4.3.3 Bandwidth of internet connection in the Institution

Institute upgrades the Internet facilities regularly. At present we have a 100 MBPS dedicated Leased line, which is observed by the peer team and mentioned in their report that "Institution updates its IT facilities including Wi Fi". Supporting documents are attached for your kind consideration.

As per VES Centralized Network policy, 200 MBPS leased line has been purchased from Reliance Jio Infocomm Limited as primary ISP and 200 MBPS leased line has been purchased from Bhawani Cable and Broadband Services as a buffer. Both leased line inputs have been activated with load balance redundancy for maintained 99.9 % uptime.

Billing of both ISPs are addressed to VES head-office. VES Head-office will pay internet charges to above mentioned ISPs.and in turn generates the debit notes institute-wise as per their bandwidth requirement and utilization and Institutes will be paying to VES head-office accordingly.

- a) Access-Network / Core Network – 98%

In addition to the above, network unavailability doesn't include scheduled maintenance, which should not exceed 660 min. in a quarter subject to a maximum of 180 min at a stretch or any unavailability resulting from:

- 1) Customer's applications, equipment, or facilities

- Service outage credits are granted if the Network availability falls below the target objective of 98% with an availability of 98% uptime, 7 & half hours of network unavailability per month is exempt from service outage credits. The rebate offered in case of downtimes beyond the SLA of 98% will be calculated on actual downtimes faced at the customer end for the delay in connectivity uptime resulting from Bhawani end.
