## Thinking "Out of the Box" for Problem Solving

-Suhanee Kandalkar

To search out for our hidden talent, the Ministry of Education came up with this brilliant session on "Out of the Box for Problem Solving" on Tuesday, 28th June 2022. Prof. V. Kamakoti (Director, IIT Madras) was the Chief Guest for this event. This event took place online on YouTube.

The distance was never a barrier for them as the session took place through the online platform of YouTube. The speaker and our VESIT coordinator, Mr. Sunny Nahar (Assistant Professor, Department of Master of Computer Application), ensured 2-way communication by the option of YouTube comments throughout the session.

Mr Dipan Sahu, representative of MOE's Innovation Cell, began with clarification of the objective of the session. He said, "Today's session will address the connection between the problem and the solution and how it will establish a beat between the two so that we can say we are the innovator approaching an innovative way."

Prof Kamakoti started the session with a quote, "If a reasonable person lives according to the society, the unreasonable person wants the society to live according to him." According to the professor "Early is just a number!" If your innovative thinking can change the way the world thinks and bring the solution to the problem faced by people, your mind has to be cultivated to think differently.

For any problem there would be one solution, someone may tell you that, but there can be another different answer, which is what we mean by thinking differently. It was beautifully explained by the professor using a wide range of surprising examples.

For instance, guess the next number in the sequence 1,3,5,7,9,11,13,15,17,19. "21" would be anyone's guess. Well, it may be right but any other thoughts? "31" ...why? both the numbers should be odd. This is what "out-of-the-box thinking" is.

Prof. V. Kamakoti (Director, IIT Madras) started off the session with great enthusiasm.

Another example given was: '1234' -is a 4-digit number, 6666-is a repeated 4-digit number. A number speaks: I am a four-digit number made of repeated digits of only one digit, I am closer to 2000 than 3000. Who am I? The answer is pretty simple, 2222 isn't it? Don't you think the answer is also 1111 if we just changed our perspective and view externally?' The speaker added, "This proves there is this left-hand limit and a right-hand limit fixed in your brain that sometimes becomes the only limitation. Thinking beyond this line, I swear creativity is born."

The audience was moved from their seats when the speaker solved a basic mathematical problem without even whispering maths. He also added that the easiest way to make our brain think differently is by using mathematics. Towards the end of the session, the professor introduced the free course taking place on YouTube with access to recorded lectures.

The speaker ended on an inspiring note, "You need to solve the problem and convince yourself first." By sharing 5 MCQs with the participating audience, he ensured our mind starts thinking out of the box trying to find these solutions.

-Rushikeshi Sarak

## Prototyping with Arduino

EXTC - Tinkerer's Lab successfully conducted an excellent 'Prototyping with Arduino' workshop on the 28th, 29th, and 30th July 2022. The workshop was open to all second-year students. It started with an introductory speech from Dr. Chandan Singh Rawat (Head, Department of Electronics and Telecommunication).

The workshop was organized and coordinated by Mr. Mrugendra Vasmatkar (Assistant Professor, Department of Electronics and Telecommunication) and Dr. Nadir N. Charniya (Professor, Department of Electronics

and Telecommunication). It was conducted by Senior Council Members of EXTC Tinkerer's Lab.

The workshop's primary objective was to help the students learn and enhance their skills and create a better understanding of Arduino for Sem-III projects. The total number of participants recorded was between 85-90.

### Day 1

On the very first day, the workshop began with a basic 'Introduction to Arduino' and the Basics of Digital and Analog Electronics.

Coordinators of the event (L-R): Dr. Nadir Charniya (Professor, Department of Electronics and Telecommunication) and Mr. Mrugendra Vasmatkar (Assistant Professor, Department of Electronics and Telecommunication)

**Aditi Bombe** (D14B) introduced the students to what an Arduino is, the essential components of Arduino, its importance, and its applications in various electronic devices. **Dsouza Alrich Xavier** (D14B) introduced the Arduino microcontroller and IDE to all second-year students.

**Dr. Chandan Singh Rawat (Head, Department of Electronics and Telecommunication) addressing the students on Day 1**

**Day 2**

The next day continued with an introduction to the use of Software Simulation of Tinkercad. **Shantanu Deshmukh** (D14B) explained the circuits and simulation in TinkerCad. The basic designing and all the necessary codes were taught to the students which were required to carry out the application.

**Day 3**

The last day was about implementing what students learned in the last two days. It was project-based, students had to carry out four projects based on LCD, Ultrasonic Sensors, IR Sensors, and T-Segment Displays. Volunteers were assigned to

help the students to come up with the results of each project. The faculty members visited and interacted with the students, analyzed their performance, and appreciated the Senior Council Members for their collective efforts.

Finally, the workshop concluded with a QnA round, where seniors answered some of the participant's questions in a detailed manner leaving them with no doubts. Also, a WhatsApp group was created by the organizers to clear any additional doubts students had.

**EXTC Tinkerer's Lab Senior Council 2022-23 (Top-Bottom, L-R): Atharva Nayak(D14A), Shantanu Deshmukh (D14B), Riya Gorade (D14A), Aditi Bombe (D14B), Atharva Kale(D14A), Alrich Xavier (D14B), Pratik Patkar (D14B), Atharva Petkar (D14B) and Aayushi Rajeshirke(D14B)**

Narrating his experience, Aditya Gaikwad (D9B) said, "Altogether it was really a nice session, it was a good initiative from our seniors. They delivered every concept with energy and enthusiasm and were very approachable for doubt solving too."

Prathamesh Savalkar (D9B) said, "This amazing workshop was a complete exposure to the understanding Arduino which will help me in doing some innovative projects in the future."

**Speakers of the event (L-R): Aditi Bombe (D14B), Dsouza Alrich Xavier (D14B) and Shantanu Deshmukh (D14B)**

In all, the workshop was a great success, with participants learning how to implement the theoretical knowledge in a practical way. In the end, all the attendees were well equipped with the knowledge of Arduino and were made familiar with the circuit, stimulation, and hardware aspects.

**Participants interacting with their seniors**

Councils

New Cultural Council is Elected

-Prachit P. Paralikar

The VESIT Cultural Council for the academic year 2022-23 was formed on the 29th July, 2022. **Sejal Bishoyi** (D11) was elected as the Cultural Secretary.

The Cultural In-charges of all classes; SE, TE, and BE; elected the Junior and Senior Secretaries by casting their votes on the 29th of July. While the election campaign took place a day before in the auditorium, the results of the election were declared in the amphitheater.

