but it gives me goosebumps whenever I remember those.

● V-Reach

V-REACH, an Alumni Engagement Initiative, was conducted at the Institute level, to provide a forum for a series of webinars covering various domains of learning and support outcome-based education and enable knowledge and expertise sharing of alumni for professional development of students. It aimed at actively engaging the stakeholders to expand VESIT's outreach.

V-REACH tried to unlock the Teaching Learning in an innovative way, through its inception series of 14 webinars commencing from 2nd to 19th August 2021, which was streamed on VESIT-YouTube channel.

The Department hosted 2 events.

Event 1 - “Booting Up! Adventures in Entrepreneurship”

Entrepreneurs are changing the face of our planet today. From launching rockets to championing climate change and social-impact causes. Are entrepreneurs born? Is it a skill that could be learned? Now, more than ever, it's easier to start up! If you believe in your bold ideas and have a vision for a better future, why not consider this as a career-defining journey?

In this talk I share some highs and lows from my experience of "booting up" new ventures. A journey strewn with thrill, challenges, and failures. But also a journey that can be deeply rewarding in terms of immense learning, financial growth, and an opportunity to build a better world. If opportunity doesn't knock, build a door!

● **IT Quest**

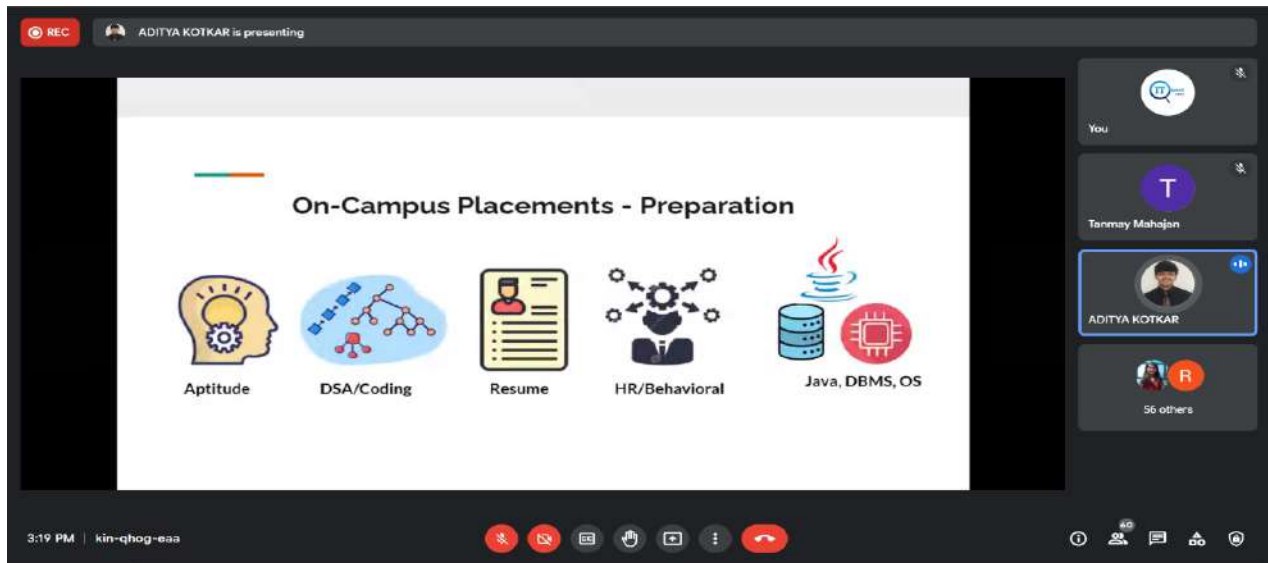

A new students council was introduced for the Students and by the Students of the Department - QuestIT. QuestIT is a technical cell with a goal to provide a platform for programmers, developers and students of VESIT to learn, compete and have fun through various Technical and Non-Technical Events. The main aim of the council is to help students and make them aware of the necessary things to cope up with the pace of the industry and be well prepared for the challenges that come with it. QuestIT aims to provide quality education that is useful for all the students. QuestIT helps students by conducting seminars, workshops, etc. on the topics students demand the most and help them be a master at that topic.

The Council is backed up by a robust Students and Faculty Committee.

The Council conducted 2 events during the semester.

