Dear Sir/Madam,

Congratulations to all the Participating Institutions (PIs) selected under Unnat Bharat Abhiyan, a flagship program of Ministry of Human Resource Development (MHRD) Government of India through a challenge mode application. The Mission of Unnat Bharat Abhiyan is to enable participating higher educational institutions to work with the people of rural India in identifying development challenges and evolving appropriate solutions for accelerating sustainable growth. It also aims to create a virtuous cycle between society and an inclusive academic system by providing knowledge and practices for emerging professions and to upgrade the capabilities of both the public and the private sectors in responding to the development needs of rural India.

As per the programme, educational institutions is primarily to develop linkage with selective rural clusters (preferably of five villages), to get involved in the planning process and to promote the requisite S&T interventions to improvise and expedite the developmental efforts in those clusters. The approach is a departure from the grant oriented method and would see the participation and commitment of faculty and students in this endeavour.

We shall be processing release of Rs. 10000/- per village under the UBA program. The funds are mainly meant for assistance for awareness, Gram Panchayat Development Plan (GPDP) study, need assessment, and contingency expenditure. There are provision of Rs 1.0 lakh for technological intervention/ solution and Rs 0.50/- lakh for customization of a technological solution under the program. Which you can avail of afterwards by submitting proposals with ratification of the Gramsabha. A two-way channel between PIs and National Coordinating Institute (NCI) as well as Subject Expert Groups (SEGs) for project proposal submission and evaluation has been developed and functional on UBA portal. You can use your login credential for uploading proposals on UBA website '**FINANCIAL AIDS**'. The login credentials are same as your registration login credentials.

You are also requested to keep IIT Delhi, the National Coordinating Institute updated about your activities so that the same can be uploaded on the website of UBA.

Regards and best wishes for your institution for contributing to India's development.

With regards

Your Sincerely, 
Prof. Virendra K Vijay
National Coordinator,
Unnat Bharat Abhiyan

Vivekanand Education Society's Institute of Technology

(Affiliated to University of Mumbai, Approved by AICTE & Recognised by Govt. of Maharashtra)

Dr. (Mrs.) J. M. Nair

M. Tech., Ph.D. (IIT-B)
Principal

Ref. No.: VESIT/jmn/3740/2018-2019

Date 26/04/2019

To,
District Collector
Thane, Maharashtra

Subject: Identification of villages under the UBA program.

Dear Sir,

Ministry of Human Resources Development (MHRD), Government of India has launched the national program called Unnat Bharat Abhiyan (UBA), with the vision to involve professional and higher educational institutions in the development process of rural areas in the country to achieve sustainable development and better quality of life. Indian Institute of Technology, Hauz Khas, New Delhi has been designated to be the National Coordinating Institute by the Ministry.

Our Institution **Vivekanand Education Society's Institute Of Technology** and AISHE code **C-33895** has agreed to participate in UBA as a Participating Institute (PI). **Mrs Manisha P. Joshi**, Electronics & Telecommunication Department, Vivekanand Education Society's Institute Of Technology, Hashu Advani Memorial Complex, Chembur, Mumbai-400074. (Mobile No.-8879287898, mail id - manisha.joshi@ves.ac.in) has been duly authorized in this regard from our side to carry on the activities of UBA in our organization as Project Coordinator.

Under the UBA program every Participating Institute is to adopt a cluster of five villages in consultation with the Districts Collector. This is to bring to your kind notice that we have proposed the following villages in the district Thane.

1. Ambiste Kh.
2. Amgaon
3. Aпти
4. Asnas
5. Gargaon

In view of the above the Project Coordinator may contact your officer for the purpose. We request you to please help and cooperate in the matter.

With regards,
Your Sincerely,

(Name and signature, Head of Institute)

PRINCIPAL,
VIVEKANAND EDUCATION SOCIETY'S
INSTITUTE OF TECHNOLOGY
HASHU ADVANI MEMORIAL COMPLEX,
COLLECTOR'S COLONY, CHEMBUR,
MUMBAI-400 074, INDIA.

Vivekanand Education Society's Institute of Technology
UNNAT BHARAT ABHIYAN

(VILLAGE DEVELOPMENT PLANS)

VESIT adopted a cluster of 5 villages namely as (1) Gargaon (2) Aпти, (3) Asnas, (4) Ambiste Kh. and (5) Amgaon in Wada Taluka, District Thane

Faculty Incharges:

Sr No	Name	Responsibilities
1	Mrs Manisha Joshi	Co-ordinator
2	Dr.Gresha Bhatia	Faculty Member
3	Mrs.Indu Dokare	Faculty Member
4	Dr.C.D.Rawat	Faculty Member
5	Dr.Saylee Gharge	Faculty Member
5	Dr.Manoj Sabnis	Faculty Member
6	Mr.Abhay Kshirsagar	Faculty Member
7	Mr.Yogesh Pandit	Faculty Member
8	Mr.Gopal Krishnan	Faculty Member
9	Mr.Kader Shaikh	Faculty Member
10	Dr.Shivkumar Goyal	Faculty Member
11	Dr.Pooja Kundu	Faculty Member
12	Dr.Sushil Dhuldhhar	Faculty Member

Faculty team:12

Student Team:40 students

Action plan

- UBA Cell or committee as per the interest (12 Faculties and 40 Students) is formed
- Team visited 5 villages with proper discussion with Village people.
- Awareness program is conducted about UBA in every village.
- Report on every visit is created and send to IIT Delhi.