**Cultural Secretary: Sejal Bishoyi (D11)**

The newly elected Cultural Secretary said, "Everything we do weaves into this beautiful fabric of life. The exams we passed with bare minimum effort to the competitions we won with months of preparation. It all adds up to what we look back onto and college is a big patch of that fabric."

She added, "Our dynamic team is ready to weave all of it together for everyone on the campus. Now that college has begun in full swing, my heart fills with so much warmth and excitement for the events we will welcome in the future. With such an

exemplary team beside me, I am aiming to deliver nothing but the best VESIT has experienced." The Cultural Council for the year 2022-23:

**Senior Council (Top-Bottom, L-R): Shruti Dalvi (D12A), Ishika Singh Gaur (MCA2A), Gaurang Desai (D15A), Niraj Divekar (D14B) and Ameya Roplekar (D11)**

**Junior Council (Top-Bottom, L-R): Aakanksha Suvarna (D10B), Soham Shetye (D10A), Shraavani Tople (D9B), Aradhya Ingle (D7A) and Swayam Gaikwad (D11AD)**

Name	Designation
Sejal Bishoyi (D11)	Cultural Secretary
Ameya Roplekar (D11) Gaurang Desai (D15A) Ishika Singh Gaur (MCA2A) Niraj Divekar (D14B) Shruti Dalvi (D12A)	Senior Deputy Cultural Secretary
Aakanksha Suvarna (D10B) Aradhya Ingle (D7A) Shraavani Tople (D9B) Soham Shetye (D10A) Swayam Gaikwad (D11AD)	Junior Deputy Cultural Secretary

**The Volunteering team:**

Aaryan Solkar (D11), Kaustubh Kharche (D12B), Harsh Rane (D12C), Shantanu Kolhe (D6), Ayush Singh (D9B), Vedika Chavan (D9A), Shreyas Patil (D11AD)

**The Volunteering Team (Top-Bottom, L-R): Ayush Singh (D9B), Kaustubh Kharche (D12B), Harsh Rane (D12C), Aaryan Solkar (D11), Shantanu Kolhe (D6), Vedika Chavan (D9A) and Shreyas Patil (D11AD)**

# The All New SoRT Council

This year, we had new members competing for the posts in SoRT Council. The election results were declared on Friday, 29th July 2022. **Mr. Vivek Umrikar** (Head, Department of Humanities and Applied Sciences) was the Election Officer for the VESIT Council elections. SoRT council never disappoints us when it comes to bringing a new change in society and making it a better place. The secretary of SORT council this year was **Soniya Deshmukh** (D14B).

Members of the SORT council and their posts:

Name	Post
Soniya Deshmukh (D14B)	SoRT Secretary
Aditi Mishra (D11) Chinmay Vyapari (MCA2B) Diya Shah (D15A) Milind Sawant (D14A) Shreya Kukreja (D12A)	Senior Deputy SoRT Secretary
Aadarsh Dubey (D9B) Aniket Ratha (D9A) Arya Banavali (D7A) Swarnika Singh (D10B) Yashodhan Sharma (D7B)	Junior Deputy SoRT Secretary

**Senior Council (Top-Bottom, L-R):** Aditi Mishra (D11), Chinmay Vyapari (MCA2B), Diya Shah (D15A), Milind Sawant (D14A) and Shreya Kukreja (D12A)

**Junior Concil (Top-Bottom, L-R):** Aadarsh Dubey (D9B), Aniket Ratha (D9A), Arya Banavali (D7A), Swarnika Singh (D10B) and Yashodhan Sharma (D7B)

-Shreya Nalawade

**SoRT Secretary: Soniya Deshmukh (D14B)**

**The Volunteering Team :**

Suleman Mathekar (D15A), Mehul Nikambh (D11), Kaustubh Pawar (D14B), Sairaj Deshpande (D7A), Rujuta Bhor (D9B), Rushikesh Yeole (D10B) and Aaryan Ghogle (D6E)

**The Volunteering Team (Top-Bottom, L-R):**

Suleman Mathekar (D15A), Mehul Nikambh (D11), Kaustubh Pawar (D14B), Sairaj Deshpande (D7A), Rujuta Bhor (D9B), Rushikesh Yeole (D10B) and Aaryan Ghogle (D6E)

# Photography at its Best: VPC 2022-23

-Vrushabh Karavde

VESIT Photocircle, also known as the flashguns of VESIT, are set to capture more fun memories, with their newly formed team of SE, TE and BE council.

VESIT Photocircle conducted a **Recruitment Drive** for all the students of VESIT on 30th July 2022. The interviews, which were conducted online on Zoom platform, started at 11:00 am and went on till 8:30 pm. The recruitment the drive was conducted with an aim to add more

Photographers and Editors who have a good knowledge and skills that are required to join VPC.

The new members were recruited on their knowledge of photography and the photographic techinques. Large number of candidates registered their names from SE, TE and BE. The interview was conducted in two rounds: the first round was based on their response in the shared google form during registration, where candidates were asked to upload their original photographs. Then

the few selected candidates were qualified for the interview round. The judges for the main interview round were the senior council of VPC. The interview round was taken in online mode on google meet. Time slots of 10 minutes were made for every individual candidate, it took a whole day for the main interview round. Technical questions were asked in the interview round and their prior experience in photography.

**SE Council (Top-Bottom, L-R):** Aaqueeb Pinjari (D10B), Abhishek Jadhav (D10B), Maithli Borkar (D9A), Rishika Chaubal (D9B), Rishika Chaubal (D9B), Abhinav Gupta (D9A), Soham Nimbarkar (D10B) and Vedant Pawar (D7C)

**TE Council (Top-Bottom, L-R):** Rajat Mhatre (D14B), Rishabh Goray (D11A), Shreya Singh (D11AD), Hrishikesh Kudale (D11AD), Kedar Gawhankar (D15B), Pushkaraj Chaudhari (D15B), Prasad Jawale (D11AD), Prajwal Patil (D15B), Aditi Bhatia (D12A), Kshitij Pawar (D13), Tejas Lagwankar (D14B) and Kshitij Shidore (D11AD) and Abhishek Thorat(D11AD)

**BE council (Top-Bottom, L-R):** Tejas Mahajan (D17A), Advit Kulhada (D19A, Shivam Singh (D20B), Paritosh Borkar (D19B), Vrushank Dhande (D16A), Manthan Pawar (D17C), Deeptanshu De (D16A), Harsh Falak (D18) and Vishakha More (MCA1A)

