Solar Lights Installation at Ambiste Khurd

As foreseen by Mahatma Gandhiji in his seminal work, 'Hind Swaraj', the western developmental paradigm, based on centralized technologies and urbanization, has given rise to serious problems like increasing inequity and climate change due to rapid ecological degradation. To ameliorate these problems, it is necessary to promote development of rural areas in tune with Gandhian vision of self-sufficient 'village republics', based on local resources and using decentralized, eco-friendly technologies so that the basic needs of food, clothing, shelter, sanitation, health care, energy, livelihood, transportation, and education are locally met. This should be the vision of holistic development of villages.

There are huge developmental disconnects between the rural and urban sectors such as inequity in health, education, incomes and basic amenities as well as employment opportunities - all causing great discontent and large-scale migration to urban areas. So far, professional higher education institutions have largely been contributing under **Unnat Bhārat Abhiyān (UBA)** directly to the development of the rural sector which is a much needed and highly challenging initiative in this direction.

VESIT UBA team and the **SoRT council** along with faculties from **V.E.S.I.T** has organized a solar panel installation program on **20 April 2022 at 11:30 am**, at **Ambiste Khurd** Dist. Palghar, Maharashtra, under **Unnat Bharat Abhiyan** for installation of **11 solar panels**. **Unnat Bharat Abhiyan** is inspired by the vision of transformational change in rural development processes by leveraging knowledge institutions to help build the architecture of an Inclusive India.

The students were accompanied by **Mr. Debdulal Roy** who guided the students in the installation process. **Dr. Sushil Dhuldhhar** has given guidance to school students about UBA. The SoRT team even spoke to the villagers of Ambiste about their issues with electricity and how the solar street lights would be a big help to them.

The list of students and faculties is as follows -

Name	Department/Division	Designation
1. Mrs. Manisha Joshi	EXTC	UBA Coordinator
2. Dr. Gresha Bhatia	CMPN	Faculty Coordinator
3. Mrs. Indu Dokare	CMPN	Faculty Coordinator
4. Dr. Sushil Dhuldhhar	H & AS	Faculty Coordinator
5. Rakshita Danee	D15A	SoRT Secretary
6. Venkatesh Reddy	D15A	Senior Deputy SoRT Secretary
7. Gunjan Sureka	D14A	Senior Deputy SoRT Secretary
8. Sahil Deshmukh	D12A	Senior Deputy SoRT Secretary

The second phase of this day was installation of solar panels which was done by the SoRT team members with the guidance of the coordinators. In all, **11 solar panels** were installed. The solar installer ensured that all equipment were installed correctly and oriented and tilted in such a way to maximize the daily and seasonal solar energy received and produced by your system.

Universal Human Values Report 21-22

The new education policy has come with great clarity on the expectations from education and its outcomes. It states that “education is fundamental for achieving full human potential, developing an equitable and just society, and promoting national development”. That means the graduates coming out of our educational institutions must have the commitment and competence to work on and realize the aspirations articulated in NEP 2020.

It has been observed that students are diligently working to get good grades but yet struggle to gain employment. It's really essential that along with theoretical knowledge prescribed in their curriculum the students should also learn and inculcate the ability to manage stress, solve problems, and understand the business/corporate environment and good values which make them successful and happy in true sense. In today's cut throat competition it's even more essential to know oneself and the things which bring real happiness in one's life. One has to adapt to different roles and work in different environments. With this pressure to cope, it is very vital that students are taught the importance of empathy and Universal Human Values which make them not only good professionals but also responsible human beings and citizens.

VESIT firmly believes in inculcating and nurturing good values in its students. With this objective in mind the college is conducting sessions/activities on Universal Human Values mandatorily for first year students from the last two years as a part of their induction program. A sincere effort was being made by the assiduous faculty to bring a change in students' perception and to inculcate and polish the Universal Human Values in students like

Empathy, compassion, kindness, patience, tolerance and forgiveness. The main emphasis was on reinforcing basic Universal Human Values as without ethics and values no matter what one achieves it will not give any real happiness and contentment. UHV helps the students to explore themselves and experience the joy of learning, prepares them to stand up against peer pressure and make decisions with courage, be aware of relationships and sensitivity towards others and experience the feeling of prosperity.

