HashuAdvani Memorial Complex, Collector's colony,  
Chembur, Mumbai  
Maharashtra 400 074

Dear Madam,

I am happy to inform you that under the "Virtual Laboratory" project of Ministry of Education, Govt. of India, we are developing an online system for the analysis and tracking of student's performance while performing the laboratory experiments online. This is a unique exercise which will benefit students and faculty members who will be using this facility. Under this facility the requirement gathering, question bank creation, database design, tracking mechanism, and new form of assessment will be carried out.

Looking at the expertise of few Professors from your Institute in this area, and the profile of the faculty colleagues in Information Technology department, I request you to join my project team to take up this noble initiative. I am sure with inclusion of your team we will achieve the goal set in new education policy.

Please let me know your views on this and indicate us the modalities and names of the faculty from your Institute who are willing to participate in this project honorarily.

Thanking you, with regards.

  
Prof. S.D. Agashe

To: M Vijayalakshmi <m.vijayalakshmi@ves.ac.in>, Shanta Sondur <shanta.sondur@ves.ac.in>

Dear Dr. Vijayalaxmi,

I am in receipt of your letter in response to my request. The team under the leadership of Prof. Shanta Sondur and one faculty member is welcome to work on the project. The project will be carried out with following steps.

1. Project idea will be discussed
2. Requirement documents will be mutually finalised
3. Technology stack will be demonstrated
4. Actual working on phase 1 will commence, wherein students will create question bank based on the subject matter expert and interface with database
5. In second phase testing will be done using practice test. Further matrix-based question paper based on individual participants' performance (using AI and ML) will be completed
6. In third and last phase the randomisation of questions, load time for concurrent users, server requirements, and network issues will be addressed and resolved.

I am sure this entire journey of project development will enthuse students and give them opportunity to handle a live project. I am sure your faculty and students will fully contribute for the success of this project. Please feel free to contact me in case you have any query.

Thanking you, with regards.

To,  
Prof.  
Sudhir Agasha,  
Department  
of Instrumentation and Control Engineering,

**College  
of Engineering Pune,  
Shivajinagar,  
Pune - 411005.**

**Ref:**

Your request letter COEPYINSTRU/SDA/158 Dated: February 22, 2021 addressed to the Principal and Vice Principal, VESIT.

**Sub:**

Our willingness to join the **Virtual  
Laboratory Project** with the Department of Instrumentation  
and Control Engineering of COEP.

**Dear**

**Sir,**

**This**

is with reference to the above said subject and the point stated in the reference, first of all we would like to thank you for giving us an opportunity to work with you on the **Virtual Laboratory Project of the Ministry of Education, Govt. of India.**

**We**

are sharing below the list of the faculty members and students of the Second year and Third year of the Department of Information Technology. They will fully support the project and work towards all the modules of the project like requirement gathering, database design, question bank, tracking mechanism and new form of assessment as stated in the letter.

**We**

will highly appreciate it if we could acknowledge and reward their contribution in some form preferably by giving away the certificates at appropriate stages. We also would like to mention the said project under the title of "Collaborative project with COEP" officially. Kindly let us know your views on the same.

**We**

once again thank you and your organization for showing confidence in our faculty and students of the Department of Information Technology of our Institute to jointly work on the noble initiative. PFA the list the students and faculties below:

Faculty - Mentors			
1	Professor - Project Head at VESIT-IT	Dr. Shanta Sondur

## Virtual Laboratory Project (Of the Ministry of Education, Govt. of India)

**Title:** Online system for the analysis and tracking student's performance while performing the experiments online.

**Ref:** Your request letter COEP/INSTRU/SDA/158 Dated: February 22, 2021 addressed to the Principal and Vice Principal, VESIT.

**Collaboration with:** Department of Instrumentation and Control Engineering of COEP.

**Flow of the projects agreed mutually:**

1. Project idea will be discussed
2. Requirement documents will be mutually finalized
3. Technology stack will be demonstrated
4. Actual working on phase 1 will commence, wherein students will create question bank based on the subject matter expert and interface with database
5. In the second phase testing will be done using practice test. Further matrix-based question paper based on individual participants' performance (using AI and ML) will be completed
6. In the third and last phase the randomization of questions, load time for concurrent users, server requirements, and network issues will be addressed and resolved.