SE Council Members	TE Council Members	BE Council Members
Maithli Borkar (D9A) Abhinav Gupta (D9A) Abhishek Jadhav (D10B) Rishika Chaubal (D9B) Aaqueeb Pinjari (D10B) Vedant Pawar (D7C) Soham Nimbarkar (D10B)	Rajat Mhatre (D14B) Rishabh Goray (D11A) Shreya Singh (D11AD) Hrishikesh Kudale (D11AD) Kedar Gawhankar (D15B) Pushkaraj Chaudhari (D15B) Prasad Jawale (D11AD) Kshitij Shidore (D11AD) Kshitij Pawar (D13) Tejas Lagwankar (D14B) Prajwal Patil (D15B)	Tejas Mahajan (D17A) Advit Kulhada (D19A) Shivam Singh (D20B) Paritosh Borkar (D19B) Vrushank Dhande (D16A) Manthan Pawar (D17C) Deeptanshu De (D16A) Harsh Falak (D18) Vishakha More (MCA1A)

# The New VESIT Music Council is here!

-Ninad Joshi

The Music Council has been nothing less than a focal point for all music lovers. Members of Council are expected to have a passion for music.

The College conducts elections to the Students' Council every year. The college promotes students council activities with the objective of inculcating democratic values and leadership qualities among the students of the college.

This year also elections took place for the formation of all Councils including the Music Council. Music In-charges for all classes including SE, TE, and BE elected Junior and Senior Secretary by voting on 29 July, 2022. The results were announced in the amphitheatre on the same date.

**Swaraj Patil** (D11) triumphed in the election and won the title of Secretary of Music.

Music Secretary : Swaraj Patil (D11)

Vesit Music Secretary Swaraj Patil (D11) said, "Nobody would have thought of so much competition for the post of music secretary. There were 3 candidates standing for this post. Till the end nobody knew who was going to win and the competition was tough. But when the results were announced and when I heard my name as the new music secretary for the year 2022-23, I was

flabbergasted. After the elections I was totally ready for the awesome year ahead. Events, jam sessions, performances, flashmob, I had everything planned. Really excited to start the year with the best of fun and enthusiastic events for the college!"

Newly elected members of the Musical Council:

Post	Name
Music Secretary	Swaraj Patil (D11)
Deputy Senior Music Secretary	Anvita Koyande (D13) Atharva Hedao (D14A) Dhanshree Pandey (D11) Puja Mahankuda (D14B) Sakshi Umrani (MCA2A)
Deputy Junior Music Secretary	Atharva Baheti (D6AD) Payoshni Khekale (D10B) Prajakta Upadhye (D10A) Pranav Rane (D7B) Siddharth Patil (D9B)

Senior Council (Top-Bottom, L-R): Anvita Koyande (D13), Atharva Hedao (D14A), Dhanshree Pandey (D11), Puja Mahankuda (D14B), Sakshi Umrani (MCA2A)

Junior Council (Top-Bottom, L-R): Atharva Baheti (D6AD), Payoshni Khekale (D10B), Prajakta Upadhye (D10A), Pranav Rane (D7B) and Siddharth Patil (D9B)

The Volunteering team:

Vinit Patil (D12B), Kaushik Shasranaman (D12A), Mansi Shah (D12A), Vedant Jadhav (D11), Gaurav Ambartani (D12C), Janhavee Awate (D9A), Vinay Israni (D10A) and Gaurang Rane (D6)

The Volunteering team (Top-Bottom, L-R): Vinit Patil (D12B), Kaushik Shasranaman (D12A), Mansi Shah (D12A), Vedant Jadhav (D11), Gaurav Ambartani (D12C), Janhavee Awate (D9A), Vinay Israni (D10A) and Gaurang Rane (D6)

## Societies

# Unveiling a Deep Element of Data Science

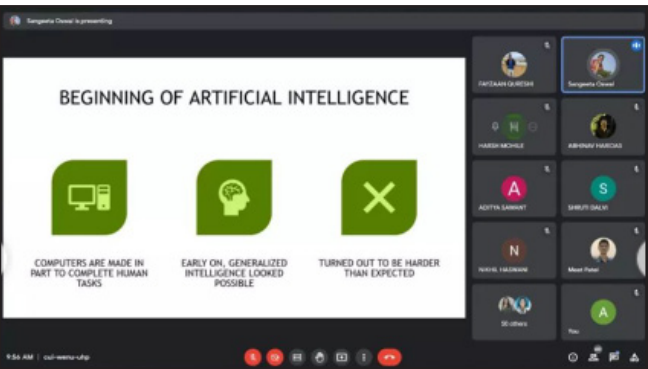

-Gargi Angne and Vishakha Singh

NVIDIA Deep Learning Institute (DLI) in association with CSI-VESIT organized a workshop on “**Fundamentals of Deep Learning**”. It was an online workshop held on Google Meet and was conducted by **Mrs. Sangeeta Oswal** (Assistant Professor, Department of Artificial Intelligence and Data Science). It took place on the 9th of July from 9:30 AM to 3.30 PM.

Poster of the workshop

Deep Learning is a subfield of machine learning concerned with algorithms inspired by the structure and function of the brain called artificial neural networks.

Screenshot of the Google Meet where Mrs. Sangeeta Oswal gives an overview of the initial phase of Artificial Intelligence

These neural networks are a set of algorithms, modeled loosely after the human brain, that is designed to recognize patterns. The participants got to learn about the basics and “Hello World” of Deep Learning, training and improving the performance of complicated models, validation and transfer learning on pre-trained models.

Speaker of the event: Mrs. Sangeeta Oswal (Assistant Professor, Department of Artificial Intelligence and Data Science)

The students were asked to create an NVIDIA Developer Account and were given access to deep learning material, exercises, and assessments. The workshop was completely hands-on where the participants coded along on GPU powered cloud server, JupyterLab platform and Jupyter Notebooks, using powerful deep learning libraries such as TensorFlow and Keras.

Mrs. Oswal explained all the concepts in great detail and clarified all the doubts of the attendees. The session was conducted successfully and received a whole lot of positive feedback.

# ISA-VESIT's BE and TE Council

-Sai Thikekar

ISA VESIT is well-known for its in-depth technical workshops that are infused with cutting-edge technology and provide total skill development. ISA gives individual hands-on experience to their members in the BE, TE, and SE council.