But since the program was exclusively in the induction program for the first year students only the college took the initiative to form a **Universal Human Values Club** in college so that these values can be polished and reinforced in the students of higher semester, the faculty and non-teaching staff as well. With this objective in mind under the honorable guidance of Principal and Vice-Principal Madam the foundation of this club was laid in November 2020. All the professors of the college were motivated to attend the UHV FDP conducted by AICTE. Along with it an action plan was made to conduct various activities under this club.

Workshop on “Understanding Human Being and Human Aspirations”

18 September and 25 September 2021

3.00 - 5.00 p.m.

Speaker: Dr. Shiv Kumar Goel

Coordinators: Dr. Pooja Kundu

Ms. Kajal Jewani

We at VESIT firmly believe in the importance of Universal Human Values for both the staff members and students of our college and the need to move from a skill biased education to a holistic education perspective.

The college believes in the overall growth of our staff members so that they can transform into not only skilled but also ethical professionals human beings. The college has established its UHV Club in 2020 according to the norms of AICTE. The objective of the club is to ensure that faculty members have a genuine interest in understanding the concept of UHV and are well versed, well trained in UHV curriculum in order to impart it to the students. We aim to achieve this by promoting the faculty members to participate in AICTE organized FDPs and arranging workshops and seminars in college.

With this objective in mind the UHV Club members organized their first workshop for staff members on 18 and 25 September 2021 from 3.00 - 5 p.m. The speaker of the workshop was Dr. Shiv Kumar Goel . He commenced the workshop by highlighting the importance of values as values form the basis for all our thoughts, behaviors and actions. He also reinforced and restated the universality of various human values as only then one can have a definite and common program for value education. The process of self-exploration was explained to the faculty members and a lot of thought provoking questions were asked about their natural acceptance, inner harmony, tranquility and fulfillment followed by discussion for further clarity on these concepts.

The methodology of self-realization is adopted by pinpointing the current scenario where generally everyone is trying to achieve happiness and prosperity by maximizing accumulation and consumption of physical facilities. Some relatable relevant examples were explained in detail to make their understanding better. The repercussions of leading such a life is self-defeating. As neither one can achieve continuous happiness through sensory interactions nor prosperity, as it amounts to trying to fulfil unlimited wants through limited resources.

Since the workshop design was exploratory in nature and presented only in form of proposals all the participants actively participated without any inhibitions. Dr. Shiv Kumar Goel was able to clear all their doubts, apprehensions and confusions related to the proposals.

4. The accreditation status awarded to the programs as indicated in the above table does not imply that the accreditation has been granted to **Vivekanand Education Society's Institute of Technology, Hashu Advani Memorial Complex, Collector's Colony, R. C. Marg, Chembur, Mumbai – 400074, Maharashtra** as a whole. As such the Institution should nowhere along with its name including on its letter head etc. write that it is accredited by NBA because it is program accreditation and not Institution accreditation. If such an instance comes to NBA's notice, this will be viewed seriously. Complete name of the program(s) accredited, level of program(s) and the period of validity of accreditation, as well as the Academic Year from which the accreditation is effective should be mentioned unambiguously whenever and wherever it is required to indicate the status of accreditation by NBA.

5. The accreditation status of the above programs is subject to change on periodic review, if needed by the NBA. It is desired that the relevant information in respect of accredited programs as indicated in the table in paragraph 2, appears on the website and information bulletin of the Institute.
6. The accreditation status awarded to the programs as indicated in table in paragraph 2 above is subject to maintenance of the current standards during the period of accreditation. If there are any changes in the status (major changes of faculty strength, organizational structure etc.), the same are required to be communicated to the NBA, with an appropriate explanatory note.
7. A copy each of Report of the Visiting Team in respect of the above programs is enclosed.

Yours faithfully,

(Dr. Anil Kumar Nassa)
