## Disability Certificate

Issuing Medical Authority, Thane, Maharashtra

Certificate No.: MH2130620030017289 Date: 19/09/2018

This is to certify that I/We have carefully examined Shri Manav Vijesh Jawrani Son of Shri Vijesh Tekchand Jawrani  
Date of Birth 09/01/2003 Age 15 Year(s) Male-Registration No. 2721/00000/1812/0186907 resident of House No.  
Sudarshan Apartment Flat No 502, Bewas Chowk, Near Jhulelal Mandir - 421002 Sub District Ulhasnagar  
District Thane State / UTs Maharashtra  
Whose photograph is affixed above, and I/We satisfied that:

(A) He is a case of Locomotor Disability  
(B) The diagnosis in his case is **Bilateral Corrected CTEV**

(C) He has **46%**(in figure) **Forty Six** percent(in words) Permanent in relation to his (part of body) as per guidelines  
(to be specified).

The applicant have been submitted the following document(s) as proof of residence  
**Nature of Document(s):** Aadhaar card

  
Signature / Thumb impression of the Person With Disability

  
Signatory of notified Medical Authority Member

  
Issuing Medical Authority, Thane, Maharashtra

This Card/Certificate is meant to certify the disability of the person and is not an instrument for ID/Address Proof for any purpose.

### B. Activities for Advanced learners (Under Graduate students):

#### 1. Smart India Hackathon/Hackathons

Our Hon'ble Prime Minister, Shri Narendra Modi, envisages a Digital India to bridge the digital divide in our country and further promote digital literacy in order to make development a comprehensive mass movement and put governance within everyone's reach in India. In order to work towards our PM's vision, MHRD, All India Council for Technical Education (AICTE) organises the Smart India Hackathon every year.

**AY 2021-22**

#### Department of Computer Engineering

##### Internal Hackathon conducted by VRC Cell

51 software teams and 6 Hardware teams were registered. Total 26 teams from CMPN registered for the software category. The elimination Round was conducted by VESIT Renaissance Cell. **17 software teams from CMPN were shortlisted for the Internal Hackathon.** Internal Hackathon was conducted in offline mode on 19th March 2022 in VESIT Library from 8:30 am to 5:00 pm .

**6 final teams and 2 waiting teams were shortlisted from CMPN for SIH 2022.**

SR. No.	Team Name	Team Members	Problem Statement Title	Award/ Achievement
1	BetaVerse	Kunal Kotkar/D17B Sanket Jangale/D17B Tanvi Shetty/D17B Rohit Jadhav/D17B Siddhesh Bhare/D17B	Artificial Intelligence Based mobile application for the workers and website based admin tool for management.	Finalist

4	Vedant Vijay Patil	D4A	42	9270503309	2021.vedant.patil@ves.ac.in

Name of the Gadget / Equipment: <b>Earphones</b>
Principle of Operation: <b>Essentially earphones turn electrical energy into sound by using magnets to vibrate the air, which creates sound.</b>
Scientific Laws Applicable: <b>1) Ohm's acoustic law 2) Law of conservation of energy</b>
Engineering and Technological Aspects: <ul style="list-style-type: none"><li>• <b>Electroacoustic transducers, which convert an electrical signal to a corresponding sound, are used in earphones which let the user listen to an audio source privately.</b></li><li>• <b>Various components like Acoustic Drivers, Audio Jack [in case of wired earphones], Bluetooth Receivers and Batteries [in case of wireless earphones] and wires are assembled in a case to create a whole piece of one earphone. Those earphones are then made usable for normal public.</b></li></ul>
Future Trends: <ul style="list-style-type: none"><li>• <b>Improvement in the battery life of wireless earphones with improvement in batteries, for example: - Nano Diamond Batteries.</b></li><li>• <b>By enveloping the entire ear and removing wires or supports one can get the bubble of surround-sound providing user an awesome experience in various purposes.</b></li><li>• <b>By upcoming technology of Neuralink by Elon Musk one can stream music directly to your brain.</b></li><li>• <b>Embedded earphones or micro earphones in the smart glasses and VR headsets is the near future.</b></li></ul>
Domain: <b>Physics, BEE</b>

## Awakening The Scientist Report

AY 2021-22

An engineer needs to be observant on how basic science makes a difference in our day to day life. **Awakening the Scientist is such a platform provided to the First year students to express their innovative ideas.** It is organized by H&AS department in association with VESIT IIC and IQAC.