BE Council interviews were conducted by the former BE council members in brief based on their last year's performance. The Senior Council for the academic year 2022-23 was announced following the exciting interview process.

The BE Council conducted interviews for the creation of the TE Council. Candidates were required to submit a Statement of Purpose (SOP) along with a list of position preferences using a Google form, explaining their strengths, flaws, successes, their goal for joining the council, and so on.

On July 24th 2022, interviews were held online, with each candidate being granted a specific time window for the interview. The BEs hand-picked the top 15 most qualified applicants to comprise the TE for the academic year 2022-2023.

Prathamesh Komte (D13), Operations Officer at ISA shared his experience, "All TE students were eligible to apply for ISA-VESIT TE council interviews for the academic year 2022-23. Only the mandatory criteria was to be an ISA member first. It was a fantastic conversation about how I can help society in my position and how well I am aware of technical events and activities. Even though I lack technical skills, the BE council made an effort to get to know me all around, including my editing and managerial abilities. I was fortunate enough to get myself recognised as a deserving candidate."

ISA-VESIT's BE Council for the Academic year 22-23

Position	Name
President	Hrutika Phakale (D18)
Vice President	Nidhi Mundhada (D19B)
Sr. Treasurer	Omkar Hirugade (D18)
Sr. Public Relations Officer	Esha Kadam (D19B)
Chief Executive Officer	Madhura Padge (D18) Om Shetty (D16A)
Sr. Software Developer	Asmita Bhangare (D17B) Dhruvisha Mondhe (D17B)
Chief Editor	Janhavi Bhutki (D19B)
Chief Technical Officer	Shripad Kulkarni (D19B)
Chief Operations Officer	Prajakta Ukarande (D18) Saritha Tharakan (D16A)

ISA-VESIT's TE Council for the Academic year 22-23

Position	Name
Secretary	Nachiket Suryawanshi (D11)
Technical Officer	Maitreya Kadam (D14A) Kshitij Nag (D14A)
Jr. Treasurer	Sanchit Mhadgut (D13)
Operation Officer	Nikhil Gore (D13) Prathamesh Komte (D13)
Jr. Public Relations Officer	Shubham Kumar (D14B) Vaibhav Singh (D14A)
Jr. Software Developer	Yash Chavan (D14A) Aarya Lotke (D12C)
Web Editor	Aman Rajbhar (D13)
Technical Executive	Vinayak Rasal (D13) Nilesh Sharma (D11)
Jr. Editor	Tanaya Gaikar (D13) Avantika Narvekar (D14A)

# ISTE-VESIT: New Year, New Council

-Kavish Punjabi

Like every year, the B.E. Council bid farewell to their Society, and the newly elected B.E. and T.E. Council took charge of the responsibilities of the Council. Technical societies help in the growth of students by improving their knowledge, managing time, developing practical skills, creating networks.

After an exciting round of interviews held by the previous year's B.E. Council on 3rd July 2022, **Varnit Batheja** (D17A) was selected as Chairperson, **Srushti Jagtap** (D19B) as Co-Chairperson, **Mrunmayee Waingankar** (D17C) as Chief Executive Officer, and **Devansh Singh** (D16A) as Senior Treasurer.

The candidates for T.E. council were required to send the SOPs (Statement of Purpose) by 16th July 2022 11 pm, and their interviews were conducted on 17th July 2022. There were 4 panels of the B.E. Council.

Anushka Darure (D14A) while sharing her experience about the interviews said, "It was nerve-racking definitely but in retrospect, it gives us a basic training of working and speaking under pressure. As I was applying for the post of secretary, the interview was more intense. But truly it was a fun learning experience. Seniors taking the interviews did help us calm our nerves by asking some introductory questions which helped in

making us comfortable."

On asked for her reasons to join ISTE she said, "ISTE-VESIT is one of the well-renowned societies and being a council member of such a society was an honor. ISTE-VESIT has always been a platform where you can learn and explore new things. Also, it will enhance my technical as well as non-technical skills. As a part of the council, I will develop leadership and communication skills."

ISTE BE council for the Academic year 22-23

Position	Name
Chairperson	Varnit Batheja (D17A)
Co-Chairperson	Srushti Jagtap (D19B)
Chief Executive Officer	Mrunmayee Waingankar (D17A)
Sr. Treasurer	Devansh Singh (D16A)
Chief Operations Officer	Gauri Mahajan (D17C)
Sr. Operations Officer	Minal Katware (D17A) Nidhi Thakkar (D20A)
Chief Technical Officer	Aamir Ansari (D20A)
Sr. Technical Officer	V Krishnasubramaniam (D20A) Khushboo Dalwani (D17A) Kusum Rohra (D17A) Khushboo Dhingra (D17A)
Chief Marketing Officer	Isha Gawde (D20A)
Sr. Editor	Shrushti Govindwar (D17C) Jisha Philip (D20A)
Senior Graphics Officer	Swarli Patil(D20A) Nafees Akhter (D19B)

Names and their designated post in the T.E Council:

Postiton	Name
Managing Secretary	Subatro Tapaswi (D11AD)
Operations Secretary	Anushka Darure (D14A)
Executive Secretary	Divisha Gupta (D15A)
Technical Officers	Surya Ganiga (D11AD) Sarvesh Patil (D15A) Atharva Bhoite (D15A) Japneet Rajput (D12C) Hrshikesh Patil (D12B) Bhargav Bodhankar (D15A)

ISTE TE council for the Academic year 22-23

Position	Name
Operations Officer	Neeraj Chawla (D12B) Denzil Nelson (D12B) Shrey Panchamia (D12A) Upendra Falak (D15A) Sahil Kodwani (D15A)
Jr. Public Relations Officers	Anushka Kulkarni (D11AD) Atharva Joshi (D14A) Khushi Mahamunkar (D15A)
Graphics Officer	Omkar Mahajan (D12B) C.S. Lakshmi (D13)
Jr. Treasurer	Manas Lalwani (D11AD)

# ISA- VESIT conducts “Web Application Using Firebase” Workshop

-Anagha Kulkarni

ISA-VESIT organized their first workshop for the year 2022-23 on “Web Applications using Firebase” on the 2nd and 3rd August 2022. It was conducted via the Google Meet platform having two sessions each day at 10:30 am and 1 pm respectively.

Poster of the workshop

This workshop was open to all the branches and a total of 40 students participated in it. It was conducted by Chief Technical Officer at ISA-VESIT **Shripad Kulkarni** (D19B) and Chief Executive Officer at ISA-VESIT **Om Shetty** (D16A).