**Objectives:**

1. Requirement gathering
2. Question bank generation
3. Database design
4. Development of Tracking mechanism
5. Development of performance analysis module

**Activities done so far:**

1. Offered ongoing internship to the students of second and third year and is going on.
2. Offered internship to the students of third and final year students during summer break.
3. Plan to offer the same to AI and DS students as well.

## Vivekanand Education Society's Institute of Technology

### Current status

1. The project started in the academic year 2020-21 with a student group consisting of 25+ students from then Second year and Third year under the Project head Prof Shanta Sondur and Mrs. Charusheel Nehete faculty members of the IT department.
2. The entire team is divided into two groups. One group of students will work on a database generation module and the second group of students will work on development of Prototype.
3. The first group could complete the database generation for the module 0301- (030101, 030102), 0302 - (030201, 030202, 030203), 0303 and 0304 - (030401, 030402 out of 7) - @40 percent.
4. The second group, the current final year students, have started developing the Question paper generation, hand holding, navigation and Performance analysis.
5. The frontend will be provided by the COEP team, the work of development of an API between the backend and frontend is in progress. The requirements of the App is given by the COEP academic team.

Activity Name-Nayan- Narrator for the visually impaired

## Letter From National Association for the Blind, India

### NATIONAL ASSOCIATION FOR THE BLIND, INDIA

(Registered under Societies Registration Act, XXI of 1860 and Bombay Public Trusts Act, 1950)

#### DEPARTMENT OF EMPLOYMENT

President  
Mr. Hemant Takle

Honorary Secretary General  
Mr. Betya Kumar Singh

Hon. Secretary  
Mr. Suhas Karnik

May 15, 2021

Ref.:EMP-SVK/2021/078

Dr. Nupur Giri  
HOD - Computer Department  
Vivekanand Education Society's Institute of Technology  
Chembur  
Mumbai 400 074.

Dear Dr. Giri,

We at NAB, India are happy to collaborate with the students of your College along with Prof. Sharmila Sengupta, during the academic year 2020- 2021. During our discussions, to identify problems faced by the visually impaired, we have realized a need for a Software, like an Android Application to assist in the reading and learning process by narrating the images and the text present in the document to be read.

We have requested the team comprising of Prof. Sharmila Sengupta (Mentor), Mr. Saurav Ubarhande, Mr. Akash Magdum, Mr. Hritvik Pawar and Mr. Soham Phutane from your College to undertake the implementation of such a project. Any necessary modifications or updations required in future would be conveyed to them accordingly.

Your cooperation in this endeavour would be highly appreciated.

Regards,

Yours truly,

8/5/2021

SUHAS V. KARNIK  
HONORARY SECRETARY  
NAB, India

## Abstract

Worldwide there are millions of blind people and even more visually impaired people. Disability of optical text and image reading features a huge impact on the standard of life for visually disabled people. Although there are several devices designed for providing a helping hand to the visually disabled to work out objects using an alternating sense like sound and touch, the event of text reading and image narrating devices are still at a nascent stage. In the current scenario, systems involving image captioning or text recognition are generally limited either by explicitly hoping on color and shape identification or by requiring manual assistance or even thanks to the high cost. Therefore, a low-cost and effective system is presented that can be automatically mapped and helps to skim the text clearly yet explain images to visually impaired people. Our important objective is to acknowledge the text character and pictures present in books, novels, letters, etc. and explain the content in sequence through speech signals just like the human narration.