To make students aware of this opportunity, an inaugural speech was conducted by Prof. A Nagananda (Training and Placement officer, VESIT) for three days. The speech was for an hour in which Prof. A Nagananda explained the importance of idea pitching and application of discoveries and inventions in the basic science domain. He also explained rapid changes in technology and related the past, present, and future of few technologies. Not only he made students aware of the importance of having sound technical knowledge in this competitive world but also on the art of working in a group with an attitude of sharing and caring.

First year students make groups, and each group identifies the basic engineering and technology used in the gadget and tools used in everyday life. This year, 14 groups with a total number of 54 students had registered for this event. The enrolled students were asked to submit a one page synopsis which includes name of the gadget or equipment, principle of operation, scientific laws applicable, engineering and technological aspects, future trends and domain. A special seminar was conducted by Prof.A.Nagananda on 'How to make PPT' which would focus on Do's and Don'ts while making and presenting PPT.

Elimination round was conducted for all the groups enrolled and 6 groups were selected for the final round. Final round was conducted on 7 th May 2022. Each group was given 10 minutes time for presenting their gadget in both the rounds followed by a 5 minutes question and answer session. Total 3 positions were announced from 6 groups along with 2 best speakers and 2 most promising speakers. Students were given participation and winning certificates.

### Enrolled Groups:

S.No.	Group Leader	Topic
1	Mohit Kailas Patil	Earphone
2	Sai Nilesh Thihekar	Contact lens

## 3. Automation Industries Association (ETRX, INST & EXTC)

**AY 2021-22**

**Event description:** Industry proctored project under B&R Industrial Automation Pvt. Ltd.

B&R Industrial Automation Pvt. Ltd, Pune, Maharashtra offered industry collaborated training and project mentorship to final and pre-final year students. Participants were trained on various methods of PLC programming and HMI development. Program development for various applications in process control, motion control, factory automation, etc was taught to participants. Different methods of programming such as ladder, structured text, block diagram, etc were covered in detail. B&R Automation Studio 4.7 is used for program development and simulation. Automation Studio software supports OPC UA (Open Platform Communications - Unified Architecture). Several simulations were also demonstrated in iPhysics and ACOPOStack.

OpenAutomation Challenge 2021 (OAC '21) was organized by B&R Industrial Automation Pvt. Ltd in October 2021. OAC'21 was open to all colleges. Around 100 teams participated in the competition. Only 20 teams were shortlisted. Two teams participated from VESIT. Team 1: PLC based AGRIVOLTICS and Team 2: Automated Ev Parking. Team 1 was eliminated in preliminary elimination rounds. No certificate was awarded to Team 1. Team 2 qualified elimination rounds. Participated in the competition. Team 2 is awarded a Participation Certificate. Sample participation certificate of the shortlisted team is "B&R OAC '21 - Participation Certificate - Manish Patil.jpg".

### Broad areas of training and project mentorship:

1. Machine Centric Robotics (MCR) + OPC-UA
2. Digital Twin + OPC-UA

Date: 13<sup>th</sup> Sep to 23<sup>rd</sup> Sep, 2021. From 11 AM to 4 PM

Duration: 2 weeks. Course certificate awarded for 30 days

Number of students participants: 47 (23 BE, 24 TE)

Number of faculty participants: 5

### Industry trainer/mentor

### **Event description:** Hands-on training in Automation Workshop

Focus of the workshop is to develop the skills and expertise required in factory automation and motion control systems. Learning would be imparted through a problem-based learning (PBL) approach to develop automation thinking and solution development for projects with both digital and analog I/O's. Interfacing devices to PLC, PLC program development, developing HMI interfaces and introduction to Drives would be covered in the workshop. The course would be conducted jointly by VESIT faculties and industry expert involved in development, installation, commissioning and training of factory automation and motion control systems. Course certificate would be awarded to students on successful completion of course and development of an automation system for a real world problem.

