

Vivekanand Education Society's Institute of Technology

(Affiliated to University of Mumbai, Approved by AICTE & Recognized by Govt. of Maharashtra)

Criteria 2.3: Teaching-Learning Process

2.3.1 Student centric methods, such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences.

INDEX

Sr.No.	List of Activities	Page No.
	Declaration for Additional Documents	1
1	Experiential Learning	
1.1	Workshop	2
1.2	Industry/Institute Internship	32
1.3	Tinkerer's Lab activity	63
1.4	Skill Enhancement Lecture	72
1.5	Industrial Visit	80
2	Participative Learning	
2.1	Paper Publications	90
2.2	Looking Beyond Syllabus	109
2.3	Industry/Institute Interaction	112
2.4	Awakening the Scientist	118
3	Problem Solving Learning	
3.1	Technical Event- Praxis	122
3.2	Technology Day	126
3.3	Project Competitions	148

Experiential Learning

Workshops attended by students

The workshop attended by students proved to be a transformative experience, fostering a dynamic and engaging learning environment. Through a carefully curated blend of theoretical discussions and hands-on activities, students are able to apply classroom knowledge to real-world scenarios. Interactive sessions and practical exercises not only honed technical skills but also nurtured critical thinking and problem-solving abilities. The workshop's experiential approach allowed students to understand complex concepts, providing a tangible understanding through real-world applications. Beyond individual growth, the collaborative nature of the workshop promoted teamwork and effective communication—vital skills for professional success. The opportunity to work on projects and interact with industry professionals added a practical dimension to the learning journey, offering valuable insights and networking opportunities.

During the academic year 2022-23, our students have participated in various workshops like Hands on FPGA, Verilog & Cadence, Industrial internet of things 4.0, React Bootcamp, Gitway, 8051 Embedded C workshop, UI/UX workshop, Tableau Workshop, Hands-on CyberSecurity Essentials Workshop, Web Designing and Development, NextJS Workshop, Robotics Workshop, Twitter Clone Workshop, Cloud Computing Workshop etc.

Internship

Internships serve as a pivotal element in a student's educational journey, contributing significantly to their personal and professional development, providing invaluable hands-on experience and a bridge between theoretical knowledge and practical application. Students engage in internships to gain real-world insights into their chosen fields, allowing them to apply classroom teachings to actual workplace scenarios. These experiences often lead to a deeper understanding of industry dynamics, professional expectations, and the day-to-day challenges faced by practitioners. During internships, students have the opportunity to work alongside professionals, absorbing industry best practices and learning from mentors who share their wealth of practical knowledge. This exposure not only enhances their technical skills but also cultivates essential soft skills such as communication, teamwork, and problem-solving. Internships serve as a platform for students to showcase their capabilities, creativity, and adaptability in a professional setting.

Furthermore, internships provide students with a glimpse into the corporate culture, helping them assess their compatibility with different work environments. This first hand exposure aids in refining career aspirations and making informed decisions about future career paths. Internships can also serve as a networking opportunity, allowing students to build relationships with professionals in their field and potentially opening doors for future employment opportunities.

In the academic year 2022-23, out students have done their internships in various industries like, Rinex, JM Financial services, Siemens Ltd, IMA-PG, The Sparks Foundation, Morgan Stanley, TCR Innovation, Trivia software, Yoshops, DeepCytes, Codeclause, Pixolo, Abbott Healthcare Pvt Ltd, B.E.S.T, Bhabha Atomic Research Centre, Cortexai Inventions Llp, Equalifi Academy, L&T defence, NPCIL, TIFR, Erifden Technologies pvt. Ltd, Intrainz, Trivia Softwares, Bolt, Power Cubby, Reliance, TEJ Control Systems Pvt. Ltd etc.

CODECELL TINKER'S FROM COMPUTER DEPARTMENT, VESIT

React Bootcamp Report

In Association with

VESIT - IIC (Institute Innovation Council)

&

VESIT - IQAC (Institute Quality Assurance Cell)

“The hallmark of successful people is that there are always stretching themselves to learn new things.”

The quote by Carol S. Dweck spoke volumes this August (1,2,3,4,8,10,17,22,23) when students from VESIT decided to attend a workshop regarding React by Codecell. The offline event that covered a plethora of topics was held from 3 PM to 5 PM for the students to improve their skill set.

Vivekanand Education Society's Institute of Technology

(Affiliated to University of Mumbai, Approved by AICTE & Recognized by Govt. of Maharashtra)

The speakers for the event were:

- Pranav Ubharande of D12A
- Japneet Rjput of D12C

The event started off with Pranav Ubharande explaining what is react. He further explained the installation process of react. Students were intrigued by this new and amazing framework which is composable, reusable and one of the most efficient frontend development frameworks. He further explained java script and jsx.