Nature of Collaboration-Project

Name of Collaborative Agency-Department of Psychiatry, Nair Hospital

Activity Name-AiDD-Assisting children and doctors

**DEPARTMENT OF PSYCHIATRY**  
**B.Y.L. NAIR CH. HOSPITAL & T. N. MEDICAL COLLEGE**  
Dr. A. L. Nair Road, Mumbai - 400 008.  
Tel. : 23081490-99 Ext. : 630 / 631

Date:16th April 2021

To whomsoever, it may concern

This is to certify that the following students:

- 1) Swarangi Dali (D12C/13)
- 2) Sakshi Haswani (D12C/25)
- 3) Etisha Mathurvaishya (D12C/39)
- 4) Dimple Nachnani (D12C/45)

of The Computer Engineering Department of VESIT have successfully implemented a project in collaboration with the Department of Psychiatry, B.Y.L Nair Ch. Hospital titled "AiDD: Assisting ADHD children and doctors app" using ML under the guidance of Prof. Sharmila Sengupta(VESIT), DR. Swati Shelke and Dr. Alka A. Subramanyam ( Nair Hospital).

The app has been designed keeping in mind needs of the said population. Further, this has been submitted to us so that we can explore the possibility of a research project using the same subject to Institutional Ethics Committee approval.

The above students designed and modified the AiDD app from scratch as per the inputs they received from our medical team.

  
16/04/2021  
Dr. Alka A. Subramanyam  
Associate professor

T.N.M.C. & B.Y.L Nair Ch. Hospital.  
Dr. A. L. Nair Rd., Mumbai Central  
Mumbai-400 008

## Abstract

Attention deficit hyperactivity disorder (ADHD) is one of the most common neurodevelopmental disorders which can be seen in children and adolescents. ADHD is a chronic condition with prominent symptoms and impairment which span into adulthood. Our application AiDD: Assisting ADHD children and doctors focuses on helping ADHD children through an interactive and fun environment. The app would contain many games which will help the children by testing and developing skills like attention span, pattern recognition, speed and various other cognitive skills. This app would target children of age 7-12 years. The parents/doctors will be able to monitor the child's performance through data analytics that would be performed during and after the games. Various factors like attention span and improvement in concentration would be considered to check the progress of the child through AI. Finally, a machine learning model is used to predict the level of ADHD in the child.

## VESIT LeadingIndia.AI Activities for the Academic Year 2020-21

As a new initiative in Academics and Research, VESIT has become one of the Zonal Lead Partners with LeadingIndia.AI, Nationwide Initiative. The mission of this initiative is to promote Deep Learning and AI skills mainstream in India, to fulfill the trilateral needs of entrepreneurship, Industry-academia partnership, and application-inspired Engineering Research. VESIT LeadingIndia AI Team is lead by Dr. (Mrs.) Vijayalakshmi Murli (Vice Principal, VESIT) along with Dr. (Mrs.) J. M Nair (Principal, VESIT), Dr. (Mrs.) Shalu Chopra (Head of IT Department), Mrs. Sangeeta Oswal (Assistant Professor, MCA Department), Mrs. Vidya Pujari (Assistant Professor, IT Department) and Mrs. Lifna C S (Assistant Professor, Computer Engineering Department). Under this association, various activities are being scheduled to Promote AI and Deep Learning Skills among Students and Faculties and to get them ready for the future.

During the Academic Year 2020-21 the following activities were conducted during the COVID'19 Lockdown :

1. Virtual Summer Internship Program for Students
2. Arranged Tech-Expert Talks as a part of VESIT Academia Industry Connect Program
3. Published 13 Student Blogs on VESIT AI Gyan Website

### 1. Virtual Summer Internship Program for Students

On behalf of VESIT - LeadingIndia.AI Team, 6 weeks - Virtual Summer Internship Program 2020 was offered by LeadingIndia.AI to students during the Lockdown period in the following topics in two slots (Slot 1: 11<sup>th</sup> May 2020 - 19<sup>th</sup> June 2020 & Slot 2: 1<sup>st</sup> June 2020 - 10<sup>th</sup> July 2020) :

1. Object Recognition and Detection
2. Natural Language Processing
3. Unusual Activity Detection
4. Cyber Fraud Detection
5. Real-time Video Processing
6. Reinforcement Learning
7. Drone Surveillance
8. Object Detection using Humanoid Robot NAO
9. Compression Techniques