### Development software's:

1. Automation Studio, B&R Automation
2. Totally Integrated Automation (TIA) Portal, Siemens

Duration: 4<sup>th</sup> to 7<sup>th</sup> April 2022, 9 AM to 6 PM.

Number of students participants: 15

Number of faculty participants: 1

# Vivekanand Education Society's

Any other remarks/suggestions?

14 responses

it was a fun session, didn't get bored at all!

nope, it was a fine session

The session was good, but I think it was a bit fast. Nevertheless, I understood the basics of git and Github and some commands like clone, init, merge etc. Overall, it was excellent.

Thank you for the session

Loved the way they explained 🍌

Was great man

Gg

well organised

Really insightful session! Kudos to Vishesh, Vaidehi and the entire Codecell team for this session.

## Report (AY 2021-22)

## CODECELL TINKER'S FROM COMPUTER DEPARTMENT, VESIT

### Flutter WorkShop

In Association with

VESIT - IIC (Institute Innovation Council)

&

VESIT - IQAC (Institute Quality Assurance Cell)

On the first day, we covered a number of concepts regarding Flutter and Android Studio to get started into Android App Development. It is essential to know what we are working towards to perform the best so Day 1 saw our Instructor Mr. Paras Patil showcasing the end goal of the workshop and then proceeded to cover basic terms and concepts in Flutter, project creation, and explanation of project file structure.

At the start, a PPT was shown explaining What, Why, and How of flutter, that is, an introduction to flutter, its benefits, and features. Flutter, unlike its competitors like React, doesn't require any JS bridge and its language Dart is universal. This gives flutter an immense advantage in cross-platform development. After this explanation, a few reference sites for

# Vivekanand Education Society's Institute of Technology

(Affiliated to University of Mumbai, Approved by AICTE & Recognized by Govt. of Maharashtra)

getting flutter packages and documentation were explained. Now, the project was finally started. The creation process was explained and then, he went on to explain some basic components like Containers, Scaffolds, etc. A number of graphical and input-related widgets were explained with examples as an application was built from scratch. Finally, the session ended with a doubt session.

The next and the final day began with Paras giving a PPT introduction to Firebase service similar to that of the prior day. This involved discussion about Firebase User Authentication and Cloud Firestore Database along with its benefits. The steps to create a Firebase project were explained and firebase packages were added to the flutter project. Then, the session was divided into two parts - User Authentication and Data handling. He went on to explain the code for User authentication which followed the sign-up and login process. After finishing the authentication, he demonstrated adding a user and then went on to create a custom data model and explained its creation and update in real-time.

## **SUMMARY:**

In the final part of our workshops, we had Paras Patil conduct a three-day workshop on the new hugely popular framework for creating mobile applications from 8th July to 11 July 2021. The basics of Flutter and concepts behind the mobile framework were discussed on the first day along with Dart, the language which powers the Flutter Framework. Basics of installation and setting up your phone as a debugging tool were demonstrated. For the second day, an introduction to Firebase and setting it up for Flutter was demonstrated. This included getting an idea about what is firebase & creating a project in firebase for our flutter app. We also discussed Firebase User Authentication including login and sign-up flow using Email and Password along with error handling for the same and finally, Cloud Firestore was used in creating & updating custom data using Firestore and displaying it in our app.

Welcome to Logic Design and Computer Organization Virtual Lab

The Virtual Laboratory is an interactive environment for creating and conducting simulated experiments: a playground for experimentation. It consists of domain-dependent simulation programs, experimental units called objects that encompass data files, tools that operate on the objects.

The Objective is to Expose the students to the various key aspects of Digital Logic and Computer Organization by enabling them to perform FPGA based prototyping of experiments with support of a virtual environment. The primary need for virtualisation here is multifold.