The next few days there was hands on coding and simultaneous interaction with the students. Topics such as Functional and Class Components, Props, States, Conditional rendering, List rendering, List keys(index antipattern), css insertion, Life-cycle Methods were covered.

The second half of this session was taken by Japneet Rajput who explained the concept of hooks in React (useState, useEffect, useContext, useReducer, useCallback, useMemo etc.)

The session was concluded with students who were thorough with the concepts of React and were able to do self learning projects of their own.

Qualitative Feedback about the event:

Amazing Session!!!!

I Learned a lot...Thank You so much !!!☐.

Looking forward to many such sessions.

Very informative session.Enjoyed a lot.

List and brief description of activities carried out during this period including photographs with captions -

1. “Prototyping with Arduino Workshop” -

Tinkerer's Lab, EXTC Department in Association with VESIT - Institution's Innovation Council (IIC) and VESIT - Internal Quality Assurance Cell (IQAC) organized a workshop on "**Prototyping with Arduino**" starting from 28/07/2022 to 30/07/2023 (28th to 30th January, 2023) at 3:00 PM to 5:00 PM - on 28th and 29th July, and from 10:00 AM onwards on 30th of July. With over 87 participants, a design thinking training program was hosted by Student Coordinator Riya Gorade, Senior Organising Member at Tinkerer's Lab EXTC-VESIT and Faculty Coordinator of EXTC department Mr. Mrugendra M Vasmatkar, Assistant Prof. EXTC, VESIT. The eminent speakers of this training program were the Senior Technical Members of Tinkerer's Lab, EXTC-VESIT - Atharv Petkar, Alrich Xavier Dsouza, Shantanu Deshmukh, Atharva Nayak and Aditi Bombe. The goal of this session was to introduce attendees to the Arduino board, as well as its programming on Arduino IDE, simulation on TinkerCAD and interfacing with sensors such as ultrasonic, IR and LDR. The 3-day workshop was meant to educate participants with a fundamental understanding of the Arduino Board, as well as the application of that knowledge in their Mini-projects.

Vivekanand Education Society's Institute of Technology

(Affiliated to University of Mumbai, Approved by AICTE & Recognized by Govt. of Maharashtra)

“Prototyping with Arduino Workshop” -

Tinkerer's Lab, EXTC Department in Association with VESIT - Institution's Innovation Council (IIC) and VESIT - Internal Quality Assurance Cell (IQAC) organized a 2 day workshop on “**PCB Designing**”. Day 1 - 17/09/2022 from 1:00 PM to 4:00 PM, offline mode and Day 2 - 25/09/2022 from 3:00 PM to 5:00 PM, online mode. With over 56 participants, an interactive designing workshop was hosted by Student Coordinator Riya Gorade, Senior Organising Member at Tinkerer's Lab EXTC-VESIT and Faculty Coordinator of EXTC department Mr. Mrugendra M Vasmatkar, Assistant Prof. EXTC, VESIT. The main speaker during the offline session was Mr. Gopalakrishnan N Assistant. Prof and Faculty Advisor of ISA-VESIT. The speakers during the online session were the Jr. Technical and Organizing members of Tinkerer's Lab, EXTC-VESIT - Ashish Nair and Vrushabh Karavade. The goal of this workshop was to introduce attendees to the EAGLE software and design PCB schematic on the software. The workshop was meant to educate the students with the knowledge of developing their own PCB boards which was to be used by them in their Mini Project. In this 2-day workshop students developed an expertise of using the EAGLE software that is very important while designing a PCB.

“Short Term Training Program (STTP) on FPGA” -

Tinkerer's Lab, EXTC Department in Association with CoreEL Technologies (I) PVT LTD, Bangalore, VESIT - Institution's Innovation Council (IIC), VESIT - Internal Quality Assurance Cell (IQAC) and VESIT - International Society of Automation (ISA) organized a Short Term Training Program (STTP) on "**Trends in FPGA - Design & Prototyping using VERILOG**" starting from 02/07/2023 to 07/01/2023 (2nd to 7th January, 2023) at 10:00 AM to 4:00 PM - Daily for a week. With over 50 participants, a design thinking training program was hosted by Student Coordinator Riya Gorade, Senior Organizing Member at Tinkerer's Lab EXTC-VESIT and Faculty Coordinator of EXTC department Dr. Nandini Ammangi, Assistant Prof. EXTC, VESIT and Mr. Mrugendra M. Vasmatkar, Assistant Prof. EXTC, VESIT.

The eminent speaker of this training program were Mr. Prakash Ganesh, Lead Application Engineer at CoreEL Technologies, Pune; Mr. Sharan A, Application Engineer at CoreEL Technologies, Bengaluru; Mr. Mrugendra M. Vasmatkar, Assistant Prof. & Faculty Advisor Tinkerer's Lab, EXTC-VESIT; Mr. Gopalakrishnan N, Assistant Prof. & Faculty Advisor ISA-VESIT and Mr. Sagar Mhatre, Assistant Professor, KJSIEIT.