Speakers of the event (L-R): Shripad Kulkarni (D19B) and Om Shetty (D16A)

Firebase is a platform developed by Google for creating mobile and web applications. It gives you tools that cover a large portion of the services that developers would typically have to build themselves.

This includes analytics, authentication, databases, configuration, file storage, push messaging, etc. Students gained in-depth knowledge of CSS, JavaScript, and developing web applications using Firebase.

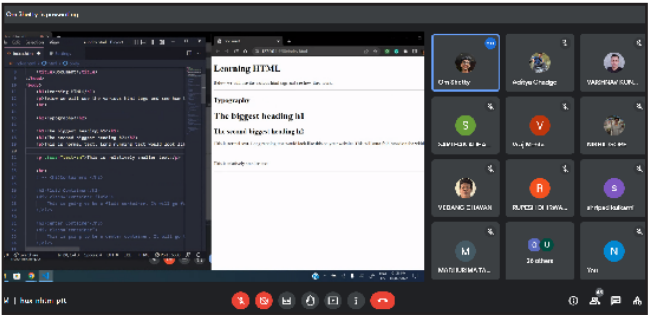

### Day 1

The fundamentals of HTML, CSS, and JavaScript were covered by Om Shetty (D16A). Further, the participants were acquainted with the concepts surrounding Git and GitHub to understand how to handle the code effectively.

### Day 2

The advantages and functions of 'Tailwind CSS' were explained in detail along with Firebase and its various services. A web application was built to implement authentication and login. The participants were also elucidated about CRUD operations.

This workshop was a successful one as both the speakers explained the basics thoroughly, at the same time making sure that the workshop was exciting. “We gained knowledge of using Tailwind CSS to make the website visually beautiful, as well as the idea of using Firebase in web projects. We are grateful to the whole team of ISA-VESIT for such a valuable workshop”, said Sahil Madhyan (D12C).

Screenshot of speaker Om Shetty (D16A) briefing the participants on HTML Fundamentals

# VESIT Batch of 2023 Bags a Total of 41 Placement Offers in JPMC

-Sania Khan

It was an outstanding start to the placement season of batch 2022-23 as **JPMorgan Chase**, the renowned multinational investment bank and financial services company recruited **41 VESIT students** offering them an enormous CTC of 17.75 LPA. This is a moment of rejoicing and glory and we would like to congratulate each of these bright minds of VESIT! VESITConnect reached out to two students, **Janhavi Bhutki** (D19B) and **Nupur Jeswani** (D20B), who shared their selection process and gave valuable tips for upcoming aspirants. Their first interaction with the JPMC

Executives was when they were informed about JPMC placements and the Code for Good hackathon by their Training and Placement Officers. After registering for **Code for Good**, there was an introductory session on zoom conducted by JPMC executives and Code for Good organizers. In this session, they were informed about Code for Good and the whole placement process. The executives were co-operative and answered all their questions. They also interacted with the executives during the hackathon as two mentors are allotted to each team who observe and guide you throughout the hackathon.

Placement Statistics for JPMC Drive 2022

JPMC hires through a hackathon **Code for Good** and for participating in this hackathon they had to clear two rounds. The first part was a **Coding Round** which was conducted on HackerRank and the second part was a video interview that was conducted on the HireVue platform. In the Coding Round, two questions had to be solved in one hour. Students could select any of the programming languages of their choice and had to pass all the test cases for the problem statements. In the video round, they were given two HR-based questions for which they had to send a 2-minute recording of their answers.

People who got selected in these two rounds were eligible for Code for Good, a 24-hour all-India-level hackathon where you randomly get paired with 7-9 students. They had to create a web/mobile application for the NGOs referring to the problem statement that was given to them.

When asked about their experience with the coding rounds, Janhavi said, "If you have been coding for some time and you have practiced competitive coding questions on HackerRank, LeetCode, CodeChef, etc., then this round will be a piece of cake for you. The questions asked were not very difficult and you will be able to solve them quickly if you get the logic. Most of the questions were based on arrays and strings." Nupur suggested that students should master languages in which they can do DSA and competitive coding.

(L-R): Janhavi Bhutki (D19B) and Nupur Jeswani (D20B) shared their placement experiences

Regarding the personal interview round, there were no separate technical interviews for JPMC. They gave 3 interviews. The first one was after clearing the Coding Round in which they had to record their answers to 2 HR-based questions. The other two interviews were taken during the hackathon by the team mentors. These were mostly HR based with 1-2 technical questions. The mentors were very friendly and made them feel comfortable. Questions on the overall hackathon experience, projects they've worked on, what they like/ dislike about their teammates were asked. Janhavi suggested students to have a good knowledge

of Git, Web development/App development.

The most important aspect that was needed during the hackathon was how you pitch in good ideas during the team discussions, and how you communicate with your teammates and mentors. So, these soft skills are as important as your technical skills. Nupur said that, "The problem statements in the hackathon are not just focused on one specific domain. They can ask you to create a web application/mobile application, some of them even involve dashboard creation in the project."

Lastly, they also gave words of advice to future aspirants. Janhavi said, "Enjoy the process. Code for Good is a very delightful and one-of-a-lifetime experience so enjoy every minute of it. Sometimes it might take a bit longer than your peers but, in the end, you are going to make it! We don't know what the future holds for us. Look at me, I always thought JPMC was way out of my league. I gave the coding test just to see where I stand and here I am."

Nupur said, "Just be your best self in the hackathon. They want to see how you work in that kind of environment, whether you respect other people's opinions, and how you think in those situations. Try to stay active throughout the hackathon, to contribute more to your project but let others share their opinion too. Test everything on your computer beforehand. See whether your laptop supports everything, and run your previous projects to confirm if everything works perfectly."

## VESIT Voice

-Tanya Dubey

The VESIT Education department conducted a session on 'Out of the Box for Problem Solving'. EXTC Tinkerer's Lab conducted an excellent 'Prototyping with Arduino' workshop. VESIT Cultural Council, VESIT SoRT Council, VESIT Photocircle and VESIT Music Council, for the academic year 2022-23, were formed. NVIDIA Deep Learning Institute (DLI) in association with CSI-VESIT organized a workshop on 'Fundamentals of Deep Learning'. New councils of ISA VESIT and ISTE VESIT were formed. ISA VESIT organized their first workshop for the year 2022-23 on 'Web Applications using Firebase'. JPMorgan Chase, the renowned multinational investment bank and financial services company, recruited 41 VESIT students offering them a CTC of 17.75 LPA.