## VESIT LeadingIndia.AI Activities for the Academic Year 2020-21

Around 33 students from all branches were selected and completed the Internships successfully. The names of some Research Projects executed are as follows:

1. Violent Individual Identification using Deep Learning
2. Pandemics! A Harsh Reality :(
3. Flu Shot Learning: Predict H1N1 And Seasonal Flu Vaccines
4. Recognizing Emotion From Speech Using Machine Learning And Deep Learning
5. IDTreeS Integrating Data Science With Trees And Remote Sensing
6. Parameters Optimization Of A Learning Model For Hyperspectral Image Classification
7. Convolution Neural Networks For Urban Sound Classification
8. Detection Of Epileptic Seizure Using Deep Learning Techniques.
9. Improved KNN Based Music Recommendation Engine
10. A Structured Filter Pruning Approach for Efficient Inference of Deep Neural Networks
11. Making Deep neural network's ready for Mobile/Edge devices
12. Identifying weeds using Image classification
13. DengAI: Disease Spread Prediction

### 2. Arranged Tech-Xpert Talks as a part of VESIT Academia Industry Connect Program

VESIT Renaissance Cell in association with VESIT - IQAC and VESIT - IIC organized "Tech-Xpert Talks : VESIT Academia Industry Connect Program", a National-Level Technical Talk Series in association with Industry partners of VESIT from 22nd July to 31st July 2020 for the Faculties, Industry Professionals, Research Scholars and Students of various Departments and Institutes. Sessions were arranged to provide insights into the Emerging Areas of Technology and their applications in diverse sectors by Industry experts from different VESIT academies. Being one of the Industry Partners, VESIT LeadingIndia.AI Academy Team arranged two Expert Talks. The Expert Talks was a Live event on Cisco Webex with 100+ Participants. The details are as follows :

1. "AI in action-The transformative applications of AI in real world" by Devesh Rajadhyax, Founder and CEO, Cerelabs Pvt. Ltd. on 26th July 2020 @ 4pm
2. "Let's on-board Data flight towards AI based Decisions" by Jatinder Kautish, Director – Data Science & AI, Capgemini India on 27th July 2020 @ 10am.

**VESIT Leading India AI Activities for the Academic Year 2020-21**

**3. Published 13 Student Blogs in VESIT AI Gyan Website**

Based on the Internships attended by students at various Industries and Startups, articles written by students were scrutinized and Top 13 were published in VESIT AI Gyan website - <https://vesitaigyan.ves.ac.in/>. The details of the Blog are as follows :

No	Title of Blog with Links to website	Authors
1	<a href="#">Violent Individual Identification using Deep Learning</a>	Advait Naik

REF. - Your letter/e-mail Ref. No.- VESIT/JMN/Inst.-05/37/2020-21. Dated 12/06/21

Dear Sir,

1. With reference to your letter/e-mail above, we would be happy to provide In-plant Training/Industrial Training/Internship facility to following 02 student/s from Deg. in Inst. Engg. on acceptance of the terms and conditions mentioned below for 21/06/21 to 20/07/21 (30 days) 6 days a week & timing is 8 am to 5 pm.  
(1) Mr. Adarsh B. Raut (2) Mr. Manish G. Patil

Terms and Conditions

2. Training Charges Rs.1200/- (inclusive 18 % GST) per student up to one month by Demand Draft drawn only in favour of R. C. F. Ltd, payable at SBI Thal-Vaishet or Alibag.
3. Student/s must comply with the rules, regulations, discipline and timings stipulated during the training period by the company.
4. No stipend will be paid to the student/s & no availability of accommodation in RCF Guest House/Township.
5. We will extend our help to get an accommodation @ Rs.100/- per day per student in Holiday Homes on 5 to 6 students in one room basis (if required).
6. Student/s will bear medical charges if they receive medical treatment during their period with us.
7. Student/s should bring In-plant training/Industrial Training requirements to facilitate learning.
8. Student/s should bring three (3) passport size photograph & his /her/ their college Identity Card, while coming for training for the temporary gate pass arrangement.
9. Student/s should wear safety shoes during training period and bring umbrella & water bottle.
10. No camera or mobile camera is allowed in the factory premises during training period.
11. Student/s must follow the Government norms applicable in the present situation.