Skill Enhancement Lecture

Department of Electronics and Telecommunication engineering

CLASS – D19A, B (BE EXTC)

RESOURCE PERSON AND AFFILIATION – Mr Vikas Singh, NESAs Radiation Solutions Pvt. Ltd.

SUBJECT: Mobile Communication

DATE: 16th Sept 2022

Time: 3.30 pm to 5.00 pm

Venue: Smart Classroom 5th Floor (B52)

TOPIC: Radiation Hazards and remedies

NESA stands for Non-Ionizing Electromagnetic Shielding Alternatives. Its core expertise is in the field of Electromagnetic Radiation Measurement (emitted from mobile towers) and Radiation Shielding Solutions. Electromagnetic radiation comes from all the electrical and electronic appliances, FM and TV towers, mobile phones & mobile phones towers, Wi-Fi routers etc. There is growing concern about harmful hazards of mobile phones & mobile phones towers' radiation as there are more than 900 million mobile phones users and more than 7 lakh cell towers in India. Large numbers of these towers are near residential buildings, schools, hospitals, and office complexes.

People living in the vicinity of these towers are exposed to high radiation continuously. They have reported various health problems like sleep disturbance, headache, concentration problem, memory loss, joint pain, miscarriage, cardiovascular problems and even Cancer. NESA specializes in carrying out radiation measurement emanating from cellular towers.

RESOURCE PERSON AND AFFILIATION: Mr. Aditya Krishnan, Digital Strategist & Consultant, Accenture

SUBJECT: Big Data Analytics

TOPIC: Search Engine Optimization and Algorithms

DATE: 15th Sept 2022

TIME: 10.30 am to 12.30 pm

VENUE: B42

About the speaker : Aditya Krishnan is a Digital Strategist & Consultant with 12+ years of experience across different sectors and practices at a global level. He has led and managed consulting / digital / marcom operations based engagements ranging from setting up digital platforms, project delivery , building future ready tech ecosystems , designing marketing strategies to leading conversion optimization, analytics and digital transformation projects He has also developed advanced technology products, applications and solutions at scale by leading large teams. An active contributor and participant in the Webmasters , SEO , digital marketing, analytics professional groups/forums including trends on cyber security. He has authored several publications on various topics across portals and shares his views regularly on latest trends in the digital /technology and marketing space . He is also invited as a guest speaker by leading B-schools and in industry events . As a social initiative he has started a knowledge platform 'Insights From Aditya' on LinkedIn to share latest insights and perspectives on various digital, technology and marketing topics with an aim to spread knowledge and raise awareness . In addition to it he is also a reputed author , poet and an avid researcher.

Coordinator

Dr. Anjali Yeole

Speakers profile:

Dr. Ameet Joshi is a renowned expert in the area of Machine Learning and Artificial Intelligence. He received his PhD from Michigan State University in 2006. He has over 15 years of experience in developing machine learning algorithms in various different industrial settings including Oil & Gas, Home Energy, Microsoft Cortana Intelligence and Business Intelligence in CRM. He is currently AI Product Manager at Microsoft. Previously, he has worked as Machine Learning Specialist at Belkin International and a Director of Research at

Microline Technology Corp. He is a member of several technical committees, has published in numerous conference and journal publications and contributed to edited books. He recently published a single author book on the topic with prestigious Springer Nature. He also has two patents and have received several industry awards including and Senior Membership of IEEE (which only 8% of members achieve).

Industrial Visits/ Field trips

An industrial visit serves as an invaluable educational experience, offering students a real-world glimpse into the functioning of various industries. These visits bridge the gap between theoretical classroom knowledge and practical applications in the professional realm. During an industrial visit, students have the opportunity to witness manufacturing processes, observe the use of advanced technologies, and gain insights into the organizational structure of a company. The hands-on exposure allows them to connect theoretical concepts with their real-world applications, enhancing their understanding and providing context to their academic studies. Additionally, industrial visits foster a sense of curiosity and enthusiasm among students, inspiring them to explore potential career paths and industries. This experiential learning opportunity not only enhances their academic journey but also equips them with a practical perspective that can significantly contribute to their future professional endeavors.