1. Digital Logic and Computer Organization are core courses in most of the Undergraduate Curricula of the entire Electrical Sciences Discipline(Computer Science / Engg., Electronics, Electrical) etc.
2. Many colleges/institutes cannot procure sufficient number of FPGA boards for their students.
3. Even when such FPGA boards are available, making them available round the clock is difficult.
4. Expert help is required to effectively use these FPGA boards and such help can be easily channeled through a virtual environment.
5. Helps to standardize the set of Experiments to a large extent.

### 9. Looking Beyond Syllabus (LBS)

#### LBS VESIT ANNUAL REPORT 2021-22

LBS stands for "Looking Beyond Syllabus" Activity. This event is a college level competition with the purpose of motivating students to come up with new project ideas, which can be converted into real time applications or products. Through LBS, VESIT offers an opportunity to the students to contribute to the society by providing innovative and efficient solutions for today's needs of the citizens.

The competition in collaboration with IIC began by inviting entries on September 23rd, 2021 from our II and III year students of BE and I year MCA students for LBS CHAMPIONSHIP 2021-22 where they were asked to propose a solution in the form of an app or a product benefiting the Society. Registration form was open for students till 20th Oct 2021.

Online mentor registration form was sent in which interested faculty can apply for mentoring the projects according to their area of interest. 29 faculty from various departments registered for the same.

First review presentation of the project was held online on 22nd October 2021. The LBS team comprising of Dr (Mrs) T. Rajani Mangala, Mrs. Priya R. L, Mrs. Anuradha Jadiya, Mrs. Gauri Sahoo, Mrs. Kadambari Sharma, Mrs. Ruchi Rautela, Mrs. Jayashree Hajgude and Mr. Ajinkya Valanjoo, scrutinized the project proposals. Proposals were examined based on the relevance and validation of the problem & solution, feasibility of the solution and applicability of the solution. The result of LBS Championship 2021-22 Round - 1 were declared on Nov 15, 2021.

Themes for LBS projects were:

1. Online education
2. Virtual Lab creation
3. Green innovations in technology
4. Healthcare
5. Data science for society
6. Artificial Intelligence
7. Robotic Process Automation
8. Machine learning

**Looking Beyond Syllabus Team**

**Announcing LBS Competition 2021-22**  
(An effort to enhance knowledge)  
(Stage-I: Selection round)

The objective of LBS is to encourage students to exhibit various innovative theme-based projects on emerging technologies, develop interaction of the students with the faculty members, enhance team building ability, to provide competitive environment in students to exhibit their project making skills and motivate the students to come up with innovative solutions for the problems based on themes. These themes are derived from the sustainable goals.  
After receiving very good response from the students and the faculty for around last 10 years, we are back again with a bang. We have received enormous student entries for this academic year too.

**We present our 1<sup>st</sup> round of selection on 22<sup>nd</sup> October 2021.**

## Final round project presentation

Three best projects were declared as winners. The projects were judged based on the feedback received by the judges and the number of likes that each project gets. The result was calculated based on 70% of judges' feedback + 30% of the number of views obtained by each project.

The following teams won the LBS Championship 2021-22.

### 1st Position : Project Title - AI in Agriculture

Mentor: Mr. Ameya Parkar (Assistant Professor, MCA)

Team: (AI & DS, SE)

Prasad Jawale

Priyanshu Singh

Deepak Prasad

Tejas Patne

### 2nd Position: Project Title - Smart Pill Dispenser

Mentor: Mr. Shobhit Khandare (Assistant Professor, EXTC)

Team: (EXTC, TE)

Aishvarya Mahadeo Birambole

Risa Samanta,

Saakshi Karkera

### 3rd Position: Project Title - GistGator (MoM)

Mentor: Ruchi Rautela (Assistant Professor, MCA)

Team: (CMPN, TE)

Shubham Zope

J N Guru Akaash

Nihar Kenny

The screenshot shows the IEEE Xplore interface for a paper titled "Detection of Lung Carcinoma using Volumetric Convolution (V-Net)". The paper is published by IEEE and is available in PDF format. The authors listed are Gresha Bhatia, Shreeja Nanda, Shreyas Udupa, Manoj Ayyappan, and Riteshsingh Kadakoli. The abstract discusses the use of deep learning-based models for lung nodule detection and classification. The interface also includes navigation options like "Browse", "My Settings", and "Help", along with a search bar and a "Sign Out" button.