The above terms and conditions should be conveyed to the respective student/s before coming for the training.

Thanking You

Yours Faithful  
  
(Charanendra M. Mhatre)

## **Abstract**

Research refers to creative work which is undertaken systematically, in order to increase the stock of knowledge of individuals, culture and society and further utilize this stock to devise new applications. In the broad sense, it covers gathering of any data, information and facts for the advancement of knowledge. Research should be the core area instrumental for interface between the academic and corporate world. But there are several basic problems which the Indian higher education system is facing at present. They include inadequate infrastructural facilities, faculty crunch, low enrolment ratio, over-crowded classrooms, widespread geographical income, gender and ethnic imbalances etc. Often there is lack of scientific knowledge and training in Research Methodology. Many of the researchers are incapable of carrying out sound empirical work, data is often inadequate and even when available not availed of. This project focuses on overcoming the above challenges. The main objective of this platform is to bridge the gap between scientists, researchers, users from National R & D laboratories, industries and Central Research Facilities across India. Researchers will be able to take services of this Research facility for booking specific instruments to take samples. The platform will help small educational institutions and industries to overcome their inability to procure and maintain sophisticated analytical instruments and also spread job awareness for researchers and students in the field of science.

**RECOMMENDATION LETTER  
TO WHOMSOEVER IT MAY CONCERN**

This is to recommend that **Mr. PRATHAMESH SUBRAO AHER** has gone under six months training in **L&T Automation Academy** under the course titled "Integrated Automation Training" for the period from **01<sup>st</sup> JUNE, 2019 to 06<sup>th</sup> DECEMBER, 2019.**

The "Integrated Automation Training" consisted of various topics on Industrial Automation like:

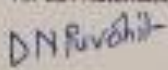

- a. AC-DC Drives
- b. PLC Hardware and software.
- c. SCADA.
- d. Instrumentation.
- e. Networking.
- f. Project Management.

**Mr. PRATHAMESH SUBRAO AHER** has performed extremely well during his six months training course in **L&T Automation Academy.**

During his tenure on site, **BAPC MUMBAI (SCADA UPGRADE FOR ELEVATOR, FIRE ALARM SYSTEM AND DG SETS)** for 4 Months as Commissioning & Development Engineer. He was responsible for following testing & commissioning activities -

- Testing & commissioning of Allen Bradley PLC 1000-LCS0-400WB
- Programming PLCs using Rockwell's Automation Connected Component Workbench Software.
- Third party equipment (Ravel FACP panel) interfacing with Allen Bradley PLCs using MODBUS Converter via Modbus Mapping & Tag Development.
- PLC Logic Development: Working with Data point and giving address to the Data point, creating new Data point, Importing and Exporting Data point.
- Input Output study and Panel Testing.
- Network configuration for MCKA I/O switches with PLCs.
- DG AMF Panels configuration with PLCs via Relay & Contactors.
- Co-ordinate with customer and punch point solving.
- Was responsible for Supervisory job for cable routing & tying.
- Co-coordinating with team for overall project commissioning, development and maintaining project database.

Date: 06<sup>th</sup> December, 2019.

### VESIT NPTEL LOCAL CHAPTER

NPTEL is the largest provider of MOOCs in India today, especially the Engineering stream, with a credible proctored certification exam that clearly qualifies and differentiates the learners who do these courses.

NPTEL ( <https://onlinecourses.nptel.ac.in> ) offers self-study free courses across various disciplines. Including well-designed evaluation system in the form of assignments on a regular interval and optionally a certified exam at the end of the course, with a nominal fee . The courses are offered by the faculty of IITs, CMI, IMSc, etc.

VESIT in partnership between NPTEL aims to provide this E Learning platform. VESIT has been approved as a NPTEL Local Chapter on September, 2018.