VESIT Placement, aimed to apprise students of the Placement Process, Approach towards Company, Internships and Freelancing. In this event, the students were informed about the various rounds of Placements such as the Aptitude round, Technical interview round, HR or Behavioral interview round and how to prepare for these rounds and the speaker also shared their personal experience of placements. Lastly, a brief overview on Higher Studies and Off Campus Placements was provided to students.

- **Importance of Corporate Social Responsibility**

On 13 August 2021, the SEL lecture was conducted for the third year INFT students of VESIT. The topic for the lecture was “The Importance of Corporate Social Responsibility and the activities undertaken by SUD Life under CSR”. The guest speakers were Mr. Gnana William who is a Chartered Accountant presently working in Star Union Dai-ichi Life Insurance Company Limited (SUD Life) as Executive Vice President & Head Audit and Mr. Rakesh Kumar is a Company Secretary and Law Graduate in SUD Life as Sr. Vice President.

- **Web Application and Cyber Security**

The session on Web Application and Cyber Security was conducted for the third year students of the department on 18th September 2021 on Google Meet platform. Subject expert Mr. Nayab Falke, Manager IT, The Clearing Corporation Of India Ltd conducted the session. The session outlined a few of the Security Risks involved in Web Application and also various types of Cyber Attacks.

To set the stage, the speaker of the session, first refresh some of the concepts of networking protocols. Emphasised on understanding protocols to tackle security concerns. Further some of the commonly found Cyber Attacks were discussed with demonstration of few of the attacks. The session was concluded by discussing the Best practices to be followed in creating a Robust Web Application.

PROGRAM ASSESSMENT COMMITTEE REPORT

[AY 2021-22 ODD Sem]

Based on the results of AY 2020-21 Even Semester

Suggestions by Internal Program Assessment Committee on 28/09/2021

Lab work(PR/OR/TW):

L1: Give more design problems to the students for practicing.

L2: Repeat the practical if required.

L3: Conduct the mock practical/oral before the final practical/oral examination.

L4: Emphasize the timely submission of assignments, tutorials, and lab-work.

Theory(TH/IA):

T1: Give more design problems to the students for practicing.

T2: Conduct extra lectures for the weak students.

T3: Get the extra work done as a part of homework from students.

T4: Identify the topics which are difficult to understand from the students points of view and re-explain the same

After analyzing the results of Semester IV,VI and VIII, the individual staff members were asked to identify the reasons for their failure as well as low score. Also they were asked to take remedial lectures for the needy students.

Looking at the results analysis, the above stated points were suggested to the staff members for further improvements in results.

Program Assessment Committee Members

- 1) Dr. Mrs. Shanta Sondur
- 2) Mrs. Smita Jangale
- 3) Mr. Manoj Sabnis
- 4) Mrs. Charusheela Nehete

VIVEKANAND EDUCATION SOCIETY'S

INSTITUTE OF TECHNOLOGY

Department of Humanities and Applied Sciences

Academic Year 21-22(July21-December 21)

The Department of Applied Sciences and Humanities teaches and promotes practical aspects of Applied Sciences and Humanities to build a solid foundation as part of the Engineering Education. It plays an instrumental role in the life of students aspiring to be engineers. This department nurtures the first year students and gradually they are initiated and introduced to the basic requirements of an engineer. The department equips them with both scholastic knowledge and practical experience. It is this integration that makes engineering critical to successful industrial innovation. The department has also introduced the Awakening the Scientist Program, where students integrate scientific principles with practically oriented research, which in turn, create ways of acquiring new knowledge in themselves.

CULTURAL REPORT (2020-2021 EVEN SEM)

SYMCA hosted Prarambh '20, the annual freshers gathering, to welcome the new batch of first-year students into the family. The entire event was streamed live online and featured a variety of performances from our talented juniors and seniors.

Prof. ShivkumarGoel Sir and DhanammaJagli Ma'am initiated the event with an inauguration and a diya lighting ceremony. Then came a series of talent hunt rounds, during which we saw some impressive performances from both first and second-year students. Singing, dancing, painting, and poetry – watching the artists of MCA show their hidden talents was a real treat.

The much-anticipated Mr. and Ms. Freshers selection rounds took place simultaneously with the talent hunt rounds. A brief introduction, talent round, a surprise dare event, and the final interview round were all part of the selection. Rittik Gupta and JagrutiLihare were crowned the winner of Mr. and Ms. Freshers.

Despite the pandemic and the restrictions that came with it, the virtual fresher's was a big success. All in all, it was a delightful event packed with positivity and enthusiasm. Seniors, juniors, and teachers, everyone contributed to making this a memorable event.