In year 2022-23, various industrial visits are organized by the departments, TIFR Campus, Colaba, Mumbai, R K Control Instruments Pvt Ltd, Thane, Kellogg India Pvt Ltd, Talaja IMA-PG India Pvt Ltd, Ghansoli, CETTM MTNL, Powai , Tata Communications Limited , Pune

Department of Computer Engineering

Name of Department	Department Of Computer Engineering
Name Of The Project	CMS detector Quality Assurance using ML methods
Date of IV	3rd July 2023
Name and address of Industry	TIFR Campus, Colaba, Mumbai
Class Visited	Final year
Number of students visited	4 Students- CMPN
Number of staff visited	02
Profile of Industry (in short)	TIFR is a National Centre of the Government of India, under the umbrella of the Department of Atomic Energy, as well as a deemed University awarding degrees for master's and doctoral programs.
Objective of Visit	<ol style="list-style-type: none"> 1. To get exposure to the real workstations and systems. 2. To meet the senior functional experts/supervisors to explain about company functions. 3. To understand the end-to-end process at different levels. 4. To have a one-to-one interaction with the Mentor 5. To understand the company policies in terms of production, quality, and service management. 6. To Make Students Aware with Industry Practices. 7. To Increase Practical Awareness of various Industrial Sectors.
Outcome of Visit	<ol style="list-style-type: none"> 1. Students are able to gain Practical Knowledge. 2. Students are exposed to a real working environment. 3. The gap between theoretical learning and practical exposure is bridged by industrial visits. 4. Students get a platform to enhance their interpersonal skills. 5. Students get to see the best practices opted by different companies for similar work.

Industrial Visits/ Field trips

Department of Electronics and Telecommunication Engineering

1. Industrial Visit to CETTM MTNL, Powai on 14/09/2022

The Department of Electronics and Telecommunication Engineering of Vivekanand Education Society's Institute of Technology organized an Industrial visit to the Center for Excellence in Telecom Technology and Management (CETTM) MTNL, Powai, dated **14th September , 2022**

Mr. Sudanshu Mishra guided the students through the wireless communication lab. Here, students were made familiar with the interconnectivity of mobile devices with BTS, BSC, and MSC. He also talked about how radio waves are generated and transmitted along with the working of radio antennas and how their size has decreased throughout history.

Industrial Visit to Tata Communications Limited , Pune on 03/02/2023

Department of Electronics and Telecommunication Engineering of Vivekanand Education Society's Institute of Technology organized an Industrial visit to **Tata Communications Limited, Dighi, Pune**, on **3rd February, 2023**.

Mr. Amitesh Ghatak, General Manager at Tata Communications, the resource person for the day, also gave a note about all the facilities, infrastructure and workplace environment at TCL, Pune office. This was followed by a presentation further detailing the sketch of the framework of working of the company, the structure of the company, and protocols in place for automating, monitoring and certain other processes.

Abstract—In the CMS experiment at CERN, Geneva, a large number of HGAL sensor modules are fabricated in advanced laboratories around the world. Each sensor module contains about 700 checkpoints for visual inspection thus making it almost impossible to carry out such inspection manually. As artificial intelligence is more and more widely used in manufacturing, traditional detection technologies are gradually being intelligent. In order to more accurately evaluate the checkpoints, we propose to use deep learning-based object detection techniques to detect manufacturing defects in testing large numbers of modules automatically.

Index Terms—Automated visual inspection, CMS, Object Detection, CMM, Yolov4-tiny, VGG16.

I. INTRODUCTION

CERN's Large Hadron Collider (LHC)[1] is the most powerful and largest particle accelerator. It accelerates protons to nearly the speed of light in clockwise and anti-clockwise directions. It collides them at four different locations situated around its ring. It was designed to explore the miscellaneous

Fig. 1: Sensor Board

When comparing manual and automatic visual inspection (AVI) [2,3], AVI saves time for human inspectors. Manual inspection is time-consuming and expensive process which

Abstract

The process of finding data points, observations, or occurrences that differ from typical behaviour is known as anomaly detection. Time-series data analysis would aid in identifying the root cause of various trends or patterns that have emerged throughout time. This is crucial since the subsequent value in time-series data is dependent on the prior value's input. Currently, we are detecting anomalies in time-series data with Facebook Prophet, an open-source library for forecasting in R or Python. Prophet is a method for forecasting time series data based on an additive model in which nonlinear trends are fitted with annual, weekly, and daily seasonality, as well as holiday impacts. To find anomalies, this study utilizes the Real Ad Exchange dataset, which displays online advertisement click-through rates, where the metrics

Enhancing Air and Missile Defense System with IoT Solution: A Conceptual Approach

Priya Chaurasiya¹, Saara Sawardekar², Ruchi Rautela³
Vivekananda Education Society Institute Of Technology

Abstract: The Internet of Things (IoT) concept, technology, and military applications are presented in this paper. The authors argue that when implemented as a system solution, IoT may increase the capability of the entire system after providing a brief review of cases of partial deployment of the technology in air and missile defense (AMD) systems. The air and missile defense system has been analytically divided into four subsystems, and using a conceptual approach, each of them has been examined in terms of how it might be strengthened by the adoption of IoT solutions and how those latter might translate into the improvement of the entire AMD system. The paper divides the air and missile defense system into four subsystems and analyzes each of them conceptually to ascertain how IoT solutions can strengthen them and how this can translate into improving the entire AMD system. The IoT can streamline procedures in a variety of industries, resulting in better IoT device performance.