**Abstract:** Emotion Mapping based Music Recommendation System is to provide users with suggestions that match their emotions and to assist them accordingly. The image is first captured and then converted to an emoji, and future analysis is done through the emoji's face. Analyzing a user's emotional facial expressions can help them understand the subject's current emotional or mental state. Music is an area that is likely to change a person's mood. It is well known that people use facial expressions to express what they want to say and the meaning of words more clearly. By developing an emotion mapping system, users can determine their mental state, and if they are unwell, they can change their mood by listening to pop-up messages containing songs. User's facial features are captured with the help of a webcam. By combining the user's photographs and emotion, the appropriate analysis is

### 11. Skill Enhancement Lecture (SEL)

All round development, a desire to expand one's horizons, and a commitment to excellence is inculcated in the students of VESIT in a disciplined environment ensuring a strong foundation. To achieve this institute arranges expert lectures Skill Enhancement Lectures (SEL) from industry/ institute.

Skill Enhancement Lectures (SEL) are arranged by the Subject Teachers for their respective subject during the Semester. Each Subject Teacher must arrange at least two such sessions (i.e, Lectures, Workshops etc...) per Semester that pertains to Content Beyond Syllabus. Each individual Faculty initiates the process of inviting Experts from Industry / renowned Institutes like BARC, TIFR, IIT, CDAC etc.

After each such session, the Subject Teacher fully documents the event and evaluates the Student Feedback.

**AY 2021-22**

#### Department of Computer Engineering

1. An expert session on “Let Us Design User Experience “ was conducted by Mrs. Geetha Shivram, Mr. Varun Mevada, Mr. Ravi kuty, Mr. Pascal Interaction Designer, Ultimatrix User Experience CoE, Tata Consultancy Services on 18th April 2022 (Monday) for final year students for the subject Human Machine Interactions.
2. An expert session on “OS Architecture , Operating System Applications & cloud, VM, Hypervisor, Containers, Kubernetes, Producer-Consumer Problem & Implementation” was conducted by Mr. Mohan Pawar, Senior DevOps Engineer at Cimpres India on 26th March 2022 for second year students for the subject “Operating System”.
3. An expert session on “Technology Frontiers and High Energy Physics” was conducted by Prof. Shashikant Dugad, TIFR , Mumbai on 8th April 2022 for third year students for the subject “Artificial Intelligence”

### 12. E-yantra/Project competition

E-Yantra Innovation Challenge (formerly known as EYantra Ideas Competition) is a competition to encourage innovative projects from robotics labs set up through the e-Yantra Lab Setup Initiative (eLSI) in colleges across the world.

India's biggest Project Based Learning robotics competitions- the E Yantra Robotics (EYRC) hosted by e-Yantra. Provides a platform to encourage innovative projects from robotics labs set up through the e-yantra Lab Setup Initiative(eLSI).

Also students are motivated to participate in different project competitions.

## 15. Language Lab Activities for Advanced Learners (VESLit)

VESLit Circle, an extension of the language lab, started out some years back with the intention of enhancing literary creativity and to foster a love for language. Under the guidance of their staff incharges, the newly constituted council of 2018-19, with a lot of enthusiasm and energy, marched on with these agendas in mind. Lots of activities are conducted for advanced learners under this VESLit circle.

## 16. QuestIT

**AY 2021-22**

### Department of Information Technology

A new students council was introduced in the year 2021, for the Students and by the Students of the **IT Department - QuestIT Cell**. QuestIT Cell is a technical cell with the goal to provide a platform for programmers, developers, and students of VESIT to learn, compete and have fun through various Technical and Non-Technical Events. The main aim of the QuestIT Cell is to help students and make them aware of the necessary things to cope up with the pace of the industry and be well prepared for the challenges that come with it. QuestIT aims to achieve it by conducting seminars, workshops, etc. on the topics students demand the most and help them be a master at that topic.