In the Life Outside VESIT section, we have our VESIT faculty, Dr. Geeta Ajit (Assistant Professor, Department of Humanities and Applied Sciences), being felicitated as one of weCHANGE's donors during their annual 'Get-together'. We also have Kirti Patil (CMPN 2022) to share her experience while working for a theatre play by 'Gandharva Kalamanch' at Acharya Atre Rangamandir, Kalyan. We also have Varun Arya (D19A) who has won many championships in powerlifting. He has won many medals, including four gold medals, one silver, and one bronze in the Mumbai District Level Powerlifting Championship.

In the Diaries section, Mr. Vighnesh Joshi, who graduated from the Department of Electronics in 2020. Mr. Vighnesh is currently working as a Business Analyst for Paktolus Solutions LLC, Mumbai. He talks about his career, his college life, his hobbies, and much more.

In the Sports section, VESIT Sports Council for the academic year 2022-2023 was formed.

# Life Outside VESIT

## weCHANGE Celebrates their Annual Day Acknowledging their Contributors

- Gaurang Desai

Ensuring that an average social status is achieved and maintained among the less privileged youth and encouraging their education and basic necessities, **weCHANGE** is a significant group of individuals with strong social values that helps the world become a better place.

(L-R): President of weChange: **Mr. Shridhar Lokanathan (INST-2015)** and Secretary of weChange: **Ms. Sampada Inarkar (INST-2016)**

**weCHANGE** is the brainchild of two VESITians, in 2014, who decided to reach out to the underprivileged. The seeds of this plan was sown and nurtured on VESIT grounds. The President **Mr. Shridhar Lokanathan (INST-2015)** and Secretary **Ms. Sampada Inarkar (INST-2016)** were its founders and today it has grown in a large tree, giving succor to many who need it the most. The organization has quickly emerged as one of the significant non-governmental organizations that

are committed to the ideals of education, health, and welfare for all humanity concerned with growing disparities, children working at a young age, and unsupported health culture. **weCHANGE** members and volunteers have been continuously striving hard towards creating leaders of the future, the youth who will run the world in the coming years.

The **weCHANGE** family conducted its annual '**Get-together**' on 18th June 2022 at 'Dr. Kashinath Ghanekar Natyagruha, Thane' from 3:45 pm to 7 pm. The event aimed at bringing all their beneficiaries, donors, well-wishers, mentors and members on one platform.

**weCHANGE** believes that its true backbone is its donors. Donations in terms of money, time, moral support, everything matters at an equal level. The organization thanked their fellow donors on the evening by giving a token of appreciation on the stage. Our VESIT faculty, **Dr. Geeta Ajit** (Assistant Professor, Department of Humanities and Applied Sciences), was also felicitated as one of **weCHANGE**'s contributors to the organisation.

VESIT is immensely proud of this organization and wishes to see it grow even more every year and keep on advancing the education and the well-being of all individuals.

**Dr. Geeta Ajit (Assistant Professor, Department of Humanities and Applied Sciences) felicitated for her contributions to weCHANGE**

**VESIT Alumni at weCHANGE Annual Function**  
L to R: **Varun Chothani, Paresh Pawar, Akshay Rathi, Shridhar Loknathan, Archana Kamath, Sampada Inarkar, Monica Jeshnani, Roshni Bhagat, Anirudh Kadam, Shivam Pandit and Krishna Gangwani**

VESIT is always blooming with people with various talents and activities, from coding to drama, from aesthetics to literature, and so much more. So to 'connect' with these aces, we introduce you to '**Life Outside VESIT**' to have a small peep into their fun experiences.

For this month, we have **Kirti Patil (CMPN-2022)** to share her experience while working for a theatre play by 'Gandharva Kalamanch' at Acharya Atre Rangamandir, Kalyan on 16 July 2022. 'Anay', an adaptation based on the poems by Ms. Aruna Dhere, is a story that revolves around Radha, Krishna, and Anay, the characters from mythology. Kirti shares her experience working on such a lively project, "I have been working with the Gandharva Kalamancha group since 2019.

This year, **Ninad Kadam** (Director of the play) wrote this beautiful play and we did the first show in April. I was working backstage for the first show. Due to some reason, one of the actresses was unable to continue further. Hence, I gave the auditions and got selected for that role. The director and team were very supportive.

As I was working backstage for the first show, I knew about the role and was familiar with the dialogues. The director discussed about the roles and emotions related to the scenes and the characters with all of us. We also did the speech work and then the blocking of play. It was a very beautiful and memorable experience.

The experience of working on stage is outstanding having a great blend of various

mythological characters in the play. Especially, after the lockdown period, returning to theatres with such a great concept and sincere team, I am very thankful for this process and our director **Ninad Kadam**. Looking forward to performing **Anay** in various theatres."

**Kirti Patil (CMPN-2022)**

For this month, we also have **Varun Arya (D19A)** who has won many championships in powerlifting. He has won many medals, including four gold medals, one silver, and one bronze in the Mumbai District Level Powerlifting Championship. After his outstanding performance in various competitions, he has been selected for the National Powerlifting Competitions.

When asked to narrate his power-packed journey, **Varun** said, "I started my journey in 2019, when I was in my first year. I then understood the basic difference between Powerlifting and weightlifting, that powerlifting focuses on attaining maximum strength. I used to go to the gym only for my fitness. During COVID-19, as the gym was

**Varun Arya (D19A)**

shut down, I lost all my body strength, posture and also the sudden stop in gym deteriorated my health. Once the lockdown was finished (in 2020), I again started going to gym and gained all my power and strength back. During this process my coach recognized my abilities and my strength. And my trainer told me to take part in a powerlifting competition. Then in February 2021, I took part in my first powerlifting competition, and won a bronze medal in that. After this competition I gained a little confidence which helped me to initiate to take part in more competitions. That's how I started my journey.

During this process, I faced many difficulties. In the beginning when I competed with others I used to feel very low after seeing them competing

- Ashutosh Mishra

so well and also their strength. In the starting days, it used to be so difficult to lift the weight and many times I used to get injured due to it. In 2022, before my state championship, I had a severe lower back injury while practicing. The situation was so tough that it was difficult for me to participate in the state

championship. But rather than feeling bad and giving up, I decided to take it as a challenge. With guidance from doctors and a proper training with a coach, I recovered from my injury and participated in the state championship and went on to secure the fifth place in Maharashtra.