Keywords: Internet of Things (IoT), Military, Air and missile defence (AMD) systems, Sensors, air safety, Data

Looking Beyond Syllabus (LBS)

A.Y. 2022-23

Report

VESIT's Best Practice – Looking Beyond Syllabus – is an intra-collegiate year-long technical project competition to encourage, nourish and enrich our students of SE, TE, BE, and FE students of MCA with the boundaries of emerging technology domains relevant to them every year. Each year we witness a footfall of about 3500 students visiting the project competition. This activity is strategically designed in terms of planning, implementation and continuous improvement by mapping of problem statements with United Nations Sustainable Development Goals.

The aim is to expose the students to emerging technologies and opportunities to work as teams on multidisciplinary projects under the mentorship of a faculty member assigned to them. This year we organized a two-day hardware and software hackathon- LBS I2I COMPETITION 2022-23 on the 13th and 14th of March 2023 in our premises.

The **LBS I2I COMPETITION 2022-23-** is committed to encouraging creativity, diversity, and networking among aspiring programmers. We will host young engineers for a demanding 24-hour event during which they will create projects on the hardware and software tracks. This hackathon attempts to establish a friendly and encouraging environment where everyone can learn, develop, and invent.

Rubrics for Evaluation:

- Direct relevance to the core problem/addressing the core problem to the society;
- Uniqueness of the proposed solution;
- Ease of implementation (e.g. feasibility of implementation of the idea within 6 months).
- Communication and presentation skills.

Result of the competition was declared on 16th March 2023 and the winning teams were felicitated at the annual prize distribution ceremony of the college on 17th **March, 2023**.

Industry / Institute Interaction

1. Automation Industries Association (ETRX, INST & EXTC)

AY 2022-23

Event description: Workshop on Robotics and Automation systems, Organized by VESIT-AIA CDC, Dept of Automation and Robotics, Supported by Hempronics Systems Pvt. Ltd & B&R Industrial Automation Pvt. Ltd, In association with Advanced Training Cell (ATC)

Workshop exposed students to building blocks in Robotics and Automation. Workshop covered sensors, pneumatic components/systems, Programmable Logic Controllers, Drives, Actuators, etc used in Robotics and Automation. Theoretical lectures and practical hands on sessions were conducted to infuse inclusive knowledge of development and deployment system. This 54 hour add on course gives more weightage to hands on training on the various kits specially developed in collaboration with industries such as Pepperl+Fuchs, Festo, B&R Automation, Rockwell Automation, Siemens, among others. Hands on session are conducted by experts working with System Integrators and OEMs.

Joint certificate by VESIT-AIA CDC and Hempronics Systems Pvt. Ltd are awarded to students on successful completion of workshop and satisfactory performance in end of workshop test.

Development software's:

1. Automation Studio, B&R Automation
2. Totally Integrated Automation (TIA) Portal, Siemens

Duration: 12th to 21st Dec 2022, 9 AM to 5.30 PM.

Number of students participants: 4

Event description: Supporting students for OpenAutomation Challenge 2023 (OAC 2023) organized by B&R Industrial Automation.

Duration: Jan and Feb 2023

Event Timeline

- Registration Start 16th January 2023
- Registration Closes 27th January 2023
- Shortlisted team announcement 30th January 2023
- Online Training 31st Jan to 7th Feb 2023 (laptop is required with team)
- OpenAutomation Challenge 8th Feb to 15th Feb 2023
- Travel to Pune* 16th Feb 2023
- Project Presentation and Results 17th Feb 2023 (In Pune*)

Following two teams participated in OAC 2023,

1. Team 1: Digital Twin for Automated Solar Grid Management
2. Team 2: Automated Electric Vehicles Maintenance Platform

Team 1 was eliminated in preliminary elimination rounds. No certificate was awarded to Team 2 qualified elimination rounds. Was trained on Automation Studio & Robotic Studio. Developed prototype and presented their project in final Project Presentation. Team 2 has been awarded a Training Certificate and Participation Certificate. Sample Training Certificate and Participation Certificate of the shortlisted team is “B&R OAC'23 - Training Certificate – Vinayak Rasal.jpg” and “B&R OAC'23 - Participating Certificate – Vinayak Rasal.jpg”.

Certificate of Completion

This is to certify that the following students of the Department of Computer Engineering from Vivekanand Education Society's Institute of Technology, Chembur, have worked on the Final year project on "Physical Object Identification in CMS Experiment using ML Approaches", mentored by **Dr. Sharmila Sengupta** and **Prof. Sumita Sahu** under my guidance at TIFR.

