Message from the Department

I hope this letter finds you and your family safe and healthy .

The Covid-19 pandemic has significantly affected our lives as the pandemic rages on. We are witnessing an unprecedented situation as the news about the remediation begins to gather steam amongst the uncertainties, I believe our day will come. I believe we all will emerge stronger when we come out on the other side of the COVID-19 pandemic. I greatly appreciate our students who have shown great sense of understanding as we take new approaches to learning and teaching and adjust to the new normal.

I am also immensely proud of our committed staff and the news letter team who continue to demonstrate their resilience and agility as we move on to new ways of working. We are working tirelessly to deal with challenges and to meet the requirements of our students and all stakeholders.

Please take best of care of yourself and family as the pandemic approaches its last stretch .Here's wishing you and family a safe , healthy , prosperous and happy new year .

Mrs. Abha Tewari

Our Vision

To reach international standard by empowering students with computing skills and cutting edge technology.

Our Mission

To sustain excellence in teaching and research and create center of excellence. To provide broad Educational and Research experiences through interdisciplinary and industrial collaboration programs. To prepare students to enter the world of computing and make them ready for productive employment in the public or private sectors, enhance their entrepreneurship skills and motivate them to pursue advanced degrees.

At the forefront of every technological breakthrough are giants like Amazon, Facebook, Google and Microsoft. It is the dream of every person in the IT sector to be at the core of the change that these firms bring. But how do you reach that top level? Well, what better way to find out than from people who have done it themselves.
