SUSTAINABLE DEVELOPMENT GOALS

H.A.B.I.T FOUNDATION

## Name of the Organization: SR Counselling India

### SR ECHOTALES - AI-POWERED STORYTELLING APP

SR Echotales is an AI-powered storytelling app designed to reduce screen time and improve well-being through immersive audio stories. With SDG 3 (Good Health & Well-Being), we promote better sleep, lower stress, and a balanced digital lifestyle. SDG 4 (Quality Education) ensures access to enriching and educational stories for all ages. By supporting SDG 11 (Sustainable Cities & Communities), we encourage mindful tech use for healthier living. SDG 10 (Reduced Inequalities) ensures that everyone, regardless of background, can access meaningful storytelling. Through SDG 17 (Partnerships for the Goals), we collaborate with experts to provide stress-free storytelling experiences. SR Echotales helps people enjoy better focus, relaxation, and connection—all with just 20 minutes a day. Join us in creating a future of Less Screens, More Stories!

**11 SUSTAINABLE CITIES AND COMMUNITIES**
**10 REDUCED INEQUALITIES**
**3 GOOD HEALTH AND WELL-BEING**
**4 QUALITY EDUCATION**

**Group no. 35**

## Domain: Application Design and Product Development