My future goal is to guide and train the newcomers who are interested in powerlifting with my best experience. And currently I am a state player but in future by performing well in national's I want to represent India in Asian and world powerlifting championships and win a medal for my country.”

# Musings and Expressions

## Courage

Good morning ladies and gentlemen. It's an honor for me to speak a few words on the topic, that is "Courage". Also I'd like to wish you all a very Happy Independence day . Talking about courage with respect to our Independence day, many people come forward to fight for our nation till the last breath.I don't think there's any doubt in it. Do you know what gives impetus to these people? The answer is right in the title of this article, that is courage. So let's get into what exactly is courage and how we see it.

Many people define courage in their respective ways. According to me, courage is the power to do something right in order to stop wrongdoings, at the right time. This definition is applicable to every single person in the world, not just for patriots. Many forms of courage are seen in different timelines, right from the Battle of Kurukshetra (Mahabharata) to the soldiers who leave their family to fight for our nation. We see many forms of courage until now. Not just these, but people working tenaciously to achieve a target, which includes parents , students, everyone in this world show courage in different stages of their lives . Whatever challenges we face, accomplishing them without having anything bad in their minds with respect to anything, requires courage. With this being said, you people might have a question, "How do we maintain courage ?". I have a simple answer for that, which is to make yourself fit to face the challenges every time. No matter whether you win or lose, courage is something we should maintain in both the situations, neither looking back at the past and feeling sad about it, nor getting carried away from the success. The recent example can be our Indian champions in the Tokyo Olympics. However some of them couldn't make ends meet, but apart from money, fame, what they've gained is experience, which has taught them to do better in the future. Not only they, but we have also learned something from our champions.

Also, it doesn't matter what you do or where you live , being fit to face any challenge is a common answer for everyone who seeks something in life. Now, many of us feel that if some leader is performing any sort of strike, for example a hunger strike. What some people do is they mimic the person who is on a strike, so that they get whatever they want. Trust me, this is sheer foolishness. This is a method of blackmailing other people and the ones who mimic, they just live with themselves. Many people in their young age do the same and find themselves in a difficult situation. Not just hunger strike, but anything we do in order to express hatred at the wrong time is what being courageous means. A proper balance of mind is required in such a situation. Misuse of any kind of power leads us to the lowest point of whatever we do. Let me tell you something, from the Bhagavad Gita, "Committing a sin is bad, but tolerating someone committing it is nothing less than a sin". Remember it.

Ashutosh Mishra (D12C)

# Book Review on Reminders Of Him

**R***eminders Of Him* by Colleen Hoover is a raw and emotional book which centered on a mother yearning to meet her four-year-old daughter. It has been five years since the night that changed the entire life of Kenna Rowan. It has been half a decade since her boyfriend Scotty died in accident and she was put behind the bars due to their recklessness of drinking and driving.

She has been now released and wants nothing but to meet her little daughter, Carp Diem, to whom she gave birth while she was in prison and couldn't even once see her; and to earn the forgiveness of Scotty's parents. But of course, things didn't go as she wished. While trying to get amnesty from the Landrys i.e., Scotty's parents and reunion with her daughter, Kenna gets acquainted with Ledger who was Scotty's best friend and has been a fatherly figure for Diem since her birth.

Ledger realizes that he drawn towards Kenna and that puts him in a difficult position where he initially finds no solution which won't hurt anyone. Kenna has been writing letters to Scotty since his death where in there was one letter that described the day the accident occurred and the days post that. Those letters made the Landrys realize the incident from Kenna's point of view.

The book is truthful and heart-wrenching; and one experiences an emotional roller coaster throughout it. The style of writing is such that a simple plot seems a unique experience full of feelings! The story makes us realize that at times there can be no distinct right and wrong, instead all can be right from their perspective. While reading the book one empathizes with both, Kenna's and Landrys' pain and love. Peace and happiness found Kenna and Landrys only when they both thought from each others' eyes. Thus a simple message "EMPATHY" is felt through the story. The usage of different characteristics from daily life such as love, passion, indulgence, indecision, judgement, forgiveness, blame, loyalty, care, grief, loss, acceptance, protection, truth,

Preeti Khamkar (D10A)

## VESIT Diaries

-Tanvi Kate

**F**or the month of July, we had a chat with **Mr. Vighnesh Joshi**, who graduated from the Department of Electronics in 2020. Mr. Vighnesh is currently working as a Business Analyst for Paktolus Solutions LLC, Mumbai. He talks about his career, his college life, his hobbies, and much more.

### 1. Tell us something about your college life at VESIT. What was the most memorable moment at VESIT?

VESIT is my second home. I have always said that and will always say that no matter where I am. My college life in VESIT was just best, where for the first time in my life I connected with a lot of people, may it be my batchmates, juniors/seniors or staff. In my VESIT journey there will be hardly a few days where I have not attended college which made everyday memorable for me teaching me something new but with no doubt Chocolate day during Utsav were the most memorable ones, where receiving unexpected notes & messages from unexpected people was more fun.

### 2. Which extra-curricular and co-curricular activities were you involved in? How important are such activities in one's life?

I was a part of SoRT Council for all the four years of my engineering, was involved in ETRX Department Tinkerer's Lab, was also a part of TedX Committee & in the final year as a Placement Coordinator. I believe academics help you grow technically but all the extra-curricular activities help build your personality. I feel it is very important because being involved in such activities puts you into situations where you have a responsibility to handle it on your own and also connects you with different people from whom you learn some or the other thing. Also being a part or being involved in such activities give you a break from academics where you get to enjoy college life and your mind is refreshed as well.

### 3. Can you tell us more about your job at Paktolus Solutions LLC? What are the day-to-day responsibilities of the role?

It's been 2 years since I started working as a Business Analyst at Paktolus Solutions LLC. I am working on an Insurance domain project wherein I am responsible for Product Integration in our system and advising and implementing solutions for the Production Issues. Other than that I am involved in regular communication with customers to discuss and plan on how to improve the productivity and understanding of any updates on products.

### 4. What are some strategies to best prepare for interviews? What technical skills should a budding engineer have?

I feel there is no other strategy other than presenting the best out of you in front of an employer by being confident, honest and communicating efficiently. It's ok if you are not good at communicating at this point but what is more important is to learn and to improve it through your experiences and talking more with different people about their experience.