1. Mayur Jaisinghani	2. Chirag Lundwani
3. Orijeeet Mukherjee	4. Necharika Nagori

The students worked on electron energy prediction using GNN using a complex dataset extracted from the ROOT software. Final package was found to be performing as per expectation by our group and has been successfully deployed at TIFR. My best wishes for their bright career and hope they keep performing well.

Best Regards,

 Dr. Shashikant R. Dugad,
 Professor, Department of High energy Physics,

Awakening The Scientists (ATS)

AY 2022-23

In order to become a professional and remain competitive in this highly commercial world one has to master the art of working in groups and teams along with sound knowledge of the field. Having a good balance of team work along with technical knowledge cannot be developed overnight and requires an attitude of sharing and caring.

The rapid changes in the technology is due to the application of discoveries and inventions in the basic science domain. We need to be observant as to how basic science makes a difference in our day to day life.

Awakening the Scientist is an opportunity given to the First year students to take the first step in this transformation of a student to a professional. First year students make groups and each group identifies the basic engineering and technology used in equipment, gadgets and tools used in day to day life. The group will have to relate to the past, present and future of the technology used. Because of covid restrictions, the mode of conduction was online this year. This year, 19 groups with total number of students as approximately 66 had registered for this event during 2022-23. The groups then gave a ten-minute presentation on the same. There was an elimination round from which 8 groups were selected for finals.

Judges in Elimination Round:

Dr. Anisha K, Dr. Dinesh Shinde, Dr. Srimantha, Dr. Pradnya P, Dr. Payel B, Mrs. Kusum K

Judges in Final Round: Dr. Sunil Kishanchandani, Dr. Nadir C, Mr. Nagananda A

Coordinators:

- 1] Ms.Ramya Tirumalasetti
- 2] Mr. Mahesh Singh
- 3] Mr. vijay shejwalkar

Technical Event

Praxis 23

Introduction

VESIT Renaissance Cell (VRC) in association with VESIT IIC and IQAC had organized the technical festival of VESIT, Praxis '22. Praxis was held on 3rd March 2023 and 4th March 2023, with the Pre-Praxis events conducted from 2nd March 2023 and post Praxis events conducted from 5th March 2023 till 9th March 2023. All Technical Societies within VESIT viz. IEEE-VESIT, ISTE-VESIT, CSI-VESIT and ISA-VESIT and E-cell had organized one Pre-Praxis event and one Praxis event. VRC had organized two Pre-Praxis events and one Praxis event. In all there were 18 technical events with 1350+ students participating in it.

Schedule

PRAXIS'23 DAY-01 March 03			
Council	Time	Event Name	Venue
VRC	9:00 onwards	ROBOTICS	SATELLITE END
IEEE	9:00 onwards	MONEY HEIST	AMPHITHEATRE
VRC	10:00 TO 14:00	HARDWARE HACK	4TH FLOOR
VRC	10:30 TO 12:30	DEBATE	AUDITORIUM
CSI	13:00 onwards	AMAZING RACE	VIVEKANAND STATUE
E-CELL	FULL DAY	VESIT VALLEY	2ND AND GROUND FLOOR

PRAXIS'23 DAY-02 March 04			
Council	Time	Event Name	Venue
VRC and E-CELL	08:00 ONWARDS	VESIT HACKS	LIBRARY
VRC	09:00 ONWARDS	ROBOTICS	2ND FLOOR
ISA	09:00 TO 12:30	SCAVENGE TO BUILD	1ST FLOOR
VRC	10:00 TO 12:30	BRAND RACE	B42
ISTE	13:00 TO 16:30	DALAL STREET	AMPHITHEATRE
VRC	12:30 TO 15:30	SKETCH THE THOUGHT	B32

Vivekanand Education Society's Institute of Technology

(Affiliated to University of Mumbai, Approved by AICTE & Recognized by Govt. of Maharashtra)

PRE-PRAXIS'23			
March 02			
Council	Time	Event Name	Venue
CSI	15:00 TO 17:00	SHERLOCK & WATSON	3RD FLOOR
ISTE	19:00 TO 20:30	TRADING & INVESTMENT WORKSHOP	ONLINE

POST-PRAXIS'23			
March 06			
Council	Time	Event Name	Venue
CSI	20:00 (04 MARCH) TO 2:00 (07 MARCH)	CODE KNIGHTS	ONLINE
ISTE	15:00 TO 17:00	CARRIBEAN ESCAPED	AMPHITHEATRE

POST-PRAXIS '23			
March 08			
Council	Time	Event Name	Venue
IEEE	13:00 onwards	VESIT TANK	AMPHITHEATRE
IEEE	15:00 TO 17:00	JUST JENG IT	AMPHITHEATRE

March 09			
Council	Time	Event Name	Venue
ISA	13:00 onwards	THE TECH-GAME QUADRANGLE	AMPHITHEATRE

Vivekanand Education Society's Institute of Technology

(Affiliated to University of Mumbai, Approved by AICTE & Recognized by Govt. of Maharashtra)