#### Benefits of NPTEL

1. Free online courses.
2. NPTEL website mentions college as a partner. Country-level awards for active participation and toppers.
3. Student can review and assess his own progress week after week and also get his doubts clarified mutually or by the faculty in charge or by mentors
4. Students can share progress and score with concerned faculty.
5. Can request for new courses.
6. Bulk payment of exam fee.
7. Avail Internship facility ( <https://nptel.ac.in/noc/internship/index.php> )
8. GATE preparations ( [https://nptel.ac.in/gate\\_paper.php](https://nptel.ac.in/gate_paper.php) )

To view VESIT as a Local Chapter visit [https://nptel.ac.in/LocalChapter/list\\_of\\_colleges.php](https://nptel.ac.in/LocalChapter/list_of_colleges.php).

## Abstract

Food consumed in daily diet consists of fruits, cereal grains and spices. Cereal grains are considered to be the most important part as it meets the nutrition needs of the human population. It is necessary to check the quality of food before consuming as it directly impacts on health. Rice is the most widely consumed staple food across the world. Individual kernel investigation is important for the quality analysis of a given sample. The manual technique for the same is time consuming and tedious approach. The results of manual analysis depend on the skill, attitude and vengeance of a quality inspector. An image processing technique provides a quick and easy means of investigating rice parameters. Amongst the various food analysis techniques this thesis focuses on the study of semi-automated, image processing and machine learning techniques with their advantages and limitations. This thesis presents the procedure for calculation of length, width and colour of rice kernels using image processing. The manifestation of proposed grain analyser set-up capable of analysing grain sample from all possible side is explained. The classification of seeds according to BIS, ARSO, CODEX and Cambodia standard is also illustrated in this thesis. A user friendly GUI is built in raspberry pi for easy determination of grade for given sample.

Event description: Visit to Bosch Centre of Excellence at NMIMS University

Visited, 'Bosch Centre of Excellence in Industrial Automation' in NMIMS Deemed to be University's Mukesh Patel School of Technology Management & Engineering (MPSTME), Vile Parle, Mumbai.

Date: 26<sup>th</sup> July 2018

Duration: Full day

List of visiting staff members

1. Mr. Kader Shaikh
2. Mrs. Kadambari Sharma
3. Mr. Vijay Shejwalkar
4. Mr. Ajinkya Valanjoo

Event description: Visit to IMA-PG India Private Limited

IMA-PG India Private Limited is engaged in assembling, sales and service of packing units used in pharmaceutical industry. Visit, <http://www.imapg.com>, for details about company.

Guest lectures and hands-on sessions could be arranged with experts from IMA-PG India Private Limited. Company is also willing to offer industrial visit, internship and placement for VESIT-AIA students.

Date: 20<sup>th</sup> October 2018

Duration: 2 to 6 PM

List of visiting staff members

1. Mr. Kader Shaikh
2. Mr. Prasad Godse
3. Mr. Abhijit Shete

Company has donated following components/systems to college

## **ABSTRACT of the project**

Pregnancy and the expectation of the birth of the child bring joy to the entire families. Not only the parents to be, but the grandparents and siblings of the expectant couple all wish to share the joy of this miraculous event. The thought of soon having a toddler in the family is a wondrous thing. Above all this, pregnancy is one of the most delicate stages in every woman's life requiring increased medical care and attention. It induces a variety of abnormalities which, may lead to flinty situations if unnoticed or neglected. Such abnormalities and complication can turn severe and initiate instances leading to death of both mother and infant. They should be protected from such complications. With immense growth of big data in biomedical and healthcare communities, precise analysis of medical data and early disease detection is viable. But the analysis accuracy is reduced when the quality of medical data is incomplete. Legion of algorithms are known but some of them can be greatly used in the biomedical field for varied analysis and predictions. The modified prediction models are experimented over real-life hospital data collected. The project works on effective performance in predicting risk levels during pregnancy from the collected, standardized and transformed data efficiently using supervised machine learning classification algorithms like decision trees or random forest