- Team tried to find out feasible solution for every problem of village.
- Activities like plantation, cloth bags distribution are carried out.
- Workshop like women's health(sanitation) is conducted.
- During the village visit, the students spread awareness about harmful effect of plastic and hygiene and various other important parameters.

Visit to Gargaon Village

Visit to Apti village

Visit to Ambiste Kh.

Visit to Asnas

Visit to Aamgaon

Grant received:

Total grant received is of Rs.50,000 for survey of 5 villages.

A Proposal for

Surya Sakshamta: Pragati Ka Sulabh Marg

Title of the project: Surya Sakshamta: Pragati Ka Sulabh Marg

Village where it is to be implemented: Ambiste Kh, Tahsil- Vada, Dist- Palghar, Maharashtra, India

Brief description of the problem: Unnat Bharat Abhiyan is a flagship programme of the ministry of Human Resource Development, with the intention to enrich India. Under this scheme, **Vivekanand Education Society's Institute of Technology, Chembur, Mumbai**, has adapted a village named- **Ambiste Kh**, Tahsil- Vada, Dist- Palghar, Maharashtra. For developing a village, it is necessary to promote development of rural areas based on local resources and decentralized, eco-friendly technologies so that the village can fulfill its needs locally. In this village, a separate team was assigned to collect the data from every house in the village. During the village survey, it was identified that there's a need to improve lighting during night time, which is a reason for many issues. The Baseline Survey has identified that non-availability of street lights and insufficient power supply are the major issues in the adopted villages. Solar energy is a best suited renewable source of energy in this region because the average temperature of adopted villages will be ranging from 26 degrees Celsius to 40 degrees Celsius in a year. Solar energy is a major renewable energy source with the potential to meet many of the challenges facing the country. There are many reasons to promote its share in the energy market. This power source is increasing in popularity because it is versatile with many benefits to people and the environment. It was also identified that the village already had a few solar street lights, but those were not functioning properly. Hence, it was decided to facilitate the solar lights in certain areas of the village to improve the security of the villagers.

Need for customization: It is environmentally friendly, low heat and light pollution, long lifetime and low cost, consumes 10 times less energy than standard lighting systems, maintenance-free and it has a plug-and-play capability, zero carbon-dioxide emissions. It does not generate electromagnetic waves or interference signals and it does not contain heavy metal. The Government of India is focusing on utilization of renewable energy wherever possible especially in the villages to demonstrate the abundant availability of solar energy in India. It will be useful to power up a street lighting system through solar energy. The solar street lights have reduced the usage of fossil fuels and increased the use of new technology of renewable energy sources. The solar street light system has no pollution like other power generation plants and it is non - conventional system to less space and efficient electricity output. We will be able to convince the residents of the village to go for solar energy at their homes also. With this project we can showcase it to other villages for adoption.

Cost of the facility: Rs. 1,00,000

Solar street light with charger including pole :- $15000 \times 6 = 90000$

Transportation cost and ground digging cost around 10000/-

Solar street light details

Solar module of 100 watts (Waree or Vikram solar) :- 4000

Solar Battery 60 ah (Excide) :- 4000

15 watts led light – 1000 with down to dusk sensor

Pole 2 inches 20 feet height :- 4000 c class

Battery box :- 600

Charge controller – 1000 with mobile charging point

Other accessories – 400

Role of your institute: Survey regarding the usage of volts for street light overnight, Purchase of Solar Panels with necessary accessory for installation, selecting the most appropriate fixture location, installation of solar panel with the help of students. In addition, we will undertake installation of new lights wherever required.

Outcomes: The villagers who are not able to go to nearby areas due to fear of snakes and other animals during the night times due to the lack of street lights find the new installations very useful. It will be so useful to reduce crime rate and increase safety of the community. The projects will be implemented in this village to encourage the use of renewable energy for electrification to match with the vision of the Government of India.

Benefit to Village: The use of solar street light systems will remove many problems of the rural area like to reduce crime rate and increase safety of the community and also increase the community of people at workplace etc.

Future prospects of the work: Availability of round the year lighting at cheaper cost in the streets and public pathways of adopted villages and reduction in power bill and uninterrupted power supply to households. Additional solar lights will be installed and we will convince the residents of the village to go for solar energy at their homes and inform others also to use solar energy.

Solar Charging Points:

The solar charging points are proposed in the same project so that various devices can be charged outdoors and in an environmentally friendly way. This system

converts solar energy to electricity and stores it in a battery bank. A microcontroller prevents the batteries from being overcharged and prevents the system from being used when the batteries need charging. Some amount can be used for establishing solar charging points in the same village. This system can be used for - mobile charging, torch lights charging and other uses for Grampanchayat.

Availability of any other funding: No

Details of the funds raised from other agencies: NA

Duration of work: 3 Months

Serial no.	Title of the proposal	Status of the proposal	Comments from SEG/NCI	Clarification (only submit clarification when asked by SEG/NCI)	Revised Submission