Following are the List of Projects with allotted Lab

HALL NO. 1- LAB 201

Sr. No	Group Number	Title of Project
1	G16A 4	Development of Mobile application for an efficient management of leftover food through Donation: An initiative to mitigate hunger.
2	G16B12	Smart Shopping Cart using RFID
3	G11-1	Life Saver
4	G11-2	Flower showering Drone (Quadcopter).
5	G11-3	Wall crack inspection Drone(Hexacopter)
6	G11-4	IoT Based Effective Helmet for Safe Drive

HALL NO. 2- LAB 202

Sr. No	Group Number	Title of Project
1	G16A2	Clustering and Localisation using WSN(Wireless Sensor Network)
2	G16A 5	Smart Energy Meter
3	G16A8	Blind Man Walking Stick
4	G16A 13	Wheely - The Smart Drive
5	G16B1	Industrial Biogas Plant Automation (IBPA)
6	G16B 6	IOT based Autonomous Integrated Scrap Collection System.
7	G16B 7	Aero Vision
8	G16B 11	Smart Healthmate

Vivekanand Education Society's Institute of Technology

(Affiliated to University of Mumbai, Approved by AICTE & Recognized by Govt. of Maharashtra)

HALL NO. 3- LAB 205

Sr. No	Group Number	Title of Project
1	G16A3	Cyclone Prediction using Deep Learning
2	G16A 6	Smart Classroom
3	G16A 9	Adaptive automation control using IoT and cloud Application
4	G16A 10	Smart shopping cart system
5	G16B3	Decentralized voting system using blockchain
6	G16B4	Opt-IN AI
7	G16B8	Coral reef monitoring
8	G16B12	The affordable Electric Vehicle

Technology day Department of Computer Engineering

Pradarshan'23

The Department of Computer Engineering celebrated Technology Day (20th March 2023) as Department Day. Following activities were conducted on Department Day.

Pradarshini' 23 :

The Department of Computer Engineering in association with VESIT- IIC & VESIT IQAC organized **Pradarshini' 23** on 20th March 2023. Pradarshini'23 is a platform and one of the Best practices and Distinctiveness (Peer to Peer Learning) of the Computer Engineering department in which the Second Year (SE), the Third year (TE) and the Final year (BE) students exhibit the project work. It helps to enhance the Presentation Skills of the students. While exhibition visitors visit each project desk, the feedback of visitors helps them to provide research insights and better innovative ideas. Exhibition aims for peer to peer learning. The projects are being presented by Final year and third year Students and visited by their seniors, batchmates and juniors. Hence it contributes to Inspiration, Motivation and learning for Peers.

Technology day Department of Information Technology A.Y. 2022-23

Technology Day “PROJECT EXHIBITION” was organized by the Department of Information Technology, on 20th March 2023 from 10:30 am onwards. Selected Best 12 BE project groups participation in this exhibition for Final Year IT class.

Major objective of organizing this exhibition was to provide the platform and unleash the potential of the students by showcasing their innovative projects developed in the Final Year either as Industry Defined Problem or User Defined Problem and provide an opportunity for the students to demonstrate their learning experience.

The outcome of the PROJECT EXHIBITION was that students were able to show their project at a higher level and the process boosted their confidence.

The inaugural of the project exhibition witnessed the presence of Mr. Harish Mehta (Founder and Executive Chairman of Onward Technologies Ltd, First elected Chairman of NASSCOM) and Mr. Vijay Talreja (VESIT Alumni, Senior Vice President - Apexon, Co-Founder & Director - Adapty, Co-Founder & Advisor - Bynocs, Member Board Of Trustees - VESIT, Lead Investor - Neev Angels) and Dr. Jayalakshmi Nair, principal, VESIT, along with the faculty and staff members of Department of IT, VESIT

The Groups that were selected for the Technology Day “Project Exhibition” were Judged by Nikhil, Tejas and Aarthi.

Technology Day

Vivekanand Education Society's Institute of Technology

(Affiliated to University of Mumbai, Approved by AICTE & Recognized by Govt. of Maharashtra)

Technology day Department of Artificial Intelligence and Data Science

The Department of Artificial Intelligence and Data Science celebrated Technology Day (21st March 2023) as Department Day. Following activities were conducted on Department Day.

The Department of Artificial Intelligence and Data Science in association with VESIT- IIC & VESIT IQAC organized Project Exhibition on 21st March 2023. The main purpose is to provide the opportunity to the students to showcase their creative ideas so that their creativity can be nurtured well. Project Exhibition is a platform and one of the Best practices and Distinctiveness (Peer to Peer Learning) of the Artificial Intelligence and Data Science department in which the Second Year (SE), the Third year (TE) and the Final year (BE) students exhibit the project work. It helps to enhance the Presentation Skills of the students. While exhibition visitors visit each project desk, the feedback of visitors helps them to provide research insights and better innovative ideas. Exhibition aims for peer to peer learning. The projects are being presented by Final year and third year Students and visited by their seniors, batchmates and juniors. Hence it contributes to Inspiration, Motivation and learning for Peers.