Academic Year-2017-18

Nature of Collaboration-Training

Name of Collaborative Agency-National Instruments (USA)

Activity Name-VESIT NI LabVIEW Academy

2017-2018

VESIT- NI LABVIEW Academy  
LabVIEW Core 1 and Core 2 course

Coordinator: Mrs. Kanchan Chavan

Instructors: Mrs. Kanchan Chavan, Mr. Kader Shaikh, Mrs. Sangeeta Ram

Prepared By: Mrs. Kanchan Chavan

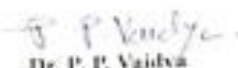

Under NI LabVIEW academy in collaboration with National Instruments (USA), training programme on "LabVIEW Core1 and Core2 course" was conducted from 11<sup>th</sup> July to 17<sup>th</sup> July 2017. 18 Students participated in this course.

Final year instrumentation VESIT - 16 students and other engineering colleges - 2 students

The course contents are-

LabVIEW Programming Environment: components of LabVIEW, data flow, Troubleshooting and debugging VI, Implementing a VI; Data Types, documenting code, while, for loops, Timing a VI, iterative data transfer, plotting data, structures, relating data: arrays, clusters and type definition, common design techniques and patterns: sequential programming, state machines architectures, events, timing a design pattern and event programming. Data management techniques: Communicating among multiple loops: variables, functional global variable, rare condition, synchronizing data transfer, File I/O techniques: Low high and advanced, Data Acquisition and interfacing instruments: hardware setup, software, measuring analog input, generating analog output, instrument control: using GPIB, serial port, software architecture, Instrument I/O assistant, Visa and instrument drivers.

**Subject:** Successful completion of the project "ERP and Data Analysis System for Printing Industry".

This is to certify that following students Varun Golani, Hitesh Hinduja, Akshay Dudani, Khushboo Jethwani have completed the project titled "ERP and Data Analysis System for Printing Industry" at the Sai Pack Industry with all the required documentation and reports.

They worked as interns for the period from 14th July 2016 to 31st March 2017.

This training period with our Company entailed dealing with important and sensitive information, records and such other matters of the company. They, therefore, will have to maintain the secrecy agreement of the company specifically for this project. Company reserves the right to be informed as and when the project details are presented or published at any level.

Best Regards,

(Manish Dudani)

(Proprietor, Sai Pack Industry)

## Abstract

The number of processes to manage in a printing industry becomes very complex to manage. On the given requirements the goal is to create an overall system that manages the tasks such as stock management, accounting, employee management, machine status management, order tracking. The development based on many components is advantageous for building the ERP system according to business needs and makes the maintenance and upgrading becomes more convenient. There is a queuing model for managing jobs in different phases. These phases include Printing,Lamination,Punching,Corrugation and Pasting,Delivery.The Printing queue is a priority queue consisting of three priorities(Normal,High,Highest) and the rest phases have an FCFS queue.The Stock table is auto managed by the software and purchases are also tracked. Employee Management System also has options for Insert,Delete,Update,View Employee. This report also tells us about how the business requirements are achieved by the ERP system.

Subject: Summer Internship

Dear Sir,

We are pleased to invite Internship for Yash and Avinash with HPCL .The duration of the summer internship will be from June 15 – July 9, 2017.

**Kindly advise the student to report to the Project Guide, Shri B Srinivasa Gopala Krishna, Ch.InstIn Mgr,Hindustan Petroleum Corp Ltd, Sewree Wadala Complex,Sewree II Sewree East on June 15, 2017 at 09.00 am .**

No stipend per month will be paid during the course of this training. No other allowances, whatsoever, will be paid to the student. In this regard, HPCL does not provide any accommodation. At the office premises during the training period, the student will be allowed to avail the infrastructural facilities and follow the office timings as advised by the Project Guide. On successful completion of the project work, the project guide would issue the certificate to the student.

We wish all the success to the students,

Very Truly Yours

  
Pratik Kaware  
Sr.Mgr-Capability Building