Sample-Poster

# Vivekanand Education Society's Institute of Technology

(Affiliated to University of Mumbai, Approved by AICTE & Recognized by Govt. of Maharashtra)

**Sample-Certificate**

## MISSION

The QuestIT Cell was formed with a mission to provide a growth-friendly environment to all the students by offering different opportunities to learn and contribute to work at the industry level as professionals that will help them achieve their career goals.

## VISION

The QuestIT Cell is responsible for providing different opportunities to students to learn about the latest technologies in IT by conducting workshops, technical events, and talks, in turn creating leaders and trendsetters of the industry.

## OBJECTIVES

1. To guide the students in understanding different technical skill-sets that are necessary for them to work in the industry.
2. To help the students cope up with the industry pace and prepare them beforehand.

To provide the students a platform for different competitions and challenges.

## 17. Gate Preparation Course

**AY 2021-22**

### Department of Computer Engineering

Department of Computer Engineering - VESIT, under the guidance of VESIT - IQAC and in association with Advanced Training Cell conducted the GATE preparation course 21-22 to guide the students to appear in the GATE -2022 examination.

### Participants Attending GATE Preparation Course

#### Speakers

- Mr. Richard Joseph(Assistant Professor)
- Mrs. Yugchaya Dhote(Assistant Professor)
- Mrs. Veena Trivedi(Assistant Professor)
- Mrs. Purna Solanke(Assistant Professor)
- Mr. Satish Ranbhise(Assistant Professor)
- Mrs. Manisha Mathur(Assistant Professor)

#### Faculty Coordinator

Mr. Richard Joseph(Assistant Professor)

**Event Start Date:** 1st February, 2022

**Event End Date:** 4th February, 2022

**Venue:** Google Meet Platform

**Time :** 9:00 AM to 10:30 AM & 4:00 pm to 5:00 pm

**1. Mentoring Session:**

**AY 2021-22**

**Department of Electronics Engineering**

**Mentoring meeting record sheet**

Date: 05/10/2021

**Name of Mentor:** - Mr.Yogesh Pandit

**Agenda of the Meeting:** -

- (1) To discuss the progress in academics for this ongoing odd semester.
- (2) To guide the students about the placement activity.
- (3) To discuss about project related updates.

**Suggestions:** -

- (1) Students are advised to remain attentative during online teaching and also to contact to their concern subject teachers if they face any issues to understand any topic/concept.
- (2) They are encouraged to start prepare for the placement related activities and also take guidance from their senior students.
- (3) Related to the project work, students were encouraged to explore more on application base projects and try to finish their work within stipulated time and also encouraged them to publish a paper in good journal.

During the online meet following students were present,

**Name of students:-**

### 5. Project Group formation

**AY 2021-22**

#### Department of Information Technology

##### BE Project Group Formation

The group formation for BE Project (Semester 7 and Semester 8) is initiated at the end of Semester 6. The students are given a choice to form their project group and select project group members. Along with this choice, the students also submit their area of interest and their CGPA.

The groups are formed taking into consideration their choice and CGPA (such a manner that the average CGPA of all the groups are the same) by a panel of senior faculty members. The mentors are also allocated to the group depending on the area of interest provided by the students and area of interest and expertise of the faculty members.

The group formation is announced to the students and faculty members by the end of

Semester 6. The groups are asked to coordinate with the mentor to decide and collaborate about the projects.

##### SE/TE Mini-Project Group Formation

The group formation for SE/TE Project (Semester 3 to Semester 6) is initiated at the start of each semester. The students are given a choice to form their project group and select project group members. Along with this choice, the students also submit their topic/problem domain. The groups are formed taking into consideration their choice by a panel of senior faculty members.

The mentors are also allocated to the group depending on the domain provided by the students and expertise of the faculty members.

The group formation is announced to the students and faculty members by the third week of the start of each Semester. The groups are asked to coordinate with the mentor to decide and collaborate about the projects.