Smart India Hackathon/Hackathons

A Report

On

Grand Finale

“Smart India Hackathon 2022”

Prepared By

Dr. Rohini Temkar,

Assistant Professor, Department of Computer Engineering,

SPOC, SIH 2022.

Vivekanand Education Society's Institute of Technology

(Affiliated to University of Mumbai, Approved by AICTE & Recognized by Govt. of Maharashtra)

Grand Finale-Smart India Hackathon 2022

Smart India Hackathon (SIH) is a nationwide initiative by the Ministry of Education's Innovation Cell to provide students a platform to solve the pressing problems of the government, ministries, departments, industries and other organizations. SIH has been acclaimed as the world's biggest open innovation model and it inculcates the culture of product innovation and problem-solving among students. SIH is conducted every year since 2017 in two formats i.e. SIH Software and SIH Hardware Editions for higher education students. Smart India Hackathon 2022 software grand finale was scheduled from 25th August to 26th August 2022. Smart India hackathon has witnessed huge participation from Ministries, departments, PSUs, and private organizations in providing problem statements. SIH 2022 has offered 459 Software problem statements and 104 hardware problem statements.

Glorious Success of VESITians

It is a moment of pride that we have added on to the winning history of VESIT, that 4 out of 4 teams have won the Grand Finale of Smart India Hackathon 2022.

SIH 2022 GRAND FINALE WINNERS

Sr. No.	Team Name	Team Leader	Problem Statement Title	Ministry	Prize Amount
1	ByteCoders!	Aashish Nair (D17C CMPN)	Speech Emotion Recognition (SER) on live calls while creating events. (AT989)	Madhya Pradesh Police	1,00,000/-
2	Innovators_tech	Varun Bhat D19 EXTC	Enabling alternative accessible strategies for persons with speech impairment (RK759).	Department of Empowerment of Persons with Disabilities (Divyangjan), Ministry	1,00,000/-

Vivekanand Education Society's Institute of Technology

(Affiliated to University of Mumbai, Approved by AICTE & Recognized by Govt. of Maharashtra)

				of Social Justice and Empowerment.	
3	The Hex_Clan	Paras Patil D17B-CMPN	Gamification in Tourism to empower local businesses (Student Innovation - Travel & Tourism - SM952)	AICTE, MIC-Student Innovation	75,000/-
4	Tech It up	Aditi Singh D15	Tracking of supply chain and reverse logistics of products to reduce environmental impact.	International Council for Circular Economy (ICCE).	Silver Medal

Team Bytecoders!

1. Problem statement

Speech Emotion Recognition (SER) on live calls while creating events.
(AT989)

2. Ministry

Madhya Pradesh Police

3. Nodal center:

Techno International New Town, Kolkata, West Bengal

4. Team members:

- Aashish Nair (D17C CMPN)
- Mihir Pamnani (D17C CMPN)
- Jay Deshmukh (D17C CMPN)
- Akash Sonare (D17C CMPN)
- Mrunmayee Waingankar (D17C CMPN)
- Sneha Karthik (D17C CMPN)

Vivekanand Education Society's Institute of Technology

(Affiliated to University of Mumbai, Approved by AICTE & Recognized by Govt. of Maharashtra)

5. Mentor

Prof. Richard Joseph, Assistant Professor, Department of computer Engineering

6. Abstract of the project

The solution should analyze the caller's voice on live ongoing calls being attended by the caller in the Emergency Response System. After analyzing the voice of the caller, the solution should predict the emotional/ mental condition of the caller. The solution should predict/suggest the following about the caller Stressful Voice Drunk Voice Prank Voice Abusive Voice Painful Voice Or any mental condition.

7. Evaluation process

Mentoring Round 1: The judges familiarized us with the problem statements and had given us their expectations with respect to the problem statement. We were allowed to ask any questions regarding the same.

Evaluation Round 1: We showed the prototype of our solution to the judges and explained our solution for the given problem statement. Judges suggested that we should work on improving the performance of our ML model.

Mentoring Round 2: We showed the changes suggested in the previous round. In this round, we were suggested to work on detecting the noises in the surrounding that happen during live calls.

Evaluation Round 2: We completed the suggested work and along with that our web application was also ready. We showed our dashboard to the judges along with the improvements in the ML model and the noise detection module. In this round judges suggested working on presenting trend analysis on the dashboard.

Power Mentoring: This round was the extension of the previous round where judges evaluated our work on the previous suggestions.

Power Judging Round: This was the final round wherein we showed the live demo of our end-to-end solution with a live call and answered the queries presented by the Judges.