As they say your first impression creates a lot of impact on the interviewer but even if you start very well, you need to maintain it throughout the whole time. In the end, one who easily convinces the interviewer that he/she is the best fit for the role, wins. Alongside all the technical & soft skills preparation you do for interview, make sure you have some basic about the employer i.e. What are the products? What technology the company is using etc which will help you in convincing them that you are the one. According to me, you should have a good foundation of the basics in whichever domain you are interested in by knowing the current scenario of that domain, what tools are used in today's technology and to present yourself with all those skills plus decent communication skills.

### 5. Who is your role model in life? What is one rule that you live by?

My father is my role model. The one thing I admire most about him is that you have to keep working hard and in the best possible way and not pay attention to what others are saying or doing around you. People & situations will try to pull you down

Mr. Vighnesh Joshi

in many ways but the best way to go ahead is to keep up with the good work you are doing and not reacting to all the negativity around you.

The one rule I live by is to keep my mind positive in every situation. I believe that, whatever happens in life is for your good.

### 6. How has your experience been working through the pandemic? How do you manage to keep cool during such volatile times?

Everything has its own pros and cons and my experience of working from home in the pandemic was the same way. Obviously working from home saves a lot of time and money but on the other hand you miss out on the exposure and learning environment you get in the office when you are physically present. Recently, I first time met my colleagues in a office party after two years until then we knew each other only through Microsoft Teams DP's. I think to keep calm in critical situations first you need to give yourself the ME time regularly and relax a bit. Pursuing your hobby, meditation or doing exercise, reading books or whatever good you like will help you keep your mind positive and away from everything happening around you which is necessary.

### 7. Can you share a glimpse of your personal life? Any hobbies or interests that you pursue in your free time?

Currently, as I am working from Monday to Friday, the only proper free time I get is on weekends

on which I sometimes hangout with my college friends, my relatives. Being a foodie I love to explore different restaurants and food joints which I normally do with my friends. Other than that I like watching and playing football and I do sing sometimes.

8. A book you read/movie you watched that inspired you the most and why?

Two of the books which inspired me the most are The Secret & Rich Dad Poor Dad. The Secret has taught me how to keep your mind positive all the time no matter what situation you are in. Somewhere it changed my perspective on life and

helped me a lot in selfgrowth. The second one Rich Dad Poor Dad helped me gain knowledge about wealth management. It highlights how the conventional teaching methodology that we are used to learning at school teaches us to work for money but in today's time, working for money is not sufficient. Instead, one needs to learn how to make money work for you.

10. Your message to the new generation at VESIT!

Be kind. In today's generation where negativity & depression hits anyone easily, a meaningful short conversation or a small gesture can really make someone's day. It's totally ok to fail but what really

matters is how you deal with the failure without giving up. Never give up at any time in life. All you deserve is happiness. Everyday in your life teaches you something in some or the other way, it's up to you that how willingly you take it and try to implement it positively in your life. Other than that, enjoy your time at college, make memories because you won't get these wonderful years back. Maintain a balance between your academics & extracurricular activities and live these days up to its fullest. Only once you are finished with engineering and look back to these days will you realize how amazing they are.

Sports

VESIT Sports Council 2022-23: Time to Hit a Perfect Goal

- Rushikeshi Sarak

Sports Council has been no less than a home for all sports enthusiasts. Students feel privileged to be a part of this super-energetic council of vesit. Like every year, elections were conducted for the formation of the Sports Council.

Interested sports incharges of each class nominated themselves for the elections. Mr. Vivek Umrikar (Head, Department of Humanities & Applied Science) was the election officer for the VESIT student council elections.

Sports Secretary: Prathamesh Gudame (D11)

Elections were conducted on the 29th July 2022. The results were announced in the amphitheater on the same day. Respective Sports In-Charge from SE, TE, and BE voted to elect the new Sports Council. SE elected students were designated as Deputy Junior Sports Secretary & TEs as Deputy Senior Sports Secretary.

Prathamesh Gudame (D11) was appointed as the new Sports Secretary for the council formed. He said "I went unopposed as a secretary in both my class and college elections so obviously the surprise element wasn't there, but to be very honest it was a mixed feeling of being overwhelmed and exhausted at the same time but the feeling of sheer excitement shadowed everything at that moment, Ready to start a new chapter on a clean slate. We are planning to have really fun and exciting events ahead. Hoping to have an exciting journey!"

The Sports Council for the year 2022-23 :

Name	Designation
Prathamesh Gudame (D11)	Sports Secretary
Figo Cardozo (D12A) Harsh Singh (D14A) Janhvi Khanvilkar (D11AD) Jason Lobo (MCA2B) Ruchita Dolas (D11)	Senior Deputy Sports Secretary
Ishita Marathe (D7C) Mitalee Shirsat (D6) Sahil Gupta (D6AD) Soumil Tawde (D7C) Utsav Mutadak (D9B)	Junior Deputy Sports Secretary

Senior Council (Top-Bottom, L-R): Ruchita Dolas (D11), Janhvi Khanvilkar (D11AD), Harsh Singh (D14A), Jason Lobo (MCA2B) and Figo Cardozo (D12A)

Junior Council (Top-Bottom, L-R): Ishita Marathe (D7C), Mitalee Shirsat (D6), Sahil Gupta (D6AD), Soumil Tawde (D7C) and Utsav Mutadak (D9B)

The Volunteering team :

Riyansh Jain (D11), Anuj Bagad (D12C), Rajdeep Khaire (D6), Tanuj Bamane (D9B), Tanmay Choudhary (D7C), Unnati Ayalwar (D9A) and Aditi Boob (D9B)

The Volunteering team (Top-Bottom, L-R): Riyansh Jain (D11), Anuj Bagad (D12C), Rajdeep Khaire (D6), Tanuj Bamane (D9B), Tanmay Choudhary (D7C), Unnati Ayalwar (D9A) and Aditi Boob (D9B)

The Sports Council also assembled a new PR Team, which aims to give students all the back-end updates, and event highlights.

The members of the PR Team:

Pranjal Haldankar (D14B), Rishika Chaubal (D9B), Shivani Nikam (D10B), Om Gaikwad (D10A), Shambhu Patil (D11AD) and Soham Nimbalkar (D10B)

The PR Team (Top-Bottom, L-R): Pranjal Haldankar (D14B), Rishika Chaubal (D9B), Shivani Nikam (D10B), Om Gaikwad (D10A), Shambhu Patil (D11AD) and Soham Nimbalkar (D10B)
