INNOVATIVE SUSTAINABLE DEVELOPMENT THROUGH FIELD PROJECTS

ACADEMIC YEAR 2024-25

DEPARTMENT OF COMPUTER ENGINEERING

Name of the Organization: Aastha Constructions

LabourNet - A digital platform connecting the construction industry

In today's fast-paced construction industry, efficient workforce management is crucial for seamless project execution. However, builders and contractors often struggle to find skilled workers, while workers face challenges in securing reliable job opportunities. Recognizing this gap, our team developed LabourNet-a digital platform designed to bridge the connection between builders, contractors, and workers, making the hiring process more streamlined and effective.

Domain: Application Design and Product Development

Group No: 27

Team Members Name

- 1. Sohan Nagothi
- 2. Manas Mungekar
- 3. Suhan Poojary
- 4. Yash Sharma

Mentor

Prof. Sujata Khandaskar Github Link Video Link
